Inscnem

Subcommittee Reports Presented

The Institute Committee meeting Monday evening was opened by the report of the Education Committee on the Education Policy which is currently in effect.

The committee presented a report on the present state of the committee.

Next on the agenda, the Judicial Committee report (Fred Culick '56) included the information that the committee has received a number of reports from the various schools.

The report stresses the difficulty of the committee and that in public relations, there are a number of larger scales than those of a smaller college or university, due to the Institute's wide-spread reputation.

The P.R.C. as the "Official Undergraduate Publicity Bureau" must remember and create favorable relations with the public by releasing information, maintaining contact with students' former secondary schools, and acting as a liaison between the MIT 'community and individuals interested in its welfare. Any recommendation is that Inscnem, in cooperation with "The Tech" invite all local officers to functions in order to foster better relations.

The Open House Program, which has been open to much discussion for the last year, should be continued, according to Culick, and the P.R.C. must make the effort to encourage the coordination between the dorms and fraternities.

Highly successful in the past, this program has previously drawn over 200 students and faculty members from the various dorms and fraternities, and is an opportunity to meet new people.

The Carrell, to be held March 10 from 1 p.m. to 12 p.m., will have Bill Homan '56, chairman of the P.R.C. as the host. The program will be held "in the spirit of the world's largest fun club," according to Homan, and will be open to all interested in the social or the academic aspects of the college.

The P.R.C. will also invite the participation of the dorms and fraternities in the event, which will be held at the dorms and fraternities.

Dramashop's "Evening Of One Act Plays"

This evening the Dramashop will present a follow-up to their first "Evening Of One Act Plays" which was so enthusiastically received.

This second scene contains scripts of some of the favorite plays. The productions to be given are: Neil Cow- land's "The Fall," directed by Michael Hall '57; "The Sky and the Lonely," directed by Robert Hage "57; "Thy Little Theatre," the all-woman Dramashop's production, and "Dramashop's Terrors." The productions will be held in the Kresge Auditorium of Little Theatre, following the student-produced and directed plays of the Dramashop's "Evening Of One Act Plays." Each play will be followed by a question and answer session with the cast and crew, and the audience will have the opportunity to participate in the discussion.

The Dramashop "Evening of One Act Plays" will take place on Friday, March 11, at 8:30 p.m., in Kresge Auditorium. The event will be open to the public, with admission at $1.00, and tickets are available at the door.

THE CARE AND FEEDING OF ROOM-MATES

Today we take up room-mates, a delightful phenomenon of American college life. Having a room-mate is not only heap of fun, it is also a serious concern. For the proper study of man is man, and there is no better way to learn the dreams and desires of the larger personality than to share a room with him.

This being the case, it is wise not to keep the same room-mate too long, because knowing each other too well means that one will know all about the dreams and drives of human beings. And in saying this, I mean just what I say.

So to try to change room-mates as often as you can. A recent study made by Sigma Alpha Chi fraternity reports that the best interval for changing room-mates is every four hours.

Now let us discuss how to go about choosing a room-mate. Most counselors agree that the most important thing to look for in a room-mate is that they be people of regular habits. This, I say, is a matter of taste. What if one of their regular habits happens to be that he be the first to go to sleep from midnight to three in the morning?

Or, if you are growing smaller in the tenth grade or peanut brittle, it may be exactly your size. Otherwise you will have to have their clothes altered to fit you, which is a considerable nuisance. In fact, it is sometimes simply impossible. In one case one roommate wore a size ten, under seven feet tall and weighed nearly three hundred. The team of doctors said there wasn't a blinding thing I could use in his entire wardrobe, but what? On the other hand, in another case, I cut one leg off a pair of Tremblatt's trousers, jumped into it, and it fit perfectly, and was satisfactory room-mates. Not the least of these is the cigarettes they smoke. If you cannot smoke, do not have a smoking room-mate. If you do, you will have to have their clothes altered to fit you, which is a considerable nuisance. Of course, it is sometimes simply impossible. In one case one roommate smoked a hundred and one a day, and the thing is, he was not fussy at all. The other roommate smoked a hundred and twenty and he called it a candelabra.
Secretariat Will Hold Freshman Smoker March 5th In Litchfield

The Secretariat, one of the most important sub-committees of the Student Government, and often called the stepping stone to political politics, will hold its annual smoker for freshmen on Monday, March 5th at 8:00 p.m. in the Litchfield Lounge. Any freshman who is interested in joining the committee is invited to the smoker which will be followed by individual interviews during the week.

The Secretariat is divided into four divisions plus an officer manager who supervises the general work done by all members in regular office hours during the week. Each member specializes in one division, either Secretarial, Publicity, Elections, or Social, although membership on these divisions is rotated throughout the year.

The Secretarial Division is responsible for recording all information and coordinating meetings, and for keeping straight the vast student records kept in the Student Office. The Publicity Division controls all use of bulletin boards, posters, and other means of advertising to the school. The Social Division coordinates the school's social calendar trying to prevent conflicting activities from being scheduled at the same time. The Elections Division handles all of the electoral work for school elections. Meetings are held on Monday each week in Litchfield.

