

# JP QUEEN FINALISTS CHOSEN

MISS JANET TEACHOUT

MISS MONIKA SCHWAGER

MISS NANCY JORDAN

MISS PAIE SANGER

MISS BOBBIE PERKINS

## The Tech

NEWSPAPER OF THE UNDERGRADUATES OF THE MASSACHUSETTS INSTITUTE OF TECHNOLOGY

VOL. LXXIX No. 36 CAMBRIDGE, MASSACHUSETTS, TUESDAY, NOVEMBER 3, 1959 5 Cents

MISS MARIE FILLEDESRUES

With all plans completed, the Junior Prom Committee has nothing to look forward to but the very pleasant task of counting proceeds and choosing a queen from the list of well-endowed finalists.

Ira Jaffe, '61, Committee member announced the following procedure regarding Saturday night. Couples will not be admitted to the Armory until 8:00. One couple may reserve a table, but only one table. Only the Massachusetts Avenue entrance will be open. No smoking rules will be enforced.

### Strong Competition for Queen

Over five hundred students voted in the JP Queen elections last week. Despite strong competition from the date of a coed, who, according to Dave Stare, '62, chairman of the contest, "in the first day, was ahead by a landslide," the girls pictured above, received Tech's approval. Stare hastened to add that, although the male entrant was disqualified, he would have placed sixth.

Friday night the Committee will meet with the five finalists and choose the queen. Stare stated that the decision will be based upon poise as well as good looks.

The five finalists, all escorted by members of the class of '61, are:

#3, Miss Janet Teachout, a sophomore at BU, escorted by Bill Schonbein, Phi Delta Theta.

#5, Miss Monika Schwager, a junior at the University of Pennsylvania, escorted by Robert Zara, Phi Kappa Sigma.

#7, Miss Nancy Jordan, a junior at Wellesley College, escorted by Ted Jarmain, Sigma Nu.

#10, Miss Paie Sanger, a freshman at Garland Junior College, escorted by Jim Francis, Delta Upsilon.

#11, Miss Bobbie Perkins, a junior at BU, escorted by Larry Roven, Alpha Epsilon Pi.

#69, Miss Marie Filledesrues, transfer student from Lycee La Lanterne Rouge, Marseille, escorted by Jean Pierre Frankenhuis, Phi Beta Epsilon. Jean Pierre withdrew Marie from the race because "her parents entreated him not to expose her innocence to the eyes of the public."

### TECH SHOW

All persons interested in writing for future Tech Shows should attend a workshop this Thursday night at eight in the Miller Room (basement of Building 3.)

## NSA Representatives Speak With Institute Committee This Thurs.

Two representatives from NSA will speak to the Institute Committee at the meeting this Thursday. The representatives include Harald Bakken, a former national NSA president, and Irv Stolberg, who was Campus International Administrator last year.

These delegates are coming in answer to a request to the NSA by the Institute Committee. Their purpose here will be to present the advantages of the continued affiliation of MIT with the NSA.

The question of disaffiliation or "drastic corrective action" came up when the MIT delegation to the NSA-sponsored National Student Congress presented its formal report to the Institute Committee last month. The

report stated that too much of the NSA's time is wasted by matters not pertinent to "students in their role as students." This is supposed to be the purpose of the NSA and it is the only purpose that the Institute Committee will accept as reason for participation in future NSA activities.

The alternative to disaffiliation, that of "drastic corrective action", is in the form of three recommendations; establishment of a MIT NSA Committee under the Institute Committee, more funds from the Finance Board, and a familiarization of MIT with the NSA.

One of the main objections of the Institute Committee to the NSA is that the average student knows little or nothing about the functioning, or even the existence of the NSA. At its previous meeting the Institute Committee felt that if the NSA can make itself known to the average student, then it can develop its potential to the fullest.

