In a meeting of the InsComm on Monday, March 7, at the 420 Lounge, the Social Committee presented a new hi-fi system, purchased with the proceeds from the balloting of the All Tech Sing. The system will be on display in the lobby of the building.

Next Tuesday, March 8, all undergraduates are invited to attend the first ALC of the 1954-55 term, which will be held in the same building. The meeting will be called to order at 8:30 p.m. and will adjourn at 9:00 p.m. All members of the ALC, including students, are welcome to attend.

The Tech and The Massachusetts Institute of Technology are pleased to announce the winner of the Goodwin Medal for 1954-55. The Goodwin Medal is awarded to the senior student who has contributed the most to the advancement of knowledge in the field of electrical engineering.

The winner of the Goodwin Medal will be announced at a special ceremony to be held in the 420 Lounge on Wednesday, March 9, at 8:00 p.m. The ceremony will be open to all members of the ALC and their guests.

The winner will be presented with a certificate and a small trophy, and will be given the opportunity to address the ALC on a topic of his choosing. The ceremony will conclude with a brief address by thetech staff and a reception for the winner and his guests.

The Tech staff would like to express its gratitude to all of the students who have contributed to the success of the ALC in the past year. We hope that this year's ALC will continue to build on the achievements of its predecessor and that it will be successful in its mission to promote the welfare of the undergraduate student body.

**TOWARD BETTER TEACHING—THE GOODWIN MEDAL**

Probably one of the roughest and least appreciated tasks awaiting the Institute is the job of the graduate instructor. One can undoubtedly become quite frustrated over futile efforts to pound some knowledge into our collective undergraduate heads, and it is a criterion of real seriousness with which many of these men take their work. That the quality of instruction remains as high as it does, for the graduate teacher has his own studies to pursue, and recognises little recognition or acclaim for his performances at the head of the classroom.

None of us need be reminded how very important a good instructor is to the success of a course. The good man can bring to life the dullest "intuitive" concepts; the teacher who prepares for his job and has the flair for successfully communicating what he knows to those who listen can make or break the subject matter, as well as the student's grade.

It is indeed gratifying, then, to be able to note that these rare men are being cultivated and these valuable abilities being honored with the annual presentation of the Goodwin Medal for exceptional ability and effectiveness as a teacher.

---

**EFFICIENCY PLUS**

An example which many organizations on campus could do well to follow is the efficiency with which Mr. Robert E. Masterton, superintendent of East Campus, this week dispatched within 45 minutes, the request of the House Committee for a poster rack in the dorm office.

---

**INEFFICIENCY MINUS**

Wednesday, InsComm again attempted to prove that it is the tallestest organization MIT has seen for a long time. After three hours of discussion, it decided that it didn't really know what the student body would do for their committee work, but after 15 minutes it agreed to start an investigation of activity business, "immediate and thorough," which at the estimate of the Executive Council representative will take a year and a half to complete.

The Activities Council representative was the man who framed the InsComm constitution thought activity information and opinion would be best represented by an Activity man. Unfortunately he went down to ignominious defeat on this investigation motion as the lone dissent. No one on InsComm could conceive that the man from the Activities Council know more about the activities than they did.

---

**ETHICS IN JOURNALISM**

**To the Editor of The Tech:**

Dear Sir:

I should like to clear up two points of misunderstanding in my "Medal" column of the March 1 issue of The Tech.

First, it should be made clear that theinker of the housing of the "May we mention the fact that..." letter was not the capable Herb Amster, but the chief editor of our student newspaper. He is indeed gratifying, then, to be able to note that these rare men are being cultivated and these valuable abilities being honored with the annual presentation of the Goodwin Medal for exceptional ability and effectiveness as a teacher.

Second, it happens that the student body in question is an official tribunal for the Church on matters of separate, coining decisions. "Consistency!!!"

Yours etc.

---

**TECHNOLOGY CATHOLIC CLUB**

The Student-Faculty Committee, as a result of certain statements concerning it which have appeared recently in The Tech, finds it imperative to correct the erroneous impression which may have created among the student body.