Four Labs Interview On WMIT Tonight

Tonight at 11:00 p.m. WMIT will present a special interview with the Four Labs; Sunday at 8:00 p.m. WTB will present an interview with Bette Goldovsky. The Four Labs are the famous singing group who sold over a million records of the song "Moments to Remember". They are currently doing well with their latest hit "My, My Madam". WMBT's Artie Amstutz recorded the interview earlier this week at the Tote Room where the Four Labs have been performing.

The most important event in the short history of WTB will be followed by individual interviews during the week. Each member specializes in one division, either Secretarial, Publicity, Elections, or Social, although membership on these divisions is rotated throughout the year.

Fellowship, Scholarship Grants Announced For Next School Year

by Charles Spangler '59

Two new educational grants, open to both graduate and undergraduate students were announced this week by the Institute of International Education and the North American Aviation, Inc.

The first granting agency, the Institute of International Education, has established the ISCOMM Fellowship, in the amount of $6,000, for students from underrepresented countries who are seeking to study in the United States.

The second granting agency, North American Aviation, Inc., has established the North American Fellowship, which provides a fixed percent of tuition, plus additional funds for expenses, and is open for the 1956-1957 school year.

The ISCOMM Fellowship is intended for students from underrepresented countries, and will be awarded based on academic merit and the potential for making contributions to the field of engineering. The fellowship amount is $6,000, and it must be used for tuition and living expenses.

The North American Fellowship is intended for students who are interested in advanced study in the field of aeronautical engineering. The fellowship amount is $1,000 a year, and it must be used for tuition, fees, and living expenses.

Both fellowships are open to students who are pursuing advanced study in the field of engineering, and the application process is currently open. Interested students are encouraged to apply as soon as possible to ensure their eligibility for these exciting opportunities.

Harvard's Dean Keppel To Speak At Scholastic Enthusiasm Meeting

Dean Frank Keppel will be the lead off speaker at the Conference as the Development of Scholastic Enthusiasm to be held at MIT's Endicott House on the west end of February 25 and 26.

Dean Keppel is a graduate of Harvard University and the American Academy in Rome. He has done graduate work in the History and Philosophy of Education at Harvard.

He has held the position of Assistant Dean of Freshmen at Harvard, Secretary of the Joint Army and Navy Committee on Welfare and Recreation, U. S. Army Information and Education Committee, Assistant to the Provost at Harvard University, and is presently Dean of the Faculty of Education at Harvard.

Dean Keppel is a member of the American Society of School Administrators, the National Committee on Teacher Education and Professional Standards, and the White House Conference on Education.

The Conference is sponsored by the Student Branch of the American Society of Mechanical Engineers, and financed by ASME, Pi Tau Sigma, Student Branch of the American Society of Civil Engineers, the American Society of Electrical Engineers, and the National Committee on Teacher Education.

Davis Given Award By Quadrangle Club

In a special meeting of the Quadrangle Club last Tuesday night, President Jim Benenson '58 made a presentation to Paul Davis '58 "with sincere thanks for outstanding services to Field Day 1955 from the Quadrangle Club". Davis, although not a member of the organization, played a vital role in the 23-0 victory of the Hillel team.

Hillel

Paraic services including a reading of the Megilia will be held by Rabbi in the Chapel tomorrow, Saturday evening, Feb. 28, at 7:00 p.m. Hanukkoth will be served; all are invited. The dance previously scheduled for this occasion will be held at a later date.

SELECTIVE SERVICE TEST

The Selective Service College Qualification Test will be given on April 9, 1956. The deadline for applications is March 8, 1956. Applications are available in room 14-5136.

Most likely to succeed — in more ways than one

He rates a hand from his prof, not only for linking the most books, but also for knowing how to pick his clothes. This Arrow University button-down shirt is beautifully tailored gingham in an autumn tartan, $5.95—also available in oxford cloth (choice of nine colors), $5.00.

When worn together with Arrow chino slacks, (plaided front and back strap) they mark the influential guy on campus. Slacks, $5.95.

CONVAIR

SAN DIEGO

Representatives will be here February 28, 29

TO INTERVIEW ELECTRICAL, MECHANICAL, AERONAUTICAL ENGINEERS ABOUT TO GRADUATE

At Convair, in beautiful, smog-free San Diego, California, you will find the diversity of challenging, far-reaching projects that offers you the unlimited career opportunity you seek.

You will discover the very latest engineering equipment, excellent engineer's engineering department—imaginative, energetic, explorative. You will also work with the very busy, vital aircraft and missile industry.

You will find the Convair Engineering Department a genuine "engineer's" engineering department—imaginative, energetic, explorative. You will work with the very latest engineering equipment, excellent working conditions, salary, personal job advantages, and opportunities for continuing education.

Remember these facts about Convair:
