Sixth State High School Science Fair Will Take Over Cage This Weekend

For the sixth consecutive year, the M.I.T.-Boston Globe Massachusetts State Fair will take over Rockwell Cage for three days as 157 high-school exhibits converge to show their projects to the myriad of guests who approach to compete for top awards.

Science fiction enthusiasts, on Saturday, April 23, at 6:00 p.m., and science fiction authors on Sunday, May 1, from 2:00 to 5:00 p.m. Willers will be at the fair Cage on Sunday afternoon.

Each of the students is already a winner in his own school's science fair. Over a hundred Massachusetts high schools participated in the program this year, and each is represented in the State Fair by at least one exhibit or as many as eight, depending on the size of the local fair. On Saturday, April 23, Douglas A. East

DOUGLAS A. EAST RECEIVES ASME REGIONAL AWARD

On Saturday, April 23, Douglas A. East '56 was first prize in the technical competition at the Sixth State High School Science Fair, sponsored by the American Society of Mechanical Engineers. East, who had recently won the Soderberg award in competition at MIT, presented a winning paper, "Investigation of Particle Size Measurements in a High-Speed Aerosol Thermometer," in competition with the winners from twelve schools in the New York-New England area.

Norman Thomas, Socialist leader and five times candidate for the presidency of the United States, will take part in the Institute's Student Science Exhibition in Memorial Hall this week. Mr. Thomas', lecture, entitled "The American Social Problem," is a treatise on the conflict between the present political-economic situation in America, and an appraisal of our political parties.

Mr. Thomas, who is in present the Socialist Party of the United States, has been an editor, a professor, a member of Congress, and a final decision will be made at the convention on the political status of the party.

In order to improve communications between the Activities Council and the student body, the council has decided to send out a short news letter to all the students, which will contain a summary of all the activities at the Institute's official decision that the committee is pertinent to all the activities.

The MIT Dramashop returns to the stage with the forthcoming University of Wisconsin production of "The King and the Duke" on Friday, April 22, at 8:00 p.m., in the Dramashop. This production is the latest in the long line of successful play-by-play productions by the Dramashop, which has produced a number of popular plays, including "The Cherry Orchard." The play is directed by Prof. John R. O'Grady, who is one of the leading figures in American theater. The play is presented by the Dramashop, a student-run organization, and is open to the public.

Lecture Hall, Nuclear Reactor Included In Compton Memorial Building; Construction Work To Begin This Summer

The Nuclear Reactor Laboratory will be a fitting new home for the research programs in nuclear science at MIT. The reactor building will be an integral part of the larger Compton Memorial Building, which will house the nuclear research laboratories, the Nuclear Reactor Laboratory, and the nuclear science program.

The Nuclear Reactor Laboratory, located in the center of the building, will be a key component of the nuclear research program at MIT. It will be used for a variety of research projects, including the study of nuclear reactions, the development of new nuclear technologies, and the investigation of nuclear energy.

The building, which will be constructed of reinforced concrete, will be equipped with state-of-the-art nuclear research equipment, including a nuclear reactor, a high-energy particle accelerator, and a variety of other experimental facilities.

The Nuclear Reactor Laboratory will be ready for use in the fall of 1956, and the entire Compton Memorial Building is scheduled for completion in the fall of 1957.
Calendar of Events
from April 27 through May 4, 1955

Wednesday, April 27
Vasal LeCounte Team. Match with Harvard University. Briggs Field, 3:00 p.m.

Freshman Track Team. Match with Bowdoin College. Bates House Courts, 1:30 p.m.

Freshman Track Team. Meet with Tufts and Bowdoin Colleges. Briggs Field, 1:30 p.m.

Freshman Track Team. Meet with Tufts and Bowdoin Colleges. Briggs Field, 1:30 p.m.

Freshman LeCounte Team. Match with Governor Dunsmore Academy. Briggs Field, 4:00 p.m.

Mechanical Engineering Department. Seminar: "A Retiring Shock-Wave Compressor." Mr. Frank J. Gardiner, I-T-E Circuit Breaker Company. Room 5-370, 3:30 p.m. Coffee in Room 5-174 from 3:00 to 3:30 p.m.

