

The Tech

the lounge

by Paul Abrahams '56

In looking over the next term's class schedule with its list of approved first year electives, I get the feeling that the freshmen of today are being coddled. Back in the good old days, when I was a freshman, there was a fine course that everybody took twice, once in the second term of the freshman year and again in the last term of the senior year. This course is the infamous D12. It is a great experience that should be undertaken by every true Tech man. After all, we must be "whole men", mustn't we?

If we must coddle freshmen, advisors galore and 17 more electives are far from sufficient. How about putting 8.01 on the elective list for incoming frosh? The same for 8.02. The Institute could always give full tuition scholarships to the winners of freshman spelling bees, with spelling courses on the elective list. What more incentive could you want?

Easing academic difficulties alone is not enough. Instead of having the poor frosh trudging wearily from classroom to classroom, the sections could go to one classroom in the morning, comfortably settle themselves and await the arrival of the first of a string of instructors that must teach them their subjects for the day. The instructors have to travel in any event, but the section system would enable us to preserve the vibrant energy of the frosh so they could perform better on the athletic fields during the two hours a week the Institute approves physical exertion.

Climbing stairs is bad for weak hearts so why not construct huge elevators restricted to freshman use from five minutes before the hour to five minutes after the hour? The rest of the time would be open to use by upperclassmen and professors as they are never on time anyhow. The construction of elevators is much cheaper than building a new main building that is only one story high. Besides, in a one story building it would be necessary to set up a conveyor system so they would not have to walk the long distances involved.

Another suggestion would be to arrange to have all freshman quiz hours in the afternoon instead of 9 a.m., so that they could get plenty of sleep the night before. I'm sure that their commons breakfast served in bed would be beneficial to their well-being and morale.

Instead of calculus, the first term could offer an introductory course in mathematics, something like a probability course in finding books in the MIT libraries. This is something we all could have used at one time or another.

It may take a long time, but the ways of the Institute are slow but sure. I feel sure that the Tech administrative genius will eventually reach the epitome of pampering and will make a veritable bed of roses out of MIT. This concept might seem hard to swallow to the veteran student, but look around. I was going to send my sons to MIT to get even with their grandfather for sending me there, but I'm reconsidering. Why, at Northeastern, attendance is required at all classes. Not only that, but it is enforced. Ugh!

Advanced Study

(Continued from page 1)

The office would administer such grants if any foundation should request it.

Emphasizing that all plans are tentative, Professor Buerger added that the new School is in essence a service. Its existence should greatly increase the number of post-doctoral students at the Institute, since the new school will make available, faculty members from all departments.

"Time Limit" by Henry Denker and Ralph Berkey
Starring Arthur Kennedy and Richard Kiley
Produced by The Theatre Guild
Colonial Theatre, through Jan. 15; Matinee Thursday and Saturday.
by Michael Hall '58

H12 For The Masses

It was with both pleasure and misgiving that this reviewer undertook his first assignment as THE TECH's new drama critic. A good deal of pleasure at the thought of watching Arthur Kennedy, one of the finest actors of the current stage, and a certain amount of misgiving, for the word was out that the show was about Korean POW's, the "Turncoat GI's" of recent headlines; the play would probably consist of two hours of ax-grinding and flag-waving.

Messrs. Denker and Berkey, the authors, do NOT wave the flag, and they grind their ax very skillfully indeed. While dealing with the much discussed problems of "brain-washing" and military discipline, they have written a thriller which may rival "Caine Mutiny" and last season's "Witness For The Prosecution". The whole works comes off on the stage in what might be described as the most exciting H12 class in quite some time.

The curtain goes up at the end of the story: Kennedy, as a former district attorney, now a Lieutenant Colonel in the Judge Advocate's office, is

standing room only

taking testimony in the case of Major Harry Cargill (Richard Kiley). Cargill, it seems, stands accused of having "cooperated" with the Communists while a POW, and Kennedy is faced with the problem of recommending what action, if any, should now be taken against him. Gradually the story, with striking fine sets by designer Ralph Alswan, switches from the warm comfort of the US in 1955 to those dark, cold days in North Korea, 1951, as the strange case of Major Cargill unfolds. We see the pressures brought to bear on the prisoners to "confess", and, in the end, the equally great pressures placed on the Colonel to recommend that Cargill, already convicted in the minds of his superiors, be court-martialed for his defection. It is only the Colonel's passion for patient, plodding justice that drags the facts from the muddle of half-truths and the frightened minds of the now repatriated men.

Out of the drama, although still having some new-show difficulties with lines and pace, come some really

calendar of events

WEDNESDAY, JANUARY 11

Operations Research Seminar. "Weapons Systems Analysis in Army Ordnance." Mr. Frank E. Grubbs, Chief, Weapons Systems Laboratory, Aberdeen Proving Ground. Room 2-239, 3:00 p.m.

Biology Department. Colloquium: "The Fine Structure of Striated Muscle." Dr. Alan J. Hodge, Commonwealth Scientific and Industrial Organization, Melbourne, Australia. Tea in Room 16-711 at 3:30 p.m. Room 16-310, 4:00 p.m.

Electrical Engineering Department. Colloquium: "Talking with Whirlwind—An Introduction to Gestalt Programming." Mr. Douglas T. Ross, Division of Industrial Cooperation. Refreshments in Room 10-280 at 4:30 p.m. Room 10-275, 4:00 p.m.

Mathematics Department. Colloquium: "Some Global Questions in Differential Geometry." Professor H. E. Rauch, University of Pennsylvania Graduate School. Tea in Room 2-290 at 4:00 p.m. Room 2-390, 4:30 p.m.

Junior Varsity Basketball Team. Game with Worcester Polytechnic Institute. Rockwell Cage, 6:30 p.m.

Freshman Hockey Team. Game with Belmont Hill School. Skating Rink, 7:00 p.m.

Varsity Basketball Team. Game with Worcester Polytechnic Institute. Rockwell Cage, 8:15 p.m.

THURSDAY, JANUARY 12

Mathematics Department. Continuum Mechanics Seminar: "Vibrations of Spherical Shells." Mr. Millard W. Johnson, Mathematics Department. Room 2-229, 3:00 p.m.

Physics Department. Colloquium: "Nuclear Spectroscopy with Heavy Particles." Professor W.M. Buechner, Physics Department. Room 6-120, 4:15 p.m.

Lecture Series Committee. Film "The Pickwick Papers." Admission: 30 cents. Room 1-190, 5:00, 7:30 and 9:30 p.m.

M.I.T. Staff Players. Monthly Supper Meeting in the Faculty Club at 6:15 p.m. Playreading of "Hayfever" by Noel Coward. Faculty Club Penthouse, 8:00 p.m.

FRIDAY, JANUARY 13

Mechanical Engineering Department. Seminar: "Mechanical Problems in the Design of Kinescopes for Color Television." Professor S.H. Crandall, Mechanical Engineering Department. Coffee in Room 3-174 from 3:00-3:30 p.m. Room 3-270, 3:30 p.m.

SATURDAY, JANUARY 14

Modern Language Department. Graduate Language Examinations. French and Russian: Room 3-440, 10:00 a.m.-12:00 noon German: Room 3-440, 2:00-4:00 p.m.

Freshman Wrestling Team. Match with Roxbury Latin High School. Rockwell cage, 2:30 p.m.

Freshman Basketball Team. Game with Dean Academy. Rockwell Cage 6:15 p.m.

Varsity Hockey Team. Game with Bodoin College. Skating Rink, 7:00 p.m.

Freshman Class. Variety Show: "A Date with an Angel." Admission: 50 cents Kesge Auditorium, 8:00-9:00 p.m.

Informal Dance Committee. Last dance of the term, on an oriental theme. Morse Hall, Walker Memorial, 8:00 p.m.

Varsity Basketball Team. Game with U.S. Coast Guard Academy. Rockwell Cage, 8:15 p.m.

SUNDAY, JANUARY 15

Organ Recital. Lawrence H. Moe, organist at St. Paul's Cathedral, Boston, in a program of works by Buxtehude, Schlick, Cavazzoni, Martini, Bruhns, Franck, Lebeque, Scheidt, and J.S. Bach. Chapel, 3:00 p.m.

MONDAY, JANUARY 16

Aeronautical Engineering Department. Seminar: "Cruise Control for Turbojet Aircraft." Part 1—"Optimizing Cruise Control." Professor Y.T. Li, Dr. W.B. Bryant, and Mr. H.L. Pastan, Aeronautical Engineering Department. Part 2—"Programmed Cruise Control." Professor Y.T. Li, Professor M.A. Hoffman, and Mr. A.J. Navoy, Aeronautical Engineering Department. Coffee and cake in duPont Room from 3:30 to 4:00. Room 35-225, 4:00 p.m.

TUESDAY, JANUARY 17

Acoustic Laboratory Seminar: "A Surprise Attack on Finite Waves." Professor Richard D. Fay, Acoustics Laboratory. Room 20E-225, 3:30 p.m.

Metallurgy Department. Colloquium: "Electrochemical Studies of Flotation." Professor P.L. deBruyn, Metallurgy Department Room 35-225, 4:00 p.m.

Chemistry Department. Harvard-M.I.T. Physical Chemistry Colloquium: "Some Unexpected Potentials with Ion-exchanger Membranes." Professor George Scatchard, Chemistry Department. Room 6-120, 8:00 p.m.

EXHIBITS

Three exhibits, entitled "The 250th Anniversary of the Birth of Benjamin Franklin," "The First Printed Book—500 Years," and "The Art of Calligraphy," will be on display in the North Corridor Cases of the Charles Hayden Memorial Library through January 20.

A "Latin American Photographic Exhibition" by the Pan American Society of New England, Inc., Boston, Mass., will be on display in Photo Service Gallery, Corridor of Building 3-017, through January 22.

An exhibition of oil paintings by Joan Miro, Spanish painter, will be on display in the New Gallery of the Charles Hayden Memorial Library through January 29. Hours: Monday through Friday, 12:00 noon-6:00 p.m.; Saturday and Sunday, 2:00-6:00 p.m.

CALENDAR OF EVENTS (Cont. on page 3)

ADVENTURES IN SOCIAL SCIENCE: NO. 2

Doff your caps and bells; there will be no fun and games this day. Today, with earnestness and sobriety, we make the second of our forays into social science. Today we take up the most basic of all the social sciences—sociology itself.

Sociology teaches us that man is a social animal. It is not his instincts or his heredity that determine his conduct; it is his environment. This fact is vividly borne out when one considers any of the several cases of children who were raised by wild animals. Take, for example, the dossier on Julio Sigafos.

Julio, abandoned as an infant in a dark wood near Cleveland, was adopted by a pack of wild dogs and reared as one of their own. When Julio was found by a hunter at the age of twelve, the poor child was more canine than human. He ran on all fours, barked and growled, ate raw meat, lapped water with his tongue, and could neither speak nor understand one single word. In short, he was a complete product of his environment.

(Julio, incidentally, was more fortunate than most wild children. They never become truly humanized, but Julio was exceptional. Bit by bit, he began to talk and walk and eat and drink as people do. His long dormant mental processes, when awakened at last, turned out to be remarkably acute. In fact, he was so bright that he learned to read and write in a month, got through grammar school in five years and high school in two. And last June, as thousands of spectators, knowing Julio's tragic background, stood and cheered, he was graduated valedictorian from Cal Tech with a degree in astrophysics!

(Who can say to what towering heights this incredible boy would have risen had he not been killed the day after commencement while chasing a car?)

But I digress. To return to sociology, people tend to gather in groups—a tendency that began, as we all know, with the introduction of Philip Morris Cigarettes. What an aid to sociability they are! How benignly one looks upon his fellows after a puff of Philip Morris's gentle, pleasant, flavorful tobacco! How eager it makes one to share, to communicate, to extend the hand of friendship! How grateful we all are to Philip Morris for making possible this togetherness! How good not to live in the bleak pre-Philip Morris world, with every man a stranger!

The groups that people live in today (thanks to Philip Morris) vary widely in their customs. What is perfectly acceptable in one society may be outlandish in another. Take, for instance, the case of Ug Poopoomoogoo.

Ug, a Polynesian lad, grew up in an idyllic South Sea isle where the leading social event of the year was the feast of Max, the sun god. A quaint all-day ceremony was held, with tribal dancing, war chants, fat lady races, pie eating contests, and, for the grand finale, the sacrifice of two dozen maidens.

According to Ug's folkways, sacrificing maidens was quite acceptable, but when in his eighteenth year he was sent as an exchange student to the University of Wisconsin, he soon learned that Americans take a dim view of this practice—in Wisconsin, at any rate. The first twelve or thirteen maidens Ug sacrificed, he was let off with a warning. When, however, he persisted, drastic measures were taken—he was de-pledged by his fraternity. A broken man, Ug quit school and moved to Milwaukee where today he earns a meagre living as a stein.

This column is brought to you by the makers of Philip Morris Cigarettes, who are otherwise rational men. Ask for new Philip Morris in the smart new red, white and gold package.

Reviews

(Continued from page 2)

fine characterizations: Kennedy, who proved himself to be a driving, forceful actor in Arthur Miller's "Crucible" is at his usual best, and Kiley, although probably miscast, still gives a fine performance in some of the scenes with Kennedy. As Sgt. Baker, whose mind, when it runs, revolves fondly about sex and WAC Corporal Evans, Frank Aletter is the epitome of the overgrown office boy, while Arthur Stroch, seen before in several Broadway plays, and Tom Carlin, as the youthful accuser, carry off top honors in their smaller roles in the POW camp. Such praise is not deserved by all, unfortunately, for Verge Cook, as Mrs. Cargill, and Harvey Stephens, as the General, fell short of doing justice to otherwise tightly written parts.

In the end, it is a philosophical ax that gets the grinding. It is a concern widespread in modern American and European theatre: a concern with

facts vs. truth, and the burden of being human; the problem is far from new! Some things are said about war and its futility, and about law and its limitations, but most of all, this is a first-class melodrama about what happens to a man under pressure when he hates death yet must kill. It's a pretty interesting humanities assignment.

Opening January 9 for two weeks: "Hot Corner", a new comedy by Allen Boretz and Ruby Sully, starring Sam Levene and Vicki Cummings... "Kismet", by the road company of the Broadway show, will be at the Opera House for a week from January 16 to the 21st... Collegiate-wise: Lesley College (across from the Harvard Law School) will do Henry Peabody Playhouse January 19 and 20... and the Tufts Arena Theatre (the best local "theatre-in-the-round") will grapple with one of G. B. Shaw's most difficult, "Man and Superman", in a production running through this Saturday at their home in Medford.

Hillel To Formulate Plans For Ceremony

This Wednesday at 5:15 p.m., Hillel will hold its last meeting of the semester, in Crafts Lounge in East Campus. At this time initial plans will be discussed for the formal dedication of the Ark and the *Toroth*, which will be held March 18 in the Chapel. The necessary funds for the construction of the ark and the purchase of the *Toroth* are being made available by the Boston MIT Stein Club. The picture for Technique will be taken at this time.

The last Friday evening Sabbath service for the semester will be held this Friday evening in the Chapel at 7:30 p.m. The weekly service will be resumed at the start of the spring semester.

On Sunday, Jan. 15, at 10:30 a.m., the final Hillel activity for the year, a bagels and lox brunch, will be held in Talbot Lounge in East Campus.

CALENDAR OF EVENTS (Cont. from page 2)

RELIGIOUS SERVICES IN THE CHAPEL

Daily Services (except weekends): Roman Catholic Mass 7:55 a.m., Daily Compline Prayer at 10:15 p.m., Sunday Mass at 10:00 a.m.
Morning Chapel Service 8:35 a.m. (United Christian Council)
Weekly Services:
Episcopal Holy Communion Wednesday from 5:10-6:00 p.m.
Eastern Orthodox Christian Evening Worship Thursday from 5:10-5:30 p.m.
Jewish Sabbath Service (Hillel) Friday from 7:30-10:00 p.m.
Vedanta Service Monday from 5:10-6:00 p.m.
Christian Science Organization Tuesday from 5:15-6:00 p.m.
Baptist Student Union Tuesday from 7:00-8:30 p.m.
The chapel is open for private meditation from 7:00 a.m. to 11:00 p.m. every day.

Virginia Maffucci, Miss Massachusetts of 1955, will be raffled off to some lucky Techman this Saturday.

LAST CHANCE

TO GET YOUR

1956 TECHNIQUE

For \$6.00 (\$3.00 down, \$3.00 on publication). Options sold Wednesday through Friday in Bldg. 10 Lobby. Price will be \$7.00 after January 23.

SENIORS: Last chance for your free photograph in Technique. If you have not turned yours in, get a biography form at the sales booth and complete and turn it in before January 23.

the First Beer Bust

OR

Why Plymouth Rocked and Rolled

1. NOTE: This is the first known use of the term "beer bust."

Once upon a time there was a group of cats who really went far out on a one way excursion canoe called the Mayflower. Now they were a mighty cool combo, but they had to go on tour because a square from Goonville who billed himself as King James I gave them the heel and they had to cut out on merry old England.

Anyway, they finally got a booking on the New World circuit in a spot called Virginia, named in honor of Elizabeth I for some reason or other.

This particular day some of the boys were cooling it on deck, quaffing a few tankards of brew when it was John Alden's turn to go for refills.

When he got below none other than a screen-tester named Priscilla Mullins was running the spigot.

"Make with the suds for Myles Standish," says John.

"I'll clue you, Dad," says Priscilla. "There's exactly one tankard left. Speak for yourself, John."

They split the tankard and John returned topside.

"Sires, I wish to report the beer is gone."

"Nutty, man!" they replied. "That beer is *real gone*. Give us another chorus on it!"

"But, you don't dig me, Sires" said J. A., "the barrels are empty. This bit is *over!*"

"WHAT?" shouted the elders. "OUR BEER IS BUST!! Turn this raft around and make it to Plymouth Rock. We're cuttin' out on this date as of *now!*"

And that's the story of how the Pilgrims landed at Plymouth Rock instead of Virginia. And if you don't believe it you can take it up with our agent.

MORAL: You're missing the boat if you haven't tried the greatest. Next time you order beer, speak for yourself and specify Budweiser. Man, it's the most!

WIN!
\$50,000 IN PRIZES

10 Ford Thunderbirds

PLUS 40 COLUMBIA Hi-Fi Phonographs

**FOR THE 50 COLLEGE STUDENTS WHO
WRITE THE BEST NAMES FOR
VICEROY'S PURE, WHITE, NATURAL FILTER!**

10 Winners! 10 Thunderbirds! Win a fully equipped new '56 Thunderbird! In your choice of colors! Automatic transmission, two tops, power steering, radio, white side walls. Act now and win!

40 Winners! 40 Columbia Hi-Fi Sets! Own America's most exciting Hi-Fidelity Phonograph—the Columbia "360"K—in beautiful Mahogany!

Plus 10 RCA Victor Color TV Sets to the college organizations designated by the 10 Thunderbird winners!

JUST NAME THIS AMAZING FILTER! THAT'S ALL YOU DO TO WIN!

20,000 FILTER TRAPS
TWICE AS MANY AS THE NEXT TWO LARGEST-SELLING FILTER BRANDS—FOR THAT REAL TOBACCO TASTE!

HINTS TO HELP YOU WIN!

You'll think of dozens of names when you read these facts: The Viceroy Filter is the most modern in the world today! Perfected through 20 years of research!

It contains no cotton, no paper, no charcoal, no asbestos, no foreign substance of any kind! Instead, it is made from pure cellulose—a soft, snow-white, natural material found in many good foods you eat.

Only the Viceroy Filter has 20,000 filter traps—twice as many filter traps as the next two largest-selling filter brands! No wonder Viceroy gives you that Real Tobacco Taste!

Name this amazing filter and win! It's easy!

NO OTHER FILTER LIKE VICEROY!
No cotton! No paper! No asbestos!
No charcoal! No foreign substance
of any kind! Made from Pure Cellulose—
Soft... Snow-white... Natural!

It's easy to name this amazing Viceroy Filter when you know what it's made of... why it's superior... why Viceroy's give you that real tobacco taste you miss in every other filter brand!

Remember, the Viceroy Filter is made from 100% pure cellulose—a soft, natural material found in many good foods you eat! There are no impurities in the Viceroy Filter. So naturally it lets the real tobacco taste come through!

Name the Viceroy Filter! Enter this \$50,000 contest, today!

JUST FOLLOW THESE EASY RULES!

- 1 On any plain paper, write the name you think most suitable for the pure, white Viceroy Filter described on this page. It's easy! You can think of dozens of names like "Super-Pure," "Filtron," "Naturale," "Flavor Flow," "Cellultrate," "Twice-The-Traps." You can use one, two or three words. Any name may win!
- 2 Mail your entry to Viceroy Thunderbird Contest, P. O. Box 6A, Mount Vernon 10, New York. Write plainly or print your name, the name of your college and your mailing address at college! Submit as many entries as you wish—but with each entry include the picture of the Viceroy Filter Tip torn or cut from the backs of two (2) Viceroy packages.
- 3 Contest open to all students attending colleges and universities in the U.S.A.
- 4 Contest closes midnight, January 31, 1956. Entries judged by The Reuben H. Donnelley Corporation on the basis of aptness of thought, originality and interest.
- 5 Prizes listed elsewhere in this ad. Winners of the ten Thunderbirds will also be permitted to designate the school organizations to which Brown & Williamson Tobacco Corporation will award RCA Victor Color TV Sets! Write the name of the organization you want to receive this award on your entry.