## Coeds Show Spirit In Night Foray

MIT's coeds have once more arisen to the call and have brought to life the spirit of Freshman-Sophomore rivalry. Four sophomore maids descended on 120 Bay State Road at 4:30 Saturday morning to cook breakfast for their frosh counterparts. Before preparing the pancakes and coffee, the sophs removed all light bulbs, storing them in the refrigerator, and coated door handles of the freshmen dorm with Vaseline.

The Freshmen damsels retaliated by requiring their invaders to wash the morning's dishes. Said one sophomore, "Twas our just deserts."

closing seconds, fumbled in the backfield and AEPi's Sam Wilensky, '59, caught the ball in the air and raced for the winning score.

The mixup occurred when the referee, who had ruled the ball dead before Wilensky caught it, allowed the score.

In League III action, Sigma Chi downed Sigma Alpha Mu 13-0.

### East Campus Wins

East Campus extended its winning skein to three games with a victory over Phi Sigma Kappa. In "B" division in action, Walker Student Staff forfeited to Non-Resident Student Assn. (their second forfeit of the season) and both Theta Xi and Phi Beta Epsilon failed to appear for their game.

ternoon and after a short tour of the institute were guests at a formal reception held in the Hayden Library lounge. The reception was attended by Beaver Key members, deans, and members of the foreign language and humanities departments. Today they are expected to split up to visit the parts of the Institute which are of interest to them.

The Russians will be followed at the Institute by a group of Argentinian students who will be on campus at least one day during their five day stay in Boston the week of November 9-15. No other information has been received about this group, according to Bill Strauss, who is making the arrangements for their visit.

### Finals Start Next Weekend

## Fijis, Delts Capture Playoff Victories

Delta Tau Delta and Phi Gamma Delta grabbed playoff victories Sunday to complete the full slate of eight teams scheduled to begin competition for the intramural football championships next weekend.

The Delts took the League I title with a 12-0 win over Delta Upsilon, which had tied for the lead with a 34-6 victory Saturday in a make-up contest with Grad House. The Fijis edged Phi Delta Theta, 7-6, for the League II crown.

In the only other game which decided a league championship, Lambda Chi Alpha downed Senior House I 35-0 in League V. The victors had clinched a tie last weekend.

### Finals Next Weekend

The championships will begin next Sunday with the Delts facing Beta Theta Pi and Lambda Chi Alpha meeting Student House in the early games. The Phi Gams will battle Sigma Alpha Epsilon and East Campus will meet Senior House II in late afternoon contests.

The winners will play the following Sunday (November 15) for the "A" and "B" division titles. The losers will play consolation tilts.

### Bray Stars For Delts

Terry Bray, '62, passed for both touchdowns as the Delts gained their 12-0 victory over DU in the mud at Briggs Field.

Bray hit Nick Kneen, '62, in the third quarter and spotted John Crissman, '61, in the final period. Dave Powell, '60, led the Delt defensemen, who kept the ball in the DU half of the field most of the time.

Rain in the first half limited passing by both teams, but in the final stanza the DU aerials began to take effect as four scoring opportunities were successful.

### Fijis Win By Point

Quarterback Chuck Gamble, '62, connected on a 40-yard touchdown pass to Don Aucamp, '57, and followed with a completion to Bob Williamson, '60, for Fijis game-winning extra point.

Fritz Frink, '61, outstanding on both defense and offense for the losers, alertly intercepted a pitchout and ran untouched for the Phi Delts' lone score in the first half.

However, the outstanding Fiji line, headed by ends Carl Swanson, '60, and Pat McGovern, '59, contained the losers while the Fijis moved into scoring position several times.

The game climaxed the outstanding rivalry of the intramural season. Last week the two teams played to a scoreless tie.

A disputed call on the final play of the game led to a Pi Lambda Phi protest in a battle for the League IV runner-up spot with Alpha Epsilon Pi.

### Pi Lams Protest

Pi Lambda Phi, leading 6-2 in the

The Fijis' Bob Williamson, '59, catches Chuck Gamble's pass in the end zone for the extra point that won the game. J. Curtiss Wiler, '63

### Argentinians Arrive Soon

## Russian Students Here

A distinguished group of visiting students is now on campus and another is scheduled to arrive next week. Yesterday a contingent of Twelve Russian students and three interpreters arrived for a visit with students and professors.

At the time this issue of *The Tech* went to press little was known about the plans of the visitors. Ira Jaffe, '61, Beaver Key president and coordinator of the visit, said that the plans depend entirely upon what the students desire to see. It is known that one of the students, who range in age from 25 to 30, is an engineer. Little else is known about their educational background, however.

The Russians arrived yesterday af-

## Information Please

The recent announcement of the Ford Foundation grant to revamp the undergraduate engineering curriculum has caused something of a stir among the various engineering departments. With this considerable amount of introspection and re-evaluation of purpose going on among the faculty, which promises to bring forth some wide-reaching changes in the Institute's educational policy, it seems incredible that so many students have no idea of what is going on. But this is so, and the reason seems to be a lack of information available to the student body. We understand that it is too early for the Institute to present definite plans for the future curriculum, but there must be some general concept in the minds of the faculty and administration as to the direction which the engineering school will take, or the Ford Foundation would not have honored their proposal.

We definitely believe that it is time that the students, who have their own opinions as to which courses are good (or bad) and what changes should be made, should be made aware of the future of the curriculum. Perhaps the best way to do this would be to have another of President Stratton's talks to the undergraduates, the first of which, last year in Kresge, proved so successful. Certainly the feedback would be worth the effort.

## Letters

TO THE EDITOR:

In reference to your October 30, 1959 editorial, "The Missing Service," we must agree that the Endicott conferences have been of value in the past. It is our belief that future conferences could be of equal or greater value.

The Endicott conferences have not been forgotten. Two such gatherings planned for this term are a session on scholarship and a session on pre-initiatory activities.

One of the reasons for the success of past Endicott conferences has been the fact that the participants knew in advance that there was good reason for calling the meetings. An example would be the conference of house presidents normally held at the end of rush week. This year, it was felt by the IFC executive committee that there were no rushing rules which had caused particular hard feelings, and therefore, a conference on this subject would not be useful or necessary. This opinion was borne out by the fact that the rushing rules were unanimously accepted by the IFC for re-use next year.

It is the philosophy of the IFC to provide a maximum of services to the member houses, and one of these services is the exchange of ideas. Conferences such as those held at Endicott House must never be forgotten. But, by the same token, it is important to have good reason for calling them, so that their value does not drop. The IFC will continue to place services at the disposal of its member fraternities. At the same time, it will do all in its power to make sure that the ideas and services it does present are of definite use and interest to the greatest possible number of fraternity men.

All of us who hold office within the IFC know that we are there to serve to the best of our abilities. The sense of responsibility to fraternity ideas and the National Interfraternity Conference criteria remains with us, and we will do our utmost to continue to meet these responsibilities.

Joseph A. Verderber, '60  
Chairman for the IFC

TO THE EDITOR:

I am in no way connected with and, outside of what you have printed, have no knowledge of the facts in the recent troubles of the Tech Flying Club.

However, one thing is very clear to me. *The Tech* has unintentionally smeared Mr. Hudock. What I am referring to is the fact that although the accusations against him made banner headlines on page 1, the vote of confidence which cleared him was on your last page.

The fact that you did report his reinstatement shows an attempt to do a job of responsible reporting. However, the differences in manner of reporting the incidents was one more in the series of mistakes which have given many a low opinion of your paper.

H. L. Elman, '60

*The news policy of any newspaper allows it to make editorial decisions of the type mentioned in Mr. Elman's letter, namely, what stories are to be run and what emphasis shall be given to a particular story. In any issue, the most current stories are run on the front page and stories of more limited interest must be placed elsewhere. We did not intend any malice to Mr. Hudock and feel that his reinstatement was adequately covered. News Ed.*

## college world

1st. BOY — How did you do?  
2nd. BOY — Very well. It was very easy. What did you get for your first problem?  
1st. BOY — Thirty-seven and a half.

