**Dormitory Riots Castise**

After five hours of discussion and debate at its Wednesday meeting, Baker House Committee voted to place six students in House Committee Probation and recommended to Department of House Committee that two of his undergraduate representatives be given another year of undergraduate status. The case of this individual will be heard by Dorm Judiciary in the near future and a final decision will be made at that time as to whether he has sustained substantial damage to the dormitory in a "drunken brawl," as one man put it, on Monday night.

Herbert Amster '56, Baker House Chairman, suspended the regular order of business shortly after voting began, in order to say that he wished to discuss some problems resulting from a "minor riot" last Monday night. Amster attempted to close the meeting, and ordered a tape recorder turned off. His unilateral attempt to eject a Theta Keeper from the discussion without debate, was vetoed by the members of the House Committee.

The meeting opened with a birthday party for two students held about 8:30 p.m. in the 41st floor room of the Marriot Bruzet '57. The participants, under the influence, made a grand display. An ornament fell from a window, one of the hallways, before two dozen light bulbs—plunging the party into total darkness—and ripped out the doors. Differences about the persons involved caused some quarrels, but everyone left the building.

According to the man at the desk, the egg was broken in the room of John Woulbroun '55 at about 12:30 a.m. to get some Chinese food. On the way out several of the students collided. While getting out of the building, they encountered the dormitory on the 41st floor, and the students returned at about 2:30 a.m.

The participants were in a rage. They really cut loose; many of them cried drunk . . . shouting like maniacs, acting vulgar, stupid . . . Some were engaged in water fights and broke two pendants on the second floor.

All the participants had been previously warned against escaped party parties by Amster, who summoned the men to appear before the Committee and request the part of the Dormitory By-Laws authorizing action and penalties for such offenses.

Most of the men admitted guilt. On the other hand, some of the participants in the incident, according to the President, have no intention to present incidents, this is going to be for the good of the house.

**FRESHMAN MIXERS**

The Student-Faculty Committee is now planning Freshman Mixers, which are informal get-togethers arranged to acquaint freshmen with their instructors, in the Student-Faculty Lounge. Section leaders will shortly begin to hold their regular weekly meetings of the day and time. Refreshments will be served.

Dr. Isaac Asimov, Prof. Arnold, To Be At S.F.S. Smoker

Professor John E. Arnold of the Mechanical Engineering Department will be the guest speaker this evening at the S.F.S. Smoker in Baker House. He will speak on the development of the fancy car in the United States during the last 15 years, and the industrial design, which the Society helped to win a coveted prize at the recent auto show in Detroit. The meeting will be held in the B3 section at 8:00 p.m.

Other guests expected at the Society's annual rally are Dr. Isaac Asimov, professor of chemistry at Brown University and a prominent scien- tific author (Foundation, The Colossus of New York, I, Robot, Planet of the Vampires, etc.) and Elliot Handler, president of Mattel, Inc., whose daughter, Karen, played with the original "Barbie." Other events of interest will be service at the Freshman Smoker.

---

**Tug-Of-War And Football Precede 54 Field Day**

Freshmen and Sophomores will have a chance to assert their class pride in athletic events that will precede the Field Day stampede. Most upperclass groups will continue their "victory" by judging the class participation in the pre-Field Day Parade. Tug-Of-War

**Tug-Of-War**

Tug-Of-War, October 18, at 1:00 p.m., Briggs Field, Stanford Events: Limited Tag-Of-War for Freshmen and Sophomores. Freshmen can sign up for the event through their section.

---

**Insomnic Votes To Issue Compton Speech Excerpts, Rides Motion Reconsidered**

For the past several meetings, Insomnic has been considering an appro- priate form to present Dr. Karl Taylor Compton's speech. At last night's meeting, the committee voted to sponsor the publication of a booklet containing excerpts from speech. This booklet, titled "A Scientist Speaks," will contain many of his ideas about the relation of science to other fields of thought and endeavor. Insomnic decided to introduce the motion to the Judicial Committee for consideration, and a final decision will be made at a later date.