The work of this committee, contrary to a recent report issued by The Tech, has not "deteriorated into politicking," but was not the sensation drawn by the Institute Committee in its recent discussion of the Student-Faculty Committee's activities. Furthermore, we may point out that we have been actively engaged with our faculty members over the past year in the discussion of various topics devoted to the improvement of student-faculty relations at MIT. It seems regrettable in this case that The Tech, as the representative organ of the student body, should have permitted the publication of statements mischaracterized by fact and the assertion of opinions which clearly lacks objectivity.

**Senior Mugs, J. P.**

(Continued from Page 1) nominations were listed in three types, large and expensive banquets, operational or necessary administrative expenses, and negligible expenses, negligible with respect to the total cost of the affair of which it is a part. Finally the group got around to taking action which can be tabulated and be the general opinion of the committee. The questions voted on were:

(1) Are refreshments at committee meetings a “necessary administrative expense”? The vote was 7-5 for the refreshments.

(2) Should refreshments be served gratis to members of committees at their meetings, such as, free drinks for the Junior Prom Committee at 2:00? The vote was 10-4 in favor of the free refreshments.

(3) Should mugs be held for members of committees and should courses be given in the proper affairs at the junior Prom? The mugs were 8-14 against the banquets and the course.

(4) Should special beer mugs and similar things be given to members of special sub-committees? The vote was 11-4 in favor of the free mugs.

(5) Should there be “reasonable refreshments” at sub-committees meetings? The vote was 10-4 in favor of the “reasonable refreshments.”

With approximately a half-hour of the meeting left the group got down to the discussion of the final two parts of the agenda. They passed a motion dealing with the opening of contract bids. The plan of the motion is that all closed bids shall be open simultaneously and in the presence of two-thirds of the committee.

The last topic on the agenda concerned the bonding of members on important committees. The proposed motion stated that students on committees handling more than 500 dollars be required to post a bond equal to one-third of the committee.

31 LANDSWORTH STREET
CAMBRIDGE, MASS.
Hoopsters Edged By Tufts, 73-70; End 54-55 Season With 9-10 Slate

The Engineer varsity basketball team had Tufts in a tailspin at the final minute of play and then watched their hopes for a winning season go up in smoke as a fiery Jumbo drive snipped the Neighbors, 72-70.

The lead was saved back and forth throughout the first few minutes until Tufts led by Henshall, their high scorer, took a 9-3 advantage. Tech rallied and, with ten minutes to go, Giff Weber swished a corner jump shot to give the varsity a 14-11 lead. The teams traded baskets, and the Beavers squared again. Giff dropped a pair of free throws. Des Verges tapped in a rebound and added a free throw to complete the three point play. The big Engineer center hit a jump shot, and two more Weber foul shots made it a ten point lead, 24-14. Free defense by Weber held Henshall scoreless for this spurt and facilitated the scoring surge.

Tufts Cuts Tech Lead

A few minutes later, Tufts put together a basket by Hayes, Sherman and Pasternik to cut the margin to four points. Both teams mixed shot and, with about ten seconds left, Vergens took the ball off the defensive board, dribbled down court, and, closely guarded, put off a desperation, last-second one-hander by Larry Baltes. Two foul shots and a set by Tufts' O'Brien cut the lead to six. Henshall took a pass from Matty Matsuoe and brought it back to eight. O'Brien's follow of his own shot and McDavid's foul shot brought the lead to five. Henshall scored a tip-in, but Matty countered with two free throws. Henshall was on the long end of a three point lead and the Tech lead dwindled to two. Dee scored a tap-in, but Henshall drove to score and added a foul. Carl Hess drove off a pick, but Pasternik's three point play tied the score at 49 all. Sherman's pair of free throws gave Tufts the lead for the first time in the half. The two teams swapped baskets until Tech put together a drive and tip-in by Dee and Giff's pair of free throws to gain a four point advantage. Henshall matched O'Brien's set and McDavid's foul shot. Henshall scored a hook, but Weber dropped two more free throws. Henshall's drive cut the lead to two. Weber outbanging down court was called for charging on a tougharious decision. Gardner made one of the two charity tosses and the Tech lead was only one. Tufts Take Last Minutes Lead

Carl Hess dribbled downcourt and missed a man alone underneath the basket. His all-or-nothing was high and Tufts took over with less than a minute remaining. They went into a weave until Hen- shale breaks off, took a jump shot, recovered the rebound and netted the decisive basket which just Tufts needed to pull away. (Continued on page 5)

Tufts 73; Engineers 70

1954-55 record to nine wins and ten losses.