2nd. BOY — So did I! And I looked at other people's quizzes: they all got the same answer.

1st. BOY — I'm going to write home. My first hundred at MIT!

(A week later)

1st. BOY — What was your class average?

2nd. BOY — Ninety-three! I got ninety-eight. A stupid mistake. A sign error. . . .

1st. BOY — So did I. . . .

(One year later, about the same time)

1st. BOY — Hi, Walt. Did you take the quiz this morning?

2nd. BOY — Yeah.

1st. BOY — What you got?

2nd. BOY — Two out of three.

1st. BOY — That's pretty good.

(One year later, about the same time)

1st. BOY — Hi Walt.

2nd. BOY — Hi Sam.

1st. BOY — What a stinker!

2nd. BOY — Yeah. I got answers, though. . . .

1st. BOY — I couldn't finish. . . .

2nd. BOY — Lousy day. . . .

(One year later, about the same time)

1st. BOY — Got any?

2nd. BOY — Nope.

1st. BOY — I'm getting out of here, as soon as my thesis is over.

2nd. BOY — I'm writing home. Won't be there for Christmas. Too much work. . . .

1st. BOY — Yeah. . . .

(Some months later, just before June)

1st. BOY — Got it in today.

2nd. BOY — I'm late. . . . Can't get anything out of it.

1st. BOY — Who cares?

(Three years later)

1st. BOY — Hi Walt!

2nd. BOY — Hi Sam!

1st. BOY — What are you doing nowadays?

2nd. BOY — Working for a company. Three years of apprenticeship. And you?

1st. BOY — Practicing in industry. Two and a half years.

MORAL: It's never too late to learn.

Jean Pierre Frankenhuis, '61

## review

Last Friday night, the Drama Shop presented another in its series of one acts. For the most part, it was a successful evening.

The second play on the program, *A Tale of Chelm*, from *The World of Sholom Aleichem*, was the highlight of the evening. While the weird lighting, reminiscent of Paul Wegner's film *The Golem*, hardly seemed suited to Aleichem's comedy, the rest of the production was, for the most part, very fine. The direction could have been a bit tighter; the occasionally overlong pauses between scenes, and even at times between lines, slowed down the play. This can be disastrous, especially in a comedy. However, the fine characterizations of the Malamud and the Book Peddler more than compensated for any technical deficiencies which could have been caused by insufficient rehearsal time — the play was only in production for nine days.

The first play, a truncated version of Bertolt Brecht's seventeen scene work *The Private Life of the Master Race*, was not as successful. While director Paul Brumby should be congratulated for finally bringing a Brecht work to MIT, perhaps he could have made a better choice. Since Brecht's theatre depends, to a great extent, on its epic proportions, cutting down a rather long play to four short scenes could only reduce its impact. Would it not have been better to choose a shorter Brecht work such as *The Exception and the Rule*?

The audience response to this work was almost frightening. While the production was not very good, the tragedy Brecht was describing was nevertheless apparent. Perhaps it is understandable that MIT students should find some lines about General Relativity hilarious. What is inexcusable, though, is that they should laugh, almost continuously, during the scene depicting the disintegration of family life in Nazi Germany. One can only hope that their senses of humor improve before they become the nation's scientists and leaders!

Peter Yamin, '60

A column of incidental intelligence  
by Jockey brand

### "APPLE OF THE EYE"

For this overworked phrase, we must turn to the world's richest source of quotations—the Bible. Specifically, the Old Testament, Deuteronomy, XXXII, 10:  
"He kept him as the apple of his eye."

### "ALL IS NOT GOLD"

Seems like everybody had a crack at this piece of homely philosophy, but the originator seems to be Geoffrey Chaucer, in "The House of Fame", Book I:  
"Hyf is not all gold that glareth"

### "COUNT 10..."

Was there any limit to the talents of Thomas Jefferson? Statesman, scientist, architect—he also authored this admonition:  
"When angry, count ten before you speak; if very angry, a hundred."

