The keynote speaker will be Charles E. Willoughby, a professor of physics at Massachusetts Institute of Technology and former director of Lincoln Laboratory, by invitation of the MIT Faculty Club, Wednesday night. The lecture is open to all active members of MIT at the dinner were Drs. James L. West (Boston), Dr. Joseph L. Sodergren (Rut., vice president for the first time in the History of the Corporation, by invitation of the activities of the Corporation, was presented last month in Washington, D.C., by the American Psychological Association. The program charted the establishment of the Corporation, and the new charter was presented to Dr. Albert G. Hill, president of the Corporation, for his acceptance. The decision to form such a committee was an important step in the development of the Corporation, and it was hoped that the new charter would be accepted by the shareholders in the near future.

An Exceptional Service Award was given to Hill, Markham, Dean Soderberg, for his outstanding contributions to the Corporation. The award was presented to Dr. Hill by President John S. Saloma '56. "Professor Hill's contributions to the Corporation have been invaluable," said President Saloma. "His leadership and guidance have been a source of inspiration and guidance to all of us." The motion to form such a committee was carried by a vote of 99 to 0, with no noticeable enthusiasm or dis- sent. The motion to amend the By-Laws of the Corporation, to conform with the By-Laws of the American Psychological Association, was carried by a vote of 100 to 0.

The motion to remove the discriminatory clause from the national constitution, it was necessary for the fraternity to weigh the condition the group apply- ed for its maintenance. If persistent dem- ands were made for the group's removal, the fraternity would be required to cease operations. The motion to form such a committee was carried by a vote of 99 to 0, with no noticeable enthusiasm or dis- sent. The motion to amend the By-Laws of the Corporation, to conform with the By-Laws of the American Psychological Association, was carried by a vote of 100 to 0.
LETTERS
To the Editor of The Tech:

Dear Sir:

The following statement appeared in the editorial column of The Tech on November 24, 1954: "Institute funds are responsible for the performance of Don Quixote to be given here in the next few weeks."

This statement is true in a very real sense: the Institute agreed to underwrite this performance by the New England Opera Theater on December 4. That is, if the opera house were not the grant from the Tra- son Society, sponsor of the program, it would be unable to pay 50% of the total expenses. Our own: the soci- ety's creditors. This underwriting was necessary for two reasons:

1. In the event of a financial cata- strophe, the New England Opera Theater might be in a position of em- barrassing and in the extreme be- cause of the magnitude of the budget involved.

2. In connection with the profes- sional interests involved (New England Opera Theater, and the various printing firms, for ex- ample), assurance must be provided

The Tech calendar of events

WEDNESDAY, NOVEMBER 23

Mathematics Department. Colloquium: "A Non-Linear Integral Equation Occurring in Mean Theory." Professor Frenouss Dymon, Institute for Advanced Studies. Room 2-250, 4:00 p.m. Room 2-350, 7:30 p.m.

Hillel Foundation. Reading of the text of Rashi (Biblical commentator).

FRIDAY, NOVEMBER 25

Monday, November 21

Announcing the new Festival Series. Informal lecture: "On Being a Drama Critic." Dr. J. S. Pearman (directed by Vahan Tashjian) in the Little Theater of the Kresge Auditorium. 7:30 p.m.

Saturday, November 26

American Society of Civil Engineers-Student Chapter. Fall Banquet. President's address: "The significance of the New York Cotton Exchange." Mr. S. R. Pottinger.

On Campus with Mark Shumlin

An examination of Photographic Salon prints by John F. Barnes of Campbell, California, will be on display in Photo Service Gallery, Busch Memorial. December 11, 2000.

How to Be a BOMC

Any man who wishes to be a BOMC—you show me one who doesn't and should have a missing youth—will do well to follow the few simple rules listed below.

The first requisite of a BOMC, of course, is a letter. This presents no great problem to the big, the strong, and the building. But what do you do if the pipsy little chump has a coon cheese and muskles like tailors?

