Million Dollar du Pont Bequest to Athletic Program Announced By Pres. Killian At Convocation

A bequest of one million dollars for the improvement of athletic facilities at the Institute was announced yesterday at a general convocation by President James R. Killian, Jr.

The gift was made by the late David F. du Pont, who would have been a senior in Course III this year had he not been killed in an automobile accident early last month. Du Pont was the son of Larnine du Pont and chairman of the board of E. I. du Pont de Nemours and Company, Inc. and long term member of the Institute Corporation.

In announcing the bequest, Doctor Killian said, "This bequest emphasizes our feeling of tragedy in the loss of David du Pont while at the same time leaving us with a feeling of the deepest appreciation for generosity of spirit, of sight, and his expression as a student of affection for the Institute." Doctor Killian indicated that the fund would be used to maintain, as well as all, coaching and teaching staff and to provide new or improved athletic facilities.

The details of the bequest will be announced in due course. 

Aerospace, an annual competitive event at the Kappa brothers, will be held at the Boston Hotel on Monday, November 4. The only Boston performance of "Don Pasquale" continues.

On December 1, 1955, by means of the Faculty Lounge.

The Political Science section, located on the third floor of Walker. It is open to all members of the Institute. The program will be held at Van Paine Senior, a native of Walpole, Mass., and graduate of the Institute.

Ronald W. Davis, professor of economics and social science, will hold a discussion on "The Future Railroad System." It will be broadcast every evening, Monday through Friday, at eleven.

The Prom will be followed by the traditional semi-formal, which will be held at the Sherry-Netherland Hotel on Saturday night. Hal Reeves' orchestra will provide the music. Tickets are $10 and $15.

The Political Science section, which has been established within the Department of Economics and Social Science, will coordinate the work of professors in several departments for more effective undergraduate instruction in political science. It is hoped that by concentrating a wide range of academic research and teaching in political science, it will act as a focus for further development of the field at the Institute. The interdepartmental faculty of the Political Science section includes two senior professors from other departments of the School of Humanities: Dr. Karl W. Donoghue, professor of history and political science; and Dr. Walt W. Ruston, professor of history.

Dr. Padelford, professor of political science in the Department of Economics and Social Science, will hold the rotating chairmanship of the section for the first two-year term. He has been a professor at the Institute since 1944, when he inaugurated a secular course in international relations as part of the new humanities program.

Dr. Padelford served as consultant at the Department of State in Washington, where he was intimately connected with the planning of United States policy on anti-subsidy legislation of the United Nations organizations and the prevention of price manipulations. In 1944, he won a member of the United States delegation to the Democratic Convention of the United States.

At the end of the 1944-1945 academic year, he returned to the United States. He is a graduate of the Institute.

As in the past, Dr. Killian continued, "We shall continue to raise the quality of the academic standards here. And we shall maintain the vigor of our athletic and cultural programs. It will never make us an end in itself."

The principal speaker of the evening was the Right Honorable Cameron H. Howe, Canada's Minister of Trade and Commerce and Minister of Natural Resources. A native of Walpole and a graduate of the Institute, Mr. Howe has long been a Canadian citizen and a leading public figure in the Dominion. Mr. Howe is also a member of the MIT Corporation.

Fassett Speaks at TCA Smoker

The Technology Christian Association will meet tonight in the auditorium of the Bunny Student Center. The guest address will be given by President Philip L. Fassett, president of the United States.

As in the past, Dr. Killian continued, "We shall continue to raise the quality of the academic standards here. And we shall maintain the vigor of our athletic and cultural programs. It will never make us an end in itself."

At the end of the 1944-1945 academic year, he returned to the United States. He is a graduate of the Institute.

Calendar of Events

from October 5 through October 12, 1955

WEDNESDAY, OCTOBER 5
Mathematics Department. Colloquium: "Classical Groups and Hermitian Spaces." Professor F. H. Boeschen, Princeton University. Room 2-282, 4:30 p.m. Tea in Room 2-290 at 4:00 p.m.
Inter-Varsity Christian Fellowship. Bible Study. Mr. Donald Rubb. Room 10-280, 7:30 p.m.

THURSDAY, OCTOBER 6
American Society of Civil Engineers—Student Chapter. Seminar on Modern Techniques. Professor M. A. Crook. Room 3-270, 3:30 p.m.
Physics Department. Colloquium: "Theories of Nuclear Fusion." Professor David H. Frisch. Room 6-120, 4:15 p.m.

FRIDAY, OCTOBER 7
Varisty Soccer Team. Match with Boston University. Briggs Field, 12:30 p.m.
Freshman Soccer Team. Match with Medford High School. Briggs Field, 4:00 p.m.

SATURDAY, OCTOBER 8
Varisty Sailing Team. Match with Boston University. Boston Harbor, 12:30 p.m.
Inter-Varsity Christian Fellowship. "A Christ Centered Life." Pastor L. B. Leby of Roxbury, Massachusetts. Room 10-280, 7:30 p.m.

WEDNESDAY, OCTOBER 12
H.I.T. M.I.T. Bridge Club. Duplicate Tournament. Baker House Cafeteria, 1:30 p.m.
Informal Dance. Committee. First dance of the term. Mons Hall, Walker Memorial. 5:00 p.m. Admission, $1.00 per couple.

SUNDAY, OCTOBER 9
Varisty Sailing Team. Match with Staten Island College. Vinyard, 1:00 p.m.

Metallurgy Department. Colloquium: "The Segregation of Soluble Impurities at Metal Surfaces." Dr. R. S. Davis, Harvard University. Room 3-275, 1:00 p.m.

Favored Teams Dominate As Whitewashings Abound

by Bill Daly '57

Scores ran according to schedule in intramural football last weekend as most of the favored teams ran over their opponents with little difficulty. Three of the six games were decided mostly freshmen and sophomores

The SAE-Sig Ep game should high-
light the night. Sig Ep, thorough
ly out of their season, should prove to be one of the best of the season. In the first minute of play Phi Mu Delta 9-7, Sig Ep defeated Lambda Chi 9-6.3 Next week Sigma Chi and Phi Lambda meet with Sigma Chi a slight favorite.

In league two there were four closely contested games. The games were slightly excited. Delta Tau Delta 7-6 beat Sig Ep. In the other game the Beta defeated Phi Kappa Sigma 20-0.6. Next week Sigma Chi and Lambda meet with Sigma Chi a slight favorite.

On Foreign Exchange

The Foreign Student Summer Program Committee, an organization of Dartmouth's International Program Committee, is now organizing in preparation for the 1956 season. This season, as in the past several summers, MIT will be host to approximately 60 foreign graduate students, who will study for the summer under a program financed by the Sloan Foundation and administered by the FSSP. FSSP members who are students or faculty members in the State Department and the Foreign Service.

Students who work for FSSP are given Institute Scholarships and, if they are not members, free resident

For students interested either in international issues or foreign embassies.

The future resides in MEN WITH IMAGINATION!

Los Alamos Scientific Laboratory, the nation's most important institution for the development of atomic weapons, is interested in interviewing young graduates in science and engineering who are interested in helping to develop our atomic weapons program.

Los Alamos provides:

1. An outstanding laboratory and experimental situation.
2. A personal and professional growth program.
3. Adequate remuneration.
4. Opportunity for leadership and responsibility.

Los Alamos Scientific Laboratory.

Los Alamos, New Mexico.
neither he nor Ernesto are informed.

Dr. Martin J. Buerger, chairman of the Undergraduate Association established the Carnival last spring and elected the steering committee chairman. Girls from six colleges will cooperate in the running of the Carnival. Plans are to have a group of girls from the cooperating schools work together with the individual dormitory and fraternity groups who will run the various booths. The steering committee will be made up of several members from Tech and representatives from each of the participating girls' schools. A smoker will be held this Wednesday, October 2 at 5 o'clock in the Student-Faculty lounge, Room 2-290 for all interested in working on the Carnival.

Co-Eds (Continued from page 2) during the Thanksgiving vacation. The most common expression in her vocabulary seems to be "Are you crazy, man?" Alice Hartley, sophomore IX-A from Easton, Conn., listens to records and has just become interested in sailing. She wants to start a girl's crew to compete against Yar- mas, Smith, and Wellesley. The girls are well supplied with impressions of their new environment. Among their statements about the male population are: "There are not too bad"; "We have quantit if not quality"; "Most Techmen are friendly"; and "Professor Ingard is friendly." Even the male population are: "Some are easy"; and "Are you nuts?" The chemistry section is "huge" and everyone is well pleased with the accommodations.

The girls are all interested in working on the Carnival, some as a way of earning money for the winter. "Are you nuts?" The chemistry section is "huge" and everyone is well pleased with the accommodations. The girls are all interested in working on the Carnival, some as a way of earning money for the winter.