## Jockey T-Shirts

The most respected, creative name in underwear is Jockey brand. It stands to reason, then, that Jockey brand T-shirts are unmatched for quality as well as styling. You can choose from standard crew neck T-shirt, "taper-tee" shirt, sleeveless I-shirt, and V-neck T-shirt models. Every man needs a drawer full of T-shirts—and the label to look for is Jockey brand. Let it guide you to the world's finest underwear.

## Cross Countrymen Beaten by Wesleyan

A fighting cross country team ran up against a tough Wesleyan squad last Friday afternoon at Franklin Park and came out second best 16-44, with the Beaver yearlings meeting a similar fate 16-39. Every one of the varsity harriers posted the best time of his career, but the hill and dalers just did not have the horses to stay with the boys from Middletown.

The visitors set a blistering pace for the first mile, with all eight Wesleyan runners in front shortly after the start. But the home squad, looking good on the uphill grades for the first time this season, fought back to gain three of the initial ten spots. However, this was not enough as Wesleyan swept the first four places to win.

Co-Captains Dan Oliver, '60 and Bob Mullen, '60, led the Engineers, finishing fifth and seventh in 21:23 and 21:37, respectively. Rounding out the first five were Herb Wegener, '61, ninth, and Ed McCartney, '60, and Herb Grieves, '60, eleventh and twelfth. Following were Steve Banks, '62, Paul Robertson, '61, George Ioup, '62, Phil Nelson, '62, and Brian Tunstall, '62, 14th through 18th.

Tom Goddard showed great improvement in taking fifth spot for the freshmen, followed by Rog Hinrichs, Chuck Sigwart, Pete Hierl, and Jeff Gibson, 7th through 10th.

## IBM WILL INTERVIEW

### NOV. 18

IBM invites candidates for Bachelor's or Master's Degrees to discuss opportunities in Manufacturing, Product Development, Programming and Research..... positions throughout the United States.

Laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; Burlington, Vt.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Corporate headquarters is located in New York, with 192 branch offices in cities throughout the United States. The IBM representative will be glad to discuss with you the type of career of particular interest to you. IBM offers:

- Leadership in the development of information-handling systems.
- New applications for data processing and advances in computer technology.
- Favorable climate for continued career growth.
- Opportunities for a wide range of academic backgrounds and talents.

Contact your College Placement Officer to arrange an appointment for a personal interview with the IBM representative.

If you cannot attend the interview, call or write:

Mr. P. H. Bradley, Branch Manager  
IBM Corporation, Dept. 868  
1730 Cambridge St.  
Cambridge 38, Mass.  
University 6-6990

# Delta Upsilon Takes IM Wrestling; Capture Three First to Win Easily

Capturing three first places in the seven divisions, Delta Upsilon easily won the intramural wrestling championships Friday evening and Saturday evening in Rockwell Cage. The DU's also had a third and a fourth to help boost their total to 70 points, well ahead of second place Sigma Chi's 45, while defending titlist Delta Tau Delta tied for ninth spot in the team competition.

The victors scored in the low weight classes as they won the 129, 137 and 147 pound individual contests. Jim Evans, '63, earned ten points for DU with his decision over Theta Chi's Anderson in the lightest division to decide first place. Eric Arens, '61, stopped another Theta Chi, D. Manchester, '63, in the 137 pound finale. In the 137 pound class, Dave Latham, '61, earned the honors when he outgrappled Beta Theta Pi's Gary Bickel, '62, who had won this division last fall.

Runner-up Sigma Chi had a pair of champions by taking the 157 and 177 pound crowns. The former class was won by M. Williams, '63, when he topped Jim Omura, '62, of East Campus, while Bill Kendall, '61, downed Delta Tau Delta's John Crissman, '61, in the last round of the 177 pound competition.