Wildroot Cream-Oil
 gives you confidence!

Co-Captain Bernie Benson shoots against Harvard in action at Briggs Field House Saturday. Other MIT players pictured are Dimitry Vergun (24) and Mac Jordan (15). Harvard edged the Beavers, 60-59, before a crowd of close to 1000.

Basketball

(Continued from page 1)

with 30 seconds remaining but were unable to get a shot off as the Cantabs tangled them up and two jump-balls ran out the clock.

A great deal of the story of the game can be told by lauding Harvard's terrific 2-2 zone defense with forward Dick Hurley doing a tremendous job guarding Vergun man-for-man. The main drives behind the Beavers were Howard, who consistently hit when the points were needed, and Muraskin, who, although he played less than a quarter of the game, came through with six points when the Cantabs could have run away with it. The Beavers play their next game in the cage tomorrow night at 8:15 against Worcester Poly.

**Beaver Pucksters
 Trail Williams, 6-1;
 Sullivan Scores Goal**

A strong, undefeated Williams hockey team scored twice in each period last Saturday to defeat an out-of-practice MIT sextet 6-1 at Williamstown. The Engineers, hampered by the absence of Paul Eckberg, played the entire game with three defensemen, most of the burden falling to Jim Coult and Jim Royer. The long Christmas layoff showed up in loose team play and the fact that the Beavers got only 22 shots in the game.

Williams powered its way into a 2-0 first period lead despite some good goal tending by Sandy Aitken, back in the Tech nets. A tactical error left a man free in front of the cage at 12:58, and Sandy never had a chance on the shot that followed. For the third time this season Tech got sloppy while a man up, and the result

(Continued on page 6)

beaver barks

by F. Helmut Weymar

The estimated 1000 people who watched the Beaver basketeers drop a breather to Harvard in Rockwell Cage Saturday night made up what was probably the largest crowd of Tech fans ever to watch one of their teams in action. From a practical viewpoint, one could probably attribute the overflow crowd to the fact that we were playing a traditional rival, that we have a highly rated team, and that it was a Saturday night. However we would prefer to believe that there was a more important reason than just these for the record attendance. Since the beginning of the basketball season, mounting school spirit has become more and more obvious. The crowd at the game and the group at Friday night's pre-game rally were not motivated by any cold practical goals. Beaver Key and the Athletic Association, co-sponsors of the rally, had their hearts in what they were doing, and were going beyond what was strictly called for in their constitutions. Some of the antics of Saturday night's crowd during some of the

breathers between tense moments refreshingly reminded us of an overexcited high school crowd, and any thoughts we may have had that our school was too similar to a factory began to fade.

The point is that we would like to see them fade completely. Although the hoopsters lost, they played a terrific game all the way, and in no way did they let down the school. They were a team which the fans could truly be proud of, and being slight diehards on the subject, we're still not convinced that the final score showed which team was better. Nevertheless, the one point loss to the highly rated Cantabs should assure two all important wins for the Beavers this week, over WPI tomorrow night and over USCG Saturday night. Both games are scheduled to be played in the cage, and any let-down which the team might suffer after the loss to Harvard could be alleviated to a great extent by a good sized cheering section. Both games start at 8:15, and if the Harvard game was any criterion, you'd best be there a little early.

**HELICOPTERS
 are here to stay**

but not to stay put

Like well-coordinated athletes, helicopters really distinguish themselves in motion. Because of their unique ability to move about quickly and surely in close quarters, modern helicopters have earned a remarkable reputation as the world's most versatile aircraft.

However, like most engineering triumphs today, rotary-winged aircraft present a stimulating challenge for tomorrow.

Certainly a bright future is assured. But the exciting details of that future remain to be discovered and worked out. Since Sikorsky Aircraft is the world's pioneer helicopter manufacturer, it naturally follows that the world looks to Sikorsky for con-

tinued leadership. And to provide the creative engineering abilities such leadership will demand in the future, Sikorsky looks to you.