Lecture Series Committee. Lecture: "The Politics of Confusion." Mr. Norman M. Ornstein, International Advertising. Room 10-275, 4:00 p.m. Refreshments in Room 10-280 at 4:30 p.m.

Thursday, April 28
Lecture Series Committee. Film: "A Streetcar Named Desire," starring Vivien Leigh and Marlon Brando. Room 10-250, 5:05, 7:30 and 9:45 p.m.

Architecture and Planning Department. Lecture: "Geometry and Structure." Mr. Eduardo Castaneda, School of Design, North Carolina State College. Kresge Auditorium, 4:30 p.m.

Friday, April 29
Out of Order. D.M.I.T. Chapter. First Floor. Hayden Library Lounge, 4:00 p.m.

Tuesday, May 3 through Friday, May 6: The M.I.T. Dramatists will present "The King and the Duke" by Francis Fergusson. Kresge Theater, 8:00 p.m. Admission is free.

TUESDAY, APRIL 26, 1955
The Tech through the mail

To the Editor of The Tech:

Dear Sir:

I was interested in your story on Aarne Copen's "Cantiles." It is a pity that you omitted the passage beginning "At frendes is a noble thing" as such a matter of fact. Although the poem is not as famous as some of the other works of the Departed Village, it would hardly be called obscure by anyone who is familiar with the history of English literature. The poem from which this is taken is 'The Faerie Queene,' which has been translated into twelve books and over 12,000 lines, a necessary background for a critical point in Scottish history when the Douglas and the Leslies lived the life for Scottish freedom. It begins with the description of the 12th Book and ends with the burial of the Bruce in 1322, and the central episode is the battle of Boroughmum. It is one of the best known poems in Middle English literature, and probably one of the most voluminous writers in Middle English.

The particular passage beginning "At frendes is a noble thing" is richly quoted and would be likely to be found in any autograph of any creature.

Sincerely yours,

JOLLY M. HUDDLESTON, 27, Class of 1957, Department of Romance and Social Studies

THE EVELY TOWER

by Berthold Litzel '56

Albert Einstein, man and legend, died on Christmas day last week. Quickly and with dignity he parted from a world whose destiny he had shaped into something larger than we had potency to be.

Albert Einstein, at the age of 76, has passed away. How sacral are the bold heralds that the man of prose and pen - Fayed way for A-bomb? The man of prose and pen - Fayed way for A-bomb?

JOHN E. BURCHARD, '57 of oldest and Social Studies

THE GREAT HINT

Many of our friends will soon be graduating. What kind of gift would you give? Here is no simple question. It is never simple to find gifts for people who have everything, and college students, as we know, are the most richly endowed of mortals. They've got beauty and truth. They've got rhythm. They've got spirit, will, and heart.

One infallible gift for the person who has everything is, of course, a stethoscope. A stethoscope, featuring surpliced episcopacy and power steering, now comes as an integral part of the supply system. Accompanying each stethoscope is a gift card with this lively poem:

When you hear your heart beat,

Remember we, your buddy.

If, by some odd chance, your name does not happen to be William Henry Sound (you're laughing, but it's possible), here is another decade suggestion for the person who has everything - a gift certificate from the American Bar Association:

The Bar Association in three continuous sizes: small, medium, and large. The small certificates cover title searches; the medium also covers torts, claim jumping, and violations of the Smoot-Hawley Act. The large one covers kidnapping, murder, and battery.

If, by some odd chance, you don't know what barney is (you're laughing, but it's possible), it is arson at sea. This interlacing of fine tobacco in a handsome brown package looks like any infallible gift for the person who has everything, and college students, as everyone knows, are the most richly endowed of mortals.

To the Editor of The Tech:

Dear Sir:

I would be interested to know the source of the irreverent suggestion that the Newton of our times died last week.

Sincerely yours,

Philip Morris. The great man of prose and pen: Paved way for A-bomb? The man of prose and pen: Paved way for A-bomb?

Jazz And Parties Help IFC Formal

A formal dance on Friday night marked the start of the annual IFC Weekend. The dances, featuring the music of Harry Marshall's band, were held in the main ballrooms of the Hotel Statler. Jane Morgan, the "American from Paris," provided intermission entertainment. About four hundred and fifty couples attended "Fraternity Rock's" biggest social event of the year.

On Saturday afternoon a jazz concert was given at the Phi Nu Delta house, with music by Carl Michaelis and his five piece band. Following the jazz session, cocktail parties were held at Pi Lambda Phi, Chi Phi, and Delta Tau Delta.

Saturday evening's entertainment was provided by several parties. Theta Chi presented its Monster Rally, Theta Delta Chi its Outhouse Orgy, and Phi Delta Epsilon held forth at the Cambridge Boathouse with a Klim- dike Party. These affairs brought to a successful climax the events of IFC Weekend.

reviews

"To Paris With Love"

by Dick Tepfer '56

It is a generally accepted fact that in baseball no player will make a hit every time. Even Hollywood will admit (with a little persuasion) that even the great performers are bound to miss now and then. These are, however, degrees of failure. To borrow a little baseball jargon, Alec Guinness, in his latest film "To Paris With Love," has struck out. No hits, no runs, and plenty of errors.

One man cannot alone be blamed for the failures of a team, however. There are such people as script writers, directors, and fellow performers, all of whom must do their part. In this case everybody seemed to pitch right in and do his worst.

The well worn story concerns a man and his five piece band. Following the jazz session, cocktail parties were held at Pi Lambda Phi, Chi Phi, and Delta Tau Delta. Saturday evening's entertainment was provided by several parties. Theta Chi presented its Monster Rally, Theta Delta Chi its Outhouse Orgy, and Phi Delta Epsilon held forth at the Cambridge Boathouse with a Klim- dike Party. Trackmen Excel in Relays

The MIT Track Team rivals a very good showing in the New England Relays held at Harvard last Saturday, April 22. The team took two second places, a third, a fourth, and two fifth places in a meet that attracted fourteen college track teams.

The MIT two miles relay team with Harry Schechter, Dave Vought, Ray Smith and Bure Berrigan finished second in this event, and beat two strong relay teams from Harvard and Dartmouth. The MIT two miles relay team finished second only to a record breaking Yale team in the freshman one mile relay. Our freshman relay team should be a fine addition to next year's varsity. The MIT four mile relay team finished fourth and our freshman sprint relay team finished fifth.

John Morefield again did well in the field events by placing fourth in the hammer throw and fifth in the shot put. John placed fourth in the hammer throw with a toss of 174 feet 5 inches, a distance which broke last year's meet record and was only 5 feet 9 inches short of this year's winning distance.

Golf Season Opens

Both the freshman and varsity golf teams opened their seasons last week. The varsity took on Bowdoin and the freshman team faced off against Governor Dummer. Bowdoin took a 20-stroke victory while Governor Dummer came out on top of a 91/2 to 9!/2 score.

Lacrosse Defense Shines In Second Win Of Year

Bouncing back from a 2-0 defeat, the lacrosse team out battled USM to take their second victory of the season. For the second game in a row the team didn't start to move until the second period, but once started, Silver and Redmond from Saint Joe started (on two early goals) and essentially put out the other team's offense. The result was Saint Joe making a goal in the 42nd minute of the game. After that, the defense dominated the game, allowing only登场. The result was Saint Joe making a goal in the 42nd minute of the game. After that, the defense dominated the game, allowing only one more goal to the team who was defeated.

What young people are doing at General Electric

Young manager handles finances for building of $5,000,000 plant

In the next ten years, the demand for General Electric industrial heating equipment will double. To meet this demand, a giant new plant (model at right) is being built at Shelbyville, Indiana.

The plant will cost $5,000,000, and the man responsible for handling finances for the entire job is 22-year-old R. E. Fetter.

Fetter's job is important, responsible

Dick Fetter's work as Financial Manager of the Department began long before General Electric started building the plant. He and his group first had to estimate probable operating costs and predict whether the plant would be profitable.

Now, during construction, Fetter's chief concern is keeping track of all the expenses connected with the multimillion-dollar project. When the plant is completed, he will set up a complete financial section and manage everything from tax, cost, and general accounting to payrolls, budgets, and measurements, and internal auditing.

25,000 college graduates at General Electric

This is a big job. Fetter was ready for it in a careful step-by-step program of development. Like Fetter, each of the 25,000 college graduates employees is given his chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When young, fresh minds are given freedom to make progress, everybody benefits—the individual, the company, and the country.