H. Graves, '63, of Sigma Nu edged Charles Sparks, '62, of Sigma Alpha Epsilon "B" in the 167 pound wrestle-off, and Phi Delta Theta's Ray Landis, '61, proved to be the best of the unlimited weight matmen with Roger Gerstenfeld, '62, of Pi Lambda Phi runner-up.

Theta Chi took third with 43 points, just two ahead of Sigma Nu. SAE "B" was fifth with 38 while their "A" team garnered sixth. East Campus was edged by one for seventh spot by Phi Delta Theta.

The eighteen team meet was managed by Paul Olmstead, '62.

## Coast Guard Edged 2-1 by Soccermen; Rhee Scores Twice

Making the shift from halfback to center forward a successful one, Dail Rhee, '60, scored two goals to earn the varsity soccer team a 2-1 victory over Coast Guard at New London last Saturday. Both squads' play suffered because of light rain and a muddy field.

Goaltending in his usual outstanding way, MIT netminder Giorgio Emo, '62, provided one of the highlights of a fairly drab game when he stopped a penalty shot in the fourth quarter. The home team held the lead for a few minutes in the first period when they booted in a rebound of a shot made on a fast break. However, Rhee knotted the score at twenty minutes on a short kick after the Coast Guard goalie had stopped two others.

Several seconds remained in the third quarter when Rhee booted home the clincher from twenty yards out, to make the team's record 4-2-2.

## UNLIKE A WOMAN

there's no "maintenance cost" with a Merchant's THRIFTICHECK account

You know what they say about the fairer sex... "It's not the initial cost—it's the upkeep."

Here's the only Thrifticheck Service with no monthly maintenance charge... just \$3.00 for 24 checks (get a math major to figure out unit cost for you). So unlike a woman—but so practical for the student financier. (Your name is imprinted on each check). But that's not all.

- You get fast, 24 hour reorder service (if you start writing checks like they're going out of style).
- You receive a complete statement, showing all entries, each quarter. (This is a very revealing document—and invaluable in controlling your madder impulses).
- You may bank at any Merchants Office. Our Kenmore Square office is probably handiest for you.

So, drop everything—and live. Open a Merchants National Thrifticheck Account today. Keep yourself in check—with no monthly maintenance charge.

WHERE THE MAN YOU TALK TO IS THE BANK

Offices: 28 State St. • 31 Milk St.

South Station • 513 Boylston St. • 642 Beacon St. • 30 Birmingham Parkway, Brighton

## ... As an RCA Engineer

Receive your MS in Electrical Engineering, Mechanical Engineering or Physics at RCA's expense, through the RCA Graduate Study Program. At the same time, you're beginning your RCA career as an engineer on a fully professional level, getting a head start in the field you prefer. RCA pays the full cost of your tuition, fees and approved texts while you take graduate study part-time at the University of Pennsylvania or Rutgers University.

Or, you may prefer a different path ahead... RCA Design and Development Specialized Training. Here is another of RCA's programs for careers, in which you begin by working full-time on planned technical assignments. Experienced engineers and interested management guide your progress. You may receive assignments in design and development

of radar, airborne electronics, computers, missile electronics, television, radio and other equipment fields, as well as in electron tubes, semiconductor materials and devices, and space electronics.

Your experience or advanced education may point your way to direct assignment. Dozens of RCA engineering fields lie open to the man who's thoroughly acquainted with the direction he wants to take and whose qualifications open this path to him.

There's a lot more that's extremely interesting about an RCA engineering career. You should have these facts to make a wise decision about your future. Get them in person very soon when an RCA engineering management representative arrives on campus—

November 12, 13

Right now, see your placement officer. Get squared away on a specific time for your interview. And get your copies of the brochures that also help to fill you in on the RCA picture. If you're tied up when RCA's representative is here, send a résumé to the address shown at right:

Mr. Robert Haklisch, Manager College Relations, Dept. CR-5 Radio Corporation of America Camden 2, N. J.

Tomorrow is here today at RCA
