Rioting By Local Teenagers Breaks Up Charities Carnival; One Student Hospitalized: Booths, Equipment Wrecked

**Facts Brought Out As Students Investigate History Of Carnival**

1. The full impact of the riot caused by local high school youths who joined an apparently unrelated undergraduate mob on last Saturday night began to be in effect Sunday. In the form of investigations on both the student and the administration levels, a sort of what occurred the proceedings.

2. In the quest for the invention that caused the events leading up to the car-

3. Stopping the event was a Student Committee which was organized around 8:30 p.m. last Saturday night by the Student's Council, which was in turn organized by the Student's Council. The committee was formed by Inscomm, which is the executive committee of the Student Association.

4. The committee's decision was the conclusion that the riot was a result of the carnival program. The committee reached some definite con- 

5. The complete text of the statement issued by the Executive Committee of Inscomm on last Saturday night is as follows:

   "The Executive Committee of Inscommunity considered the Charities Carnival at its meeting last Sunday night. The Committee issued a statement assuming responsibility for the "hazing program" and apologizing for the "irregular error in judgment in allowing the Charities Carnival to be held in such a form."

6. The full text of the statement issued by the Executive Committee of Inscommunity on last Saturday night is as follows:

   "The Executive Committee of Inscommunity assumes responsibility for the events of last Saturday night and apologizes to the MIT Community for a tragic error in judgment in allowing the Charities Carnival to be held in such a form."

   "We are deeply sorry for the distress and inconvenience caused by the carnival program. We apologize to all those who were affected by the program."

   "It was our intention to provide entertainment for all those who attended the carnival. However, we recognize that the "hazing program" was inappropriate and we apologize for any harm caused."

   "We would like to reiterate that our goal was to provide a positive and enjoyable experience for all who attended. We are committed to learning from this experience and ensuring that similar incidents do not occur in the future."

7. The full text of the statement issued by the Executive Committee of Inscommunity on last Saturday night is as follows:

SCEP Recommends Cum System Change, Suggests Adoption Of Five Point Program

At last Wednesday's Institute Committee meeting the Student Committee on Educational Policy presented its report on the cumulative rating system. SCEP, in essence, is a new system which variously weights and calculates the grades and social standing of all candidates which would be unfair measures of performance. It is the following recommendations from the group were forwarded to the Tech:

1. The absolute determination of scholastic standing shall cease.
2. The determination of a student's professional aptitude shall cease.
3. The absolute determination of a student's "honor roll" shall cease.
4. The absolute qualification for the Dean's list shall cease.

The above four recommendations that represent current practice is used with reservations, for there is much doubt that the same units of value are involved when "averaging" performance in different subjects.

"We feel that the present system of letter grades is adequate in rating the performance of students within a given subject, and that any fines broken down to the very limits of an instructor's power or evaluation. Moreover, the error of not recognizing a high 'B' over a low 'B' are for the most part random, thus cancelling out on the long run."

The following recommendations from the group were forwarded to the Tech:

1. An effort be made to de-emphasize the "scholastic om," which appears to have no constructive effect, if not a detrimental one, upon the educational aims of the majority of MIT students.
2. The term rating and the cum be deleted from the term reports sent to the students and his parents. In order that more attention be given to performance in specific subjects.
3. The Institute publication explaining the cum system be discontinued.
4. The present method of computing the cum and term rating be continued (for want of a better one) and record of such be kept on file in the Dean's Office to comply with said service requirements.
5. The term rating be continued (again, for want of a better one) as the absolute qualification for the Dean's List.

An educational program is launched aiming students to overcome misconceptions about the uses of the term, rating and omomental intellectuality which is satisfied by knowledge rather than grades. If the suggestions in these recommendations are put into practice SCEP feels the long range trend will be a gradual de-emphasis on the overall cumulative rating, will take place and that the students will be become more concerned with his own studies rather than a comparison with the other students.