Tell him what you do: You go to the nearest letter store, buy a letter, and put it on your sweater, and wear it.

This, perhaps, is not exactly what many of you may think of as "romance," but it is rather encouraging to think that anybody who wears a letter on his sweater has a chance to succeed in life. If a person should have a perfectly logical explanation. Simply say, "I've got a letter on my sweater, and I'm going to stand for 'Inman.'"... Or, "That BOMC does not stand for 'Princeton.' It stands for 'F inman.'... Or, "That BOMC does not stand for 'Princeton,' and it stands for 'Wished and Limping.'... Or, "That BOMC does not stand for 'Princeton.' It stands for 'Wished and Limping.'"

"BG" does not stand for 'Bowing Green.' It stands for 'Bowing Green.'

So, you see, getting the letter-sweater is no large task. But that is only a part of BOMC-bond. Another, and equally important part, is to join the right fraternity. Let me emphasize—the right fraternity. Joining the wrong fraternity is worse than joining no fraternity at all.

How can you be sure that the fraternity you join is the right one? Very simply. Just ask the rushing chairman. After all, why should he lie to you?

Once a BOMC in the right fraternity then is like a diamond in the rough—"smooth, round, and polished." But, if you fail to join the right fraternity, you are like a diamond in the rough—"smooth, round, and polished." But, if you fail to join the right fraternity, you are like a diamond in the rough—"smooth, round, and polished.

Girls answering this de- scription are undoubtedly not so easy. If you should discover that all the suitable girls on your campus are already attached, do not despair. There are several things you can do.

You can, for example, cut your throat.

Or you can pick one of the less attractive ladies on campus, win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will win her heart, and then go after the nose on campus. Your nose will...
**Fund Drive Helps Many Services**

The annual Technology Christian Association (TCA) Fund Drive will be held during the week of November 28 through December 2. Ronald Maiden '57 is chairman. The above chart gives the approximate TCA budget as well as the traditional donation to the Red Feather Drive. Boys Work Division performs invaluable service in the community houses of Boston and Cambridge. Religious Action Division runs the "Seminarian" Seminar and is working now on a questionnaire concerning addition of further courses in religion and ethics to the curriculum. The annual blood drive was held last week. Another will be held in the spring. These and other services are almost wholly financed by the drive.

**Music Poems In “Facade” Recital Prove Enjoyable**

Facade presented by MIT Hurston Society at Kresge Auditorium, Boston, was performed by William Walters. The recital was successful, with the audience thoroughly enjoying the performance. The recitation of Poems by William Walters was well received by the audience. The recitation was followed by a discussion of the poems, which were then performed by Mrs. Norma Farber, as a re-citer, and Michael Frank, who accompanied her on the piano.

The recitation was a success, with the audience thoroughly enjoying the performance. The recitation was followed by a discussion of the poems, which were then performed by Mrs. Norma Farber, as a re-citer, and Michael Frank, who accompanied her on the piano.

**NOTICE: Opportunity for technical graduates with Goodyear**

Representatives of The Goodyear Tire & Rubber Company will be here on the dates shown below to interview Seniors who will receive B.S. or advanced degrees in the following fields of technical study:

- **Chemical Engineering**
- **Mechanical Engineering**
- **Electrical Engineering**
- **Civil Engineering**
- **Industrial Engineering**
- **Chemistry**

**Notice:** Opportunity for technical graduates with Goodyear

There's a career for **YOU** at Goodyear in any of the following fields:

- **Plant Engineering**
- **Process Development**
- **Research**
- **Factory Management**
- **Technical Sales**
- **Production Development**

### THE GOODYEAR TIRE & RUBBER COMPANY

Contact your student placement personnel for more information - please make sure to have personal interview!

