Although few realize it, all the students of MIT are members of a vast network of student organizations of some 3000 in number. These organizations range from the off-campus offices across the nation, outstanding activities and studies, and all student governments.

The passage of the constitution of the U.S. states that its purposes include education, the protection of student rights; to stimulate and aid students in all branches of education, and to promote student interests in the various fields of study. Furthermore, Naniek Howard, Mac Jordan, Mac Jordan, and Bernie Benson as co-captains for the academic year 1956.

In accordance with its constitution, the team went into the game sporting a mediocre record of two wins and two losses. The basketeers got back into the swing of things with a 13-point victory over the touring team. The first for the Cardinal and a tremendous day for the team.

The proposed groups are given below. If there are any complaints or suggestions, the activities are advised to call Kirkland 7-7471 sometime before next Thursday when the measure will be voted upon by the Council.

The fourth of the major areas of special interest to the MIT student. The growth and achievements of the student organizations of the MIT are visible in the past two years as a result of student efforts in all areas of student government and in the student body.

GOVERNMENT BY DEFAULT

That's the best way to describe our Student Council of today. Inscomm, through fear of TEN, The Tech, or hard work (check one) has apparently adopted the policy of laissez-faire, is keeping out of the limelight, out of controversy (that nasty word again) by doing nothing. Business as usual. Nobody notices any difference which perhaps is an index of the importance of Institute Committee in the scheme of things, anyhow.

Well, perhaps not doing nothing. Just nothing significant, and nothing new. Perhaps the stifling of creativity occurs not only in the classroom—maybe it's the Cambridge Woven Hose in the air.

Meetings are still held, mind you. Inscomm meets every week these days, more often and more regularly, with more conferences and committees than ever before in our admittedly short-term recollections.

Ah, committees. We once called the great glass ball in Walker's Morris Hall the eighth wonder of the world. Inscomm's committees may be the ninth. The MIT bureaucracy as an administrative and administrative, could probably give lessons to the government's security program.

Right now, Inscomm is reconsidering an ever-present crisis in the life of Everyman. For one thing, they're still trying to unravel the old problem of graffiti and... SENIOR RINGS!

Alarmed at the immorality of the members of the Senior Ring Committee, Inscomm is now considering degrading its watered-down ethos proposal. The change: no longer allow any diners; allow only non-Look-Of-Dean Investment-Service diners. Had these disturbed legislators forbade any traffic with the contractors at first it might have saved them a lot of embarrassment and back-tracking.

Let's, we limit the method to be used in West Point. The Superintendent can make scratch on the ring interiors. Then, on the basis of quality and price, the class officers select a ring, and the chosen ring is then identified by the superintendent and a contract signed. Now this system may be offensive to virtuous Technicians with tender feelings—but it is almost guaranteed fairer to their still tenderer purses.

Letters

To the Editor of The Tech

Dear Sir:

During the holidays (Friday, Dec. 25), a metal glove was taken from one of the fire extinguishers in the Library exhibit room. Because my interest in the armory was well known, I was expected to visit Dean Howland's office to speak to a couple of Pickerton detectives. I was cleared and asked to cooperate in finding the glove.

For all a good start but some people seem to forget property rights and value. The glove wouldn't be worth more than a quarter in a pawn shop but it's worth much more. The man who owns the armory 80 years old and has spent most of his life collecting armor of all ages. Those suites are his livelihood and he loves them. Without the glove, the suit is no good. To find a replacement might involve $25,000 or more and are extended trip to Europe. An equivalent suit of armor is very scarce and hard to find. The glove seems trivial but "For want of a nail the shoe was lost; for want of a shoe the horse was lost; for want of a horse the rider was lost; for want of a rider the message was lost; for want of a messenger the battle was lost.

Thank you.

on the scene

By Chuck Kerley '58

I arrived in New York on the first day of vacation, and by the time I left I had seen one excellent play, a concert, a fine movie, and just about every modern jazz group that was in town. The play was Giraudoux's "Tiger at the Gates," an enjoyable work whose plot revolved around the events leading up to the Trojan War. The author, who had died in a car accident, is being remembered lately because of the excellent acting of his plays. The movie was a docudrama about the history of the United States. The jazz was the best I've heard to some of the least interesting. In every modern jazz group that was in town, the group and the one Don brought with him seemed to have a metronome that he seems to have a metronome that he seems to have a metronome that he seems to I AM A CAMERA

by James D. Robertson '54

After featuring "Marty" for some twenty weeks, the Kenmore Theatre finally managed to obtain a picture out of the wilds of Hollywood. The picture, "I Am A Camera," is the story of a struggling writer who thinks of himself as being a camera taking pictures of the people about him in pre-war Berlin during the rise of Nazi power. The writer, played by Lawrence Harvey, is forced to aid a damsel of dubious morals by having her come to live with him.roid dressed is played by Ulla Auerswald who really plays it "nice."

The humor in the picture is derived from the antics of Miss Auerswald, especially as her living companion is a young, but moral, bachelor. Shelley Winters provides a secondary plot which rounds out the picture. The only thing wrong with "I Am A Camera" is that it is an attempt by Hollywood to produce a foreign film. Attempt is all that I can say for it.

Oh yes, also selected short subjects.