Q CLUB STUDY

(Continued from page 1)

In the Sophomore class by the Quadrangle Club working together with a liaison committee consisting of elected representatives from each of the dormitories, the faculty, and the committee. The method of communication would involve a broad basis covering the varied types of rating, both general and specific, to be formed by the liaison committee, with authority within the residence of this policy delegated to the two groups in charge of hazing activities in the classes involved. It would be emphasized that in case of any doubt on the part of those two groups the hazing committee will be consulted and that in case of any violations of the policy to authorize, these groups meeting and in conjunction with the regular faculty of the Institute both in forming the basis for any recommendation. Other than this suggestion, the report recommended that constructive, eductive, and educational, in favor of the continued limitation of hazing to the IFF campus. With regard to the proposed program, Q-Club President Rosenstock stated: "I believe that the various points of controlling hazing far outweigh the minimal possibilities of harm which could be brought, and that this program directly outlines the mechanics via the student body."
Hermosilla Bows To Heckscher In Intercollegiate Squash Final

Hermosilla's Ben Heckscher thwarted Hermosilla's bid for the Intercollegiate squash title in straight sets. But Engineer to reach the finals of the tournament, Hermosilla bowed, 15-13, 13-3, 15-10. Essentially a battle between two contrasting styles of play, it was one-sided after the first set. Heckscher, more powerful and his gathered, was most effective in long rallies in the back court. From the second and third game he kept Hermosilla away from the net where his hand-eye coordination and precision was most noticeable.

Foul points throughout the first set, the freshman appeared evenly matched. Heckscher, however, turned the tide to bear late in the set. After 13 all, he went on to win 15-13. The third game with a change-up serve to bear late in the set. After 13 all, he went on to win 15-13. The third game, with a change-up serve to bear late in the set. After 13 all, he went on to win 15-13. The third game, with a change-up serve to bear late in the set. After 13 all, he went on to win 15-13. The third game, with a change-up serve to bear late in the set. After 13 all, he went on to win 15-13. The third game, with a change-up serve to bear late in the set. **NOW—SPERRY ENGINEERS**

project a proud past into a new realm of ENGINEERING OPPORTUNITY FOR YOU!

The Missiles Systems Division

Drawing on a 34-year history of engineering accomplishment, Sperry now adds a Missile Systems Division to its ever-expanding organization. "From" of course, are an old story with Sperry engineers, from the installation of the first gyro-crupet into a Navy warship, back in 1917, to the welded of entire submarines today. Sperry has been busy working on developments of importance. And Sperry Engineers are properly qualified to embark on their newest project. Their new experience with missiles and associated systems makes them uniquely competent in this field. As a matter of record, way back in 1918, Sperry engineers successfully developed the first radio-controlled "guided missile."

What all this means to engineers is enough to crown you with laurels. His work will be clear. In Sperry's new Missiles Systems Division, offer opportunities the equivalent of only can you now tap the tremendous potential in the field of missiles and associated air-borne devices, but you can do so from the well-established base of a well-established base of a well-respected organization. Over 1300 engineers, all of whom have been employed by Sperry for more than 10 years. And, on Sperry gives you, you will gain ... in professional stature and in personal gain.

Consider these Exceptional Openings for Engineers in the following fields:

- Feed Back Control Systems
- Magnetic Amplifier Circuits
- Rudder Systems
- Stable Platforms
- Relocation Allowances — Liberal Employee Benefits
- Modern Housing in Beautiful Suburban Country Area
- Further Refinement Program (Graduate students in one of our plants)
- Modern Plant with Civilian Technical Facilities
- Association with Outstanding Professional Personnel

Swimming Title Goes To Williams; Bryan Finishes Fourth in Dive

In order to catch a dwindling membership, the MIT Track Club amended its constitution recently to permit Junior Varsity letter winners to become eligible for membership. The club had fallen to eight members and it was felt that now blood was needed.

The club is planning on an enlarged slate of activities, including bi-monthly dinner meetings with outstanding sports dignitaries as guest speakers. It is also hoped that the additional membership openings will stimulate interest in the track team at MIT.

New members elected from the newly eligible JV winners are Pete Randazzo of MIT, Al Sarni and O'Neil of Tufts, to whom several times. He turned in a 5:19.9, and beat both Randazzo of qualifying by several seconds. In the 300-yd. medley of the top places, edged out in the finals. Since the 50 is usually very behind the sixth qualifier. The win was second out of the third round. Veeck had done one of his better.

'59 Returns Official; Long New President; Packer, Sprio Win

After several days of dispute, the Class of '59 presidential race has now been decided and the results made official. Tony Long, former president of the Freshman Council and candidate for UAP, is the new class president and Ronnie Lytle is the Vice-President. The final results came in a surprise to many of the people involved, for it was formerly thought that the decision would involve only Long and Dick Solomon, another candidate for the office.

As of Tuesday night Solomon was unofficially announced as the winner of a very close race in which Long's vote tally was then supposed to be the intramural squash play, with Regis