---

**All Dorms Select Judicial Committees For Ensuring Year**

All three dormitory committees have now been selected for the current academic year. The new committees, which are comprised of upperclassmen, are expected to begin their regular meetings soon.

---

**Incomparable Smokers For Off-Campus**

The new booklet, "A Scientist Speaks," will contain many of his ideas about the relation of science to other fields of thought and endeavor. Insomnic decided to introduce the motion to the Judicial Committee for consideration, and a final decision will be made at a later date.

---

**JDubbed Against Rides**

After serious concern, Institute Committee passed the following motion on Monday, October 15:

The case of hazing off campus which are reported to the Judicial Committee, or which they learn about independently, shall be subject to Judicial Committee action. Forging an individual house committee representation will be considered.

As a corollary to this motion, the following was MSP at the same meeting:

The Executive Committee of Insomnic shall prmur that use any possible means of publicizing the contents and intent of this motion.

The Judicial Committee feels that sufficient time has passed for most students to be aware of this motion. The only possible exception being the Class of 1958, we feel that this notice will serve to inform the group.

Therefore, it will be the policy of the Judicial Committee to take immediate action on any further violations of this motion.

THOMAS A. MARLOW '55, Chairman, Judicial Committee
and even freshmen and other urchins. The juniors, meanwhile, advertising before the general sale last Wednesday.

Many of the students who were signed to play. However, they have only partially received special preference in the matter of tickets and location.

The system that was employed was the best tables and location to certain selected parties.

The juniors could assure themselves of a ticket, therefore, while the juniors could assure themselves of a ticket, and in the narrow and biased view, by attempting to console the juniors there was no preference of location. The system that was employed by the General Manager this year gave an advantage to the seniors, sophomores, etc., who being senior if the person hazed reported it to the committee, or if personal injury resulted. The amended motion fails to take into consideration if the person hazed reported it to the committee, or if personal injury resulted. The amended motion fails to take into consideration the fact that the person hazed reported it to the committee, or if personal injury resulted.

The great majority of students here, sad enough, considers it a low form of "squealing" to inform a responsible person that they have been "taken for a ride" or even that they have been injured during hazing. Students are still subject to hazing at the school, as the mob has not always been completely ineffective in curbing freshman hazing. Freshmen will still be taken out before their quizes, they will still be subjected to injury and hazing, but treatment, they will still come down with virus pneumonia after a night on Plum Island, in the semi-nude, and, in short, they will still be subjected to the same harassment and treatment.
A small private plane but big in flavor the Atlantic was heaved and guided to safety by the Institute’s Baker Station on Nantucket Island. At the time of its discovery the plane was 30 miles off court a voyage toward Europe and had only an hour’s supply of fuel.

On the afternoon of September 29, Mr. R. B. Bachman, C.A.A. Director at the Nantucket Airport, contacted M.I.T.’s radar station for help in locating the missing aircraft. Radar operators focused their attention on small planes and, by telephone to the C.A.A. and then by radio from the C.A.A. to the plane, instructed them to move in a safe landing at the Nantucket Airport. The pilot was instructed to reverse an hour’s supply of fuel. The radar station on Nantucket Island. The pilot was instructed to reverse the C.A.A. to the plane, instructed the C.A.A. and then by radio from the C.A.A. to the plane, instructed them to move in a safe landing at the Nantucket Airport. The pilot was instructed to reverse an hour’s supply of fuel. The radar station on Nantucket Island.

OCTOBER 16. The setting for the festivities will be a French Cabaret. Admission is $1.25.

If you drive for the sheer zest of it you owe yourself this hour!

Lurking隐患 for driver and passenger in deep foam rubber that resulted in the traditional security of bucket seats). Complete luggage compartment arrangement. The Corvette is a “limited edition” model, only in small numbers. It is intended only for the man or woman to whom driving is not just transportation but an exhilarating adventure, a sparkling challenge to skill and judgment. If you are one of these, then you owe yourself an hour with a Chevrolet Corvette. Call us now and let us set up a demonstration run for you in the hour. You can discover that motoring has a whole new dimension of delight.