Obviously, you want to choose your career wisely and well. Today there are countless fields in which you might invest the capital represented by your technical training and talent. It is our belief, though, that few of them can produce the dividends of satisfaction, the rewarding challenge and the possibility of career growth that you will find here. If you will write to Mr. Richard Auten of our Personnel Department, he will gladly tell you more about Sikorsky Aircraft.

Connecticut Natators Subdue Engineers By 47-37 Margin

In last Saturday's meet with the heavily favored Uconn swimmers, Tech's Varsity Mermen were defeated. MIT's Kohlman missed first position in the 220-yard freestyle event by 8 seconds. In the 150-yard medley, Tech's Duane captured second place honors. In an extremely fine performance that should buy his ticket for the New England Finals, Bryson won the diving contest for MIT. Veek took the 100-yard freestyle event with a time of 57.3 seconds. Johnson won the 220-yard back stroke race for the Engineer Swimmers in 2 minutes, 23.9 seconds. Tech's White was second in the 220-yard breast stroke contest with a 2 minute, 50.6 second time. In the 50-yard, freestyle contest, MIT was only able to finish in third place. The Uconn swimmers won both the medley race and the freestyle event. These two victories enabled them to top Tech, with a final score of 47-37.

Hockey

(Continued from page 5)

was another Williams goal. At 2:20 of the second period John Sullivan put the Engineers back in the game after simultaneous penalties had put two Williams men off the ice. Sully scored from in front on a pass from Bev Goodison. Williams came right back, however, with two more goals to take a 4-1 lead.

Fifth Williams goal came at 1:30 of the third period on a breakaway. Then at 13:57 Aitken stopped a hard shot with his face shield and had to leave the game as the shock broke his glasses. Ten seconds later, with Dick McCabe back in the nets, Williams scored the last goal of the day on a fluke shot that had apparently been stopped.

Next Saturday is the next to last home game for the Beavers who meet Bowdoin at 7:00 p.m. The freshmen sextet, after losing to a strong Browne and Nichols team 8-0, face Belmont Hill at home this Wednesday night.

PRC

Public Relations Committee requests that heads of activities send in their schedules of spring activities so that they may appear in the spring calendar of events.

SENIOR RINGS

Fittings for the Class of 1957 Senior Rings will be made in the lobby of Building 10 on Monday, Tuesday, and Wednesday, January 16-18, 1956. All juniors who desire class rings should be fitted at this time.

Freshman Squads Bow In Basketball Swimming, Wrestling

In their basketball contest Saturday, the '59 basketeers fell to the Harvard Frosh Five. The Crimson squad secured an early lead and, despite efforts by the Tech hoopmen, held that lead to the sounding of the horn that ended the game. Harvard, with a tall team, one 6', 8", completely dominated the backboards. The final score: Harvard's Freshmen 66, MIT's Frosh 44.

Swimmers Lose to Exeter

Last Saturday the Frosh Mermen fell to the heaviest competitor on their season's schedule, Phillip Exeter Academy. MIT's Lynn Jacobson won the 100-yard breast stroke race, but Exeter managed to take the rest of the contests. Dave Callender lost the diving by a close seven tenths of a point. In another close contest, after long deliberation, the judges gave the 50-yard freestyle event to Exeter.

Harvard Wins Wrestling

In Saturday's wrestling contest with Harvard, MIT's Frosh Matmen were unable to pull out of their losing streak. Cummings won one event for Tech, and Blum put up an excellent showing against one of the Crimson's best wrestlers. However, the Tech's Frosh wrestlers did fall to the toughest squad they are scheduled to meet this season.

What's doing at Pratt & Whitney Aircraft

U. S. Jets Dominate International Air Transport

The J-57 turbojet, first engine in aviation history to achieve an official power rating in the 10,000-pound thrust class. Its pace-setting performance in military aircraft blazed the way for American jet transport leadership.

Many engineering graduates would like to be concerned with air power of the next generation. One way to fulfill that ambition is to pursue a career alongside engineers who have consistently produced the world's best aircraft engines.

Most major U. S. airlines, recognizing the future of jet flight in commercial transportation, have placed their orders for jet-powered transports. Of added significance, however, is that American-made equipment will be flown also by foreign airlines in the age of jet travel.

Flying Douglas DC-8 Clippers or Boeing 707 Stratoliners, these domestic and foreign airlines, circling the globe, will shrink it 40 per cent. For power, the entire fleet will rely on Pratt & Whitney Aircraft jet engines. Such achievement is evidence of unchallenged leadership.