**Release Schedules**

**For Tech Oarsmen**

The 1955 schedule of the heavyweight and light were announced yesterday by the manager. Bill Hansen, heavy manager, disclosed a five game slate with the IRA regatta as high point. Hansen is a junior Civil Engineering student from Port- land, Maine. The light five race schedule will be chased by the IRA prior to being held this year on the Charles with Tech as host. Bob Kline, a sophomore pre-med stud- ent from New York City, will serve as lightweight manager.

**Open April 23**

Both teams will open the season on April 23, against Harvard and Boston University for the mythical Charles River championship. April 30 finds the heavyweights taking on Wisconsin, Harvard, B.U., and Syntax- on the Charles, while the light- weight race Princeton, Cornell, two of the East's best teams at Princeton. The heavyweight four race to New York to race Columbia on the Har- lem River, May 7. This date finds the heavyweight five race rowing at home against Harvard and Navy.

The Eastern Association of Rowing Colleges series will be held at Washington for the barrels and on the Charles for the 100 on May 14. The lightweight winner usually re- ceives an invitation to England's Henley Regatta. The heavyweight crew finishes its season at Syracuse, June 18, in the I.R.A. Regatta.

**Swim Team Loses; Fritz Wins First**

Although they both took top lals in the Sprint swimming team was sure to follow up in the individual events and went down to defeat in its hands of a strong team varsity, 30-34.

In the opening medley relay, the Beaver team of Mike Nause '55, Walt Buck '55, and Lora Orly '54 hit a good time of 1:52.5 to de- win. In the 190-yard individual med- ley Matty Meltz '57 battled it way but was edged by a swimmer first. In the 100-yard freestyle heat, Tom Hamilton '56 was beaten out of first but Jack Raffell followed up with a third for the Engineer.

Freddy White '57 took second in the 200-yard breaststroke as both Tufts took his second score of the meet. Walt Fritz '55, in the 200-yard indi- cator distance was, took the 450-yard freestyle with Ross Maltz fol- lowing for third. The Beaver 440-yard relay team took the event easily by the gap was too large and Fritz ended up as top.

The Beaver yearends outing with a win in the 1500-yard relay.

**Swim Team Loses; Fritz Wins First**

**Intramural ALLSTARS**

There will be a prize collegiate for the intramural All-Star foot- ball team this Sunday, September 6, in the 1:00 at the Col- ford and Bill Ermin, honorary mentions, are invited to join the original squad.

**Beaver Barks**

by Jack Friedman '57

1954-55 basketball season was perhaps the most significant one in Beaver history. The opening of Rockefeller Cage for basketball games three years ago was one of the most welcome changes for the varsity athletes. It was also the year that the Institute Policy of proper education won its first great victory. The crowd that saw the season’s opener was by far the largest ever to attend a game at MIT.

The Beavers had five freshmen on their team this season. These freshmen will be the key men for the coming years. In order to appreciate the role each freshman will play, one must understand the situation by which they came to the Institute.

The freshmen are the keys to the future of the team. None of them played much high school hockey. Hess, the key ball-handler and the quarterback of the team, will be gone and this will mean a lot of work for the freshmen. Hess was a very dependable player and his absence will be a big blow for the team.

The freshmen will have to prove themselves in the coming years. They will have to work hard to become the stars of the future. They will have to prove themselves worthy of the title of Beaver. They will have to prove that they are capable of carrying on the tradition of the team.

The Beavers had a big win over Tufts in the first game of the season. They scored 86-67, with Hamilton leading with 27 points. The team had a lot of support from the student body and the Institute. The students were excited and they cheered because they wanted to, not because they felt they had to.

The Beavers had a lot of fun in the first game. They were on top of their game and they played well. The team worked hard and they showed their determination. They were proud of their performance and they were happy. They had a lot of fun and they were excited.

The Beavers had a great season. They were optimistic last year, but this time they feel they are on sounder ground. They have a strong team and they are confident of their ability to win.

The Beavers had a great season. They were optimistic last year, but this time they feel they are on sounder ground. They have a strong team and they are confident of their ability to win.