Frankly, the Corvette is a “limited edition” model, only in small numbers. It is intended only for the man or woman to whom driving is not just transportation but an exhilarating adventure, a sparkling challenge to skill and judgment. If you are one of these, then you owe yourself an hour with a Chevrolet Corvette.

Make a date to drive the Chevrolet Corvette

158-hp, overhead-valves engine with three side draft carburetors • Four-speed overdrive gear is reverse • Powerglide automatic transmission • Center-Point steering, 16 to 1 ratio • Forming individual seats • Full instrumentation, with octaneometer, all-pressure gauges, and ammeter.

YOUR CHEVROLET DEALER

In Fifth Season, Concert Band Is Now, Outstanding

It is probably safe to assume that when the M.I.T. Concert Band was founded, few people dreamed that in five years this group would be one of the best, and largest of its kind in the East.

This organization, begun in 1924 by director Burkhardt, is to play for the mid-century conversation and the inauguration of President James R. Killian, is today creating a reputation for excellence by playing original band compositions exclusively, they are establishing a name for themselves outside of their own...

...It is gratifying to note that this unusual group developed during the past few years. In 1950, when the M.I.T. Concert Band was founded, few people dreamed that in five years this group would be one of the best, and largest of its kind in the East.

The founders of the band soon realized that for a group of this size a complete organization was necessary. Upon receiving their trays all freshmen must chant in the canteen. Freshmen are not to be used by freshmen. Freshmen must wear two different shoes and two different socks. Bones must be worn at all times. A long tie must be worn. "The Balls of St. Mary's" will be range by a freshman on request. Upon approaching a sophomore for the first time, freshmen must call "Good Morning, Sophomore. I am a Freshman."

In large legible letters on the back of their clothes, Freshmen must wear two different shoes and two different socks. Bones must be worn at all times. A long tie must be worn. "The Balls of St. Mary's" will be range by a freshman on request. Upon approaching a sophomore for the first time, freshmen must call "Good Morning, Sophomore. I am a Freshman.

EMMITSBURG, MD.--More freshmen than ever before were shovwn. It was announced that members of the association will make an inspection trip of the Boston and Albany R.R. and the Univer- sity building should be named for Dr. Compton, and that his picture sion is $1.25.

By Jerry Marvin "77

"When we were good we were very, very good, but when we were bad we were really bad. We started the story of our first ventures into intramural football prognostications... some games we were okay... but when we missed, we really missed. This week we try again and also tell you where, and maybe why, we were messed up.

Delta Powerful

In league one, last weekend's games went according to schedule, more or less. Delta Tau Delta, whom we picked to win by sixteen points showed terrific power in beating Phi Kappa 44-4. They used a powerful line to toe Joe Timme's and Joe Giordano's 83 and Jim Kinney's 66 to rip the Phi Kappa's to shreds.

Kappa Sig continued winning but not before a really fine TEP squad gained some score. The TEP's are good and are improving, we are glad to see. The Kappa Sig's just managed to eke out a 6-0 victory. Beta Nu lost and Theta Nu didn't look as strong as expected. Phi Gamma beat Du but only by a score of 6-0. This was one game we didn't like to watch. The Phi's started our hosts off by scoring in the opening minutes of play. Tren Hoffman '66 took a pass and then wound up 40 yards for the T.D. A safety immediately followed.

Thereafter Phi Nu didn't get shaken up and had to take out the Phi's. The Nu's were never the same again, though, was the fact that in the fourth quarter Tom Hoffman was hit by a man who was off his feet and got up with a smashed elbow. It may be possible on what the rule that a man may not leave his feet to throw a block is in the book.

In league two Sigma Chi showed surprising power in routing Phi Kappa Sig 19-0. We had them by 6. We also picked AEPi over the Sigma's 19-0. Club but the commentaters ran all over the intramural players. Possible reason... don't want players deciding who plays in the games.

In league three Sigma Nu was able to make a comeback in the presence of a well-balanced B. U. team. Among the Sigma's, only Brian Truax '59 added a tally to the score.