Goodyear representative will be here on **DEC. 1 & 2**
by Daniel R. Schneider '57

It is difficult to review a concert by the MIT Concert Band because it is hard to establish the proper standards by which their performance is to be evaluated. It is therefore fitting that this reviewer set forth the basis for his criticism.

First, the band is playing the most difficult music ever written for that particular ensemble. Second, the men performing the music are amateur musicians who subscribe but once a week and who rarely have time to indulge in individual practice. Third, there is only one other organization in the country which has performed most of the works that the concert band has played, and that group is composed of future professional musicians.

This reviewer, then, shall approach his task bearing in mind the first two conditions and also keeping in mind performances which he has heard by the latter group.

It is appropriate in beginning to say that this was the finest performance by the band that he has ever given. They are one of those unique organizations which is always getting better. This is due primarily to John Corley, who is constantly seeking just a bit over the last man's head, and by continually challenging them is steadily improving them. The band played some compositions on Friday which they performed over the radio, and some of these required much more practice than was given. As a result, the performance was not wholly convincing.

Mr. Revelle's work is a very fine composition which is masterfully constructed, and which displays the wind sound as well as if not better than, any other number in the program. The piece reminds one of a Mahler symphony, but the instruments are treated individually rather than as chords. This reviewer sincerely hopes that the MIT audience will hear another, more accurate, presentation of this symphony.

As far as the rest of the concert, the word which fits best is wonderful. The organization consistently displayed the technical facility which makes the symphony in every college concert band in New England. Furthermore, it demonstrated once again the musicality and spirit that marks all of its performances, and which causes it to be favorably compared with the best professional bands in the country.

Returning to Friday's concert, it is hard to establish the proper standards by which their performance is to be evaluated. In this, the orchestra is no different from most others. The probationer is learning, as are the performers, and therefore required more preparation than it was given. As a result, the performance was not wholly convincing.

Elimation Playoff to Decide Champ

The basketball competition got under way Thursday night and the first two weeks of the season have shown the two league leaders to be outstanding. There are six leagues operating, and seven teams in the first and six in the second league. Last weekend's action indicated the two league leaders should still be over 90% of the way to the end of the first semester. Friday and play play is a double round robin tournament with the top two in each league participating. At Johnson Hall, intramural bas- ketball play will continue this week in this type of playoff, and air games which will be pre- sented in several other places will make the Athletic Associa- tion's office on The Tech as busy as can be. No serious objections are said to this week's double elimi- nation will probably be run.

Games are being played this year at Baker Gym and Rockwell Cage, every Sunday through Thursday. Admission is free for all adults and some good seats are available.

A league one AEPTh downed the upper Central Analysis Lab by a 20 to 30 count and Phi Delta Theta scored the 15-15 club, 7 to 2, at 7:00 and 8:30, every Sunday through Thursday. Admission is free for all adults and some good seats are available.

A league one AEPTh downed the upper Central Analysis Lab by a 20 to 30 count and Phi Delta Theta scored the 15-15 club, 7 to 2, at 7:00 and 8:30, every Sunday through Thursday. Admission is free for all adults and some good seats are available.

Chance Vought's XF8U-1 "Cruiser" is commanding attention from the entire industry for its superior flight performance. Meanwhile, the company’s Regulus guided missile is achieving paralleling success as it is delivered to the U.S. Navy for operational use as a surface to surface weapon. Other research and development programs which will further shape the aircraft designs of the future are also under way at Chance Vought. Only an outstanding engineering team can produce such aircraft. This is your opportunity to join that team. Almost every type of academic specialization can be utilized. Newly graduated engineers and scientists from the Bachelor’s to the Doctor’s level will find interesting and rewarding futures awaiting them at Chance Vought. At Chance Vought, the engineer will find excellent working conditions in a professional atmosphere with the most modern research and test facilities available. For those interested in graduate engineering work, the company provides a full tuition reimbursement plan with Southern Methodist University.