The Beavers had a great season. They were optimistic last year, but this time they feel they are on sounder ground. They have a strong team and they are confident of their ability to win.
CALENDAR OF EVENTS

MONDAY, MARCH 7

Biological Department. M.I.T.-Harvard Biochemistry Seminar: "The Biosynthesis of Phosphoglycides." Dr. Eugene P. Kennedy, Ben May Laboratory for Cancer Research, University of Chicago. Room 16-110, 7:00 p.m. Tea will be served in Room 16-711 at 4:30 p.m.

Electrical Engineering Department. Lecture and slides: "Photographs of Wells by Means of Electrical Plasmas Controlled by Electrical Signals." Mr. Crawford H. Greenewalt, E. I. du Pont de Nemours and Company. Room 14E-110, 5:00 p.m.

Nautical Association. Annual meeting—elections, awards, and color sailing movies. All members welcome. Room 2-399, 5:00 p.m.

TUESDAY, MARCH 8

Food Technology Department. Food Industry Seminar: "Research in Dairy Technology." Dr. Arnold Johnson, President, National Dairy Research Laboratories, Inc. Room 16-310, 2:00-4:00 p.m.

Electrical Engineering Department. Cooperative Council. V.E.A. Symposium Orientation Lecture by engineers of the Raytheon Manufacturing Company. Room 16-295, 4:00 p.m. Freshmen welcome at part of freshmen orientation program.

Freshman Swimming Team. Meet with Brookline High School. Almaden Swimming Pool. 4:00 p.m.

Humanities Department. Colloquium Series: "The Pythagorean Tradition." Prof. Robert G. Bragdon '57. Room 10-250, 4:00-5:00 p.m.

Math and Chemistry Departments. Electrochemistry Colloquium: "The Electrochemical Preparation of Germanium." Dr. Mino Green. Room 16-275, 4:00 p.m.

WEDNESDAY, MARCH 9

Civil and Sanitary Engineering Department. Hydromechanics Seminar: "Reducing of Bottom Velocities in Stilling Basins." Athaunias A. Valoug- oupolis. Rooms 48-206, 4:00 p.m. Refreshments in Room 48-208 at 3:45 p.m.

Acoustics Laboratory Seminar: "Wave Propagation in Liquid-Filled Tubes: Some Practical Applications." Dr. Miguel C. Jorgent, Acoustics Research Laboratory, Harvard University. Room 338-225, 4:00 p.m.

Electrical Engineering Department. Colloquium: "A System Approach in Acoustical Engineering." Prof. Robert H. Bell. Room 6-120, 4:00 p.m. Refreshments in Room 16-290 at 4:30 p.m.

Hilte Foundation. Business meeting. Crafts Lounge, East Campus, 5:00 p.m.

EXHIBITS

An exhibition of paintings by Josef Albert, painter, teacher, and head of the Painting Department at Yale University, will be held in the New Gallery of the Charles Hayden Memorial Library from March 6-27. Hours: Monday through Friday, 9:00 a.m.-5:00 p.m.; Saturday and Sunday, 2:00-5:00 p.m.

Photographic Slide prints by Claude T. Ani of Seattle, Washington, will be on display in the Photo Service Gallery, basement of Building 11, through March 11. Included are several prints accepted for hanging in various International Salons, as well as top prize-winners in American and international competitions.

An exhibition of ceramic sculpture by Prof. Frederick H. Norton will be held in the service gallery, basement of Building 11, through March 16, Tuesday—Wednesday, 10:00 a.m. to 5:00 p.m., Thursday—Sunday, 12:00 to 5:00 p.m.

CALENDAR OF EVENTS

The Calendar of Events appears in THE TECH on Tuesday with announcements for the following eight days (Wednesday through Wednesday). Notices, typewritten and signed, must be in the office of the editor, Room 7-204, six days prior to the date of publication. Material for the Calendar of March 9-16 is due March 2.

WINSTON'S GOT REAL FLAVOR!

AND IT'S SO EASY—DRAWING!

You'll really enjoy Winston's full, rich, tobacco flavor. And you will really appreciate Winston's finer filter. It's unique, it's different, it filters so effectively! Winstons are easy-drawing, too, for full flavor enjoyment.

Try a pack of Winston's! They taste good—like a cigarette should!