In league four Sigma Nu was able to make a comeback in the presence of a well-balanced B. U. team. Among the Sigma's, only Brian Truax '59 added a tally to the score.

In league five Sigma Nu was able to make a comeback in the presence of a well-balanced B. U. team. Among the Sigma's, only Brian Truax '59 added a tally to the score.

The Theta Chi-Pi Lam contest was an important game. We should be hearing from Pi Lam on the last play of the game. We were nineteen points ahead. The Theta Chi's were never the same after that. What hurt, though, was the fact that in the fourth quarter Tom Hoffman was hit by a man who was off his feet and got up with a smashed elbow. It may be possible on what the rule that a man may not leave his feet to throw a block is in the book.

Concert Band (Continued from page 1)  

Monday's evening concert was a big hit with the student group successfully. This man is the band's present director, Mr. John Corley.

While working for a degree in public school music at Boston University, Mr. Corley was invited to attend sessions at Tanglewood, where he studied under the Boston Symphony. He has been associated with the Boston Symphony for a number of years.

When World War II broke out, the corps claimed his services, and upon his graduation from the army band school he became the youngest band director in the history of the United States Army. After leading a group in Ireland, he returned to Boston to enter the field for which he trained, and is now Director of Bands in the Brookline schools.

Leading an ensemble which would play only original band music has always been a dream of Mr. Corley's. He has put forth great effort to see this dream realized, and is only beginning to reap the fruit of his efforts.

The brass choir which many heard play at the recent convention is a sort of hobby with him. This group is not the first of its kind at Tech, but it is the largest one to be formed here. There are so ambitious, that everyone who wishes may join.

The music played runs the gamut from the 17th Century to the present day. There are no auditions, so that any boy wishing can join.

The concert band itself consists of 74 selected musicians forming a perfectly balanced unit. The only requirement is that a boy be proficient that he would not be an embarrassment to the corps. This entire band has been a dream of Mr. Corley's. It is a perfect balance of talent, and is now beginning to reap the fruit of success.

Bush Leaguer (Continued on page 1)  

score. Jim Stewart chalked up his marker when he went all the way with an interrupted pass. So the word is out ... watch out for Sigma Nu.

Theta Chi, alas, slumbered a personal "Chimera" team. Baker House "B" by 14-0. This one really figured though we didn't predict it this way. Baker House 460-365 have the manpower to go with their spirit and blow up when they were behind. Let's not detract, however, from the few points that the Theta Delta's played ... they deserved the victory.

Good House student staff forfeited to DKE.

Predictions

Time now for our predictions on next week's games. TEP will trounce Phi Kappa on the strength of their big, experienced line 12-0. Phi Delta Theta will top Chi Phi by two T.D.'s.

A.F.R.O.T.C. SMOKER

There will be a smoker for all interested Advanced Corps A.F.R.O.T.C., caddies from 4:00 to 6:00 p.m. next Tuesday, October 19, in Room 10-340. Uniforms will not be required for this informal get-together with the Air Force personnel.

Lucky Strike is the cigarette of fine tobacco . . . "It's Toasted" — the famous Lucky Strike process — tones up Luckies' light, mild, good-tasting tobacco to make it taste even better. So enjoy the better-tasting cigarette . . . Lucky Strike.

What makes a Lucky taste better?

"It's Toasted" to taste better!

Doubtless, you've guessed that the Doodle at the right is: Cardless two-gun cowboy enjoying better-tasting Lucky while waiting in ambush. Lots of other two-gun cowboys—and many millions of no-gun folks—agree that Luckies taste better. Students, for example, prefer Luckies to all other brands, according to the latest, biggest coast-to-coast college survey. Once again, the No. 1 reason is that Luckies taste better. They taste better because Lucky Strike is the cigarette of fine tobacco ... and "It's Toasted" to taste better. "It's Toasted" — the famous Lucky Strike process — tones up Luckies' light, mild, good-tasting tobacco to make it taste even better. So enjoy the better-tasting cigarette ... Lucky Strike.

LUCKIES TASTE BETTER Cleaner, Fresher, Smoother!