We invite you to contact the Chance Vought representative, G. H. ORGELMAN, Supervisor, Salary Employment, who will interview graduates of the Class of '56 in the Placement Office on December 2 or write Engineering Personnel, Chance Vought Aircraft, Incorporated, P. O. Box 5907, Dallas, Texas.
olden times. The psychologlist and psychologist need to help the members of the group discover what emotional expression in the group. Each member of the group must own events to translate accurately as to what takes place in a group. When they are safely into the group, they are ready to be brought into the group, where the group's emotional maturity enables them to accept emotional maturity. Significantly emotional experience in the group is made increasingly more meaningful through a group dynamics group, which is sworn to complete control of the emotional expression which occurs in the group. Each member of the group is emotionally competent to express what the group needs to express to any member in the group and an expression that new and old social arrangements are valid.

CALENDAR OF EVENTS (Cont. from page 2)

SERVICES IN THE CHAPEL

Services (except weekends):

Baptist Student Union. Tuesday from 7:00-8:30 p.m.

Vedanta Service. Monday from 5:10-6:00 p.m.

Jewish Sabbath Service (Hillel). No service Friday, November 25.

Episcopal Holy Communion. Wednesday from 5:10-6:00 p.m.

Eastern Orthodox Christian Evening Worship. No service Thursday or Friday.

The Reverend Peter Blynn, Associate Minister, Church of the Advent.

Morning Chapel Service 8:35 a.m. (United Christian Council).

Roman Catholic Mass 7:55 a.m. Sunday Mass at 1:00 p.m.

NEW VAN HEUSEN® Vanahue shirts

...in new T.V. Spectacolors

that wear well

New VAN HEUSEN® Vanahue shirts... in new T.V. Spectacolors

Here is a new group of shirt colors especially designed to complement today's smart chrome tonal suits. They're subtle yet rich enough to add snap to your suit and your complexion. Available in solid colors, or with Vanahue, Van Heusen's distinctive new monogram-like design on the shirts. $3.98, the Shirr-Line Trim, at $1.98, and the handkerchiefs at 50- Spectacular shirts at small-screen prices.
ASME To Sponsor Wed. Discussions

In an effort to serve the Mechanical Engineering students the Educational Committee of the ASME is sponsoring a Course II coffee hour every Wednesday from 3:30 to 4:30 in the Miller Room (R-707). The first such event will be on November 20 when Prof. Hanson will discuss the "Marking Policy of the Mechanical Engineering Department." Future discussions will be posted.

The success of this enterprise depends entirely upon the cooperation of both the faculty and the students. The coffee hours have been tried before and have met with little success; however, the Department is again initiating them with the intention of creating a greater understanding of the facilities offered within the department, and providing greater opportunity for the students to meet the faculty outside the classrooms. In addition, it is hoped that these sessions will help underclassmen in their course selection and enlarging in their taste selection and employment problems. Freshmen considering Course II are particularly welcome.

Activities Council (Continued from page 1)

The list member of the committee who, at first, appeared interested, helped, and finally dropped the issue.

When the Managing Board was asked if they thought they were responsible for the misdeeds of previous years, they replied that this was quite possible. When asked if they thought they were responsible for past actions, they hedged, and finally dropped the issue. When the Managing Board was asked if they thought they were responsible for the misdeeds of previous years, they replied that this was quite possible. When asked if they thought they were responsible for past actions, they hedged, and finally dropped the issue.

YOUR BIG RED LETTER DAY

the day you change to

J&M

1. SUPERIOR FILTER Only Lam gives you the superior filtration of the Miracle Tip. The current tip that everyone will ask for. It's white... all white... pure white!

2. SUPERIOR TASTE L&M's superior taste comes from superior tobaccos... especially selected for filter smoking. Tobaccos that are richer, tastier... and light and mild.

The Frank and Marion Lowless Motor Carriage House on Cape Cod in North Falmouth

They are all owned and operated by Frank and Marion Lawless, who have the far
