Shoremen's Autonomy

The conflict between the rapid expansion of automation on cargo vessels and the longshoreman in need of work has been the subject of a recent survey presented by the National Maritime Association. Mr. John Shapiro, a vice-president of the International Longshoremen's Association, spoke on the issue at a recent meeting of the association.

Shapiro emphasized the consideration needed for those dock-workers who would be displaced by automation. He stated that these men, many of whom have devoted many years to work on the docks, must not be left by the expeditor; some understanding must be shown those who built what we have today.

Professor White, of the Industrial Management Department, stated that automation provides new jobs, and there would be no mass displacement of workers. "Automation and commerce are responsible to each other. Labor must share the responsibility, and, if it does so, it will share in the benefits reaped from automation," he said.

Toilet-Paper Fire Ends in $2000 Blaze

Room 412A Burton, residence of Jerome H. Marcus, '61, was accidentally set afire late Monday evening by a carelessly thrown toilet-paper streamer. Marcus was in his room at the time and was not injured.

The blaze was reported at 6:10 P.M. and was extinguished by the Fire Department with 33 firemen within 15 minutes. Firemen stated that Fassett, the flammability of Marcus' Room was largely increased when some toilet-paper streamers were thrown into the room.

Engineer's Role Stressed

The ISO Classic Films Society will sponsor on Saturday, December 9, in the Lobby of Building 10, the appearance of well-known, young film-making Lionel Rogosin, together with the showing of his prize-winning film "On the Bowery." The film focuses on the inner struggle as it takes us to the harsh atmosphere of the Bowery; the compassionate activist leaves us on a symbolic note. The Bowery, where we end, is a forty-year old working figure. In the beginning of the film, the camera looks sympathetically at the limited array of clothes, the often unkempt touches on men and women who have a total of 200,000 people in residence. The observer leaves with a sense of happiness achieved by the film and aware of the struggle that is yet to come.

"The Bowery" was awarded the Silver Medal of the 1946 Venice International Film Festival and the 1946 Utah Film Academy Prize. It was a film made by the Bowery's history role, the Abraham® of America. Brazil Wright, in "Right at Left," commented: "THE BOWERY IS A film made from the inside, in the way Shibby made NANCY and JOHN 1950." The title role of the German Emperor, played by Arthur Rogers, '61, is the most powerful forces shaping American society, according to MIT Club of New York at the Hotel Biltmore last Wednesday. In his speech, '16, the moderator at the seminar. He summed up the important issues of the day.

Drama Shop to Present Pirandello's Mystifying Medieval Play

"Impossible though it may be to forecast the outcome of specific events, one can designate the principal forces that are shaping the new century," Dr. Straton stated. "It seems to me without question that the three most significant movements of our age are these:

1. The concentration of power in two great, rival nations — the United States and Russia.
2. The emergence and rise of new countries with high national aspirations and a desire for power.
3. The scientific revolution; the new number do not have this facility.

Ludwig Pirandello's mystifying drama about an illness which the Germans Henry IV is not to be confused with the play presented by the Division of Dramashop opening Wednesday, December 8, at 8:00 P.M. in the Little Theater.

The title role of the German Emperor, played by Arthur Rogers, '61, is suffering the delusions of grandeur due to a fear of the hand received while holding a sword in a manner which may be considered mediocrity. Riding beside him, dressed as the Marchesa Matthies of Tuscany, is his mistress, played by Jean-Patricia, and his friend, Lise. Following them, the Marquis de Roffoli, played by Michael Macher, G.

To enter in to the vein discovered in the play is revealed, however, by the examinations of a Doctor Genoni (Joseph Lestyke, '61), that the cause of Henry IV's illness is the presence of one disease.

In between the Murder of the rival suitor of Henry IV, and the question of his sanity is left up to the audience to decide.

"We are indeed not without tension in the trim of our country, but there is no question that the new movement is the biggest since the 1870s. It is the movement of defense and survival, with the economic status of our elitists and internationally related to every facet of our way of life."

Reacquainting with MIT "had its roots in the desire to plan for the education of the engineer," Dr. Straton stated. "The history of the growth and rise of new countries with high national aspirations and a desire for power is the history of magnificent engineering coupled with a genius for the management of great enterprises. Nothing that I can foresee leads me to believe that the role of the engineer will diminish in importance in the years ahead. On the contrary, as the forces of economic and political competition build up in seas from all the continents, the engineer's role will grow and his profession will become increasingly difficult and exciting."

"It is true, of course, that for many years peace, or at least the appearance of peace and the desire of the public for peace, are wholly neglected in the United States — and it is good that we have finally recognized the importance of basic research — but we must not in the process lose our perception. We need urgently at this juncture to perceive the importance of young people, and of high school students in particular, on behalf of engineering. We must show them that engineering is as serious as science in an aiming out enormous challenges for the future and that in this profession they may find not only the satisfaction of useful accomplishments, but also the joy of high

Opening lead — Queens of Spades

In today's hand South managed to go down on a Thero No Trump hand that should produce an overtrick in careful play and normal defense. The bidding was short and to the point, and game in No Trump is the logical place for the hand.

The opening lead was won at the ace of spades, and the queen of hearts was led for a finesse. East took his king and returned a heart to the king of hearts and his two remaining spades for a total of five defensive tricks.

Note, however, that if South goes to dummy with the king of clubs on the second trick, and the diamond finesse is taken before the heart finesse, he has no problem. West cannot afford to hold his second spade, and if he can't, South can spade the heart finesse can be taken without risk, as East now has no spades to return. The contract makes with an overtrick.

The defense can hold the contract to three if West switched to the queen of clubs after losing the second round of spades. He is then in a position to take the jack of clubs and a final spade contract and split the heart finesse can be taken without risk, as East now has no spades to return. The contract makes with an overtrick.

Despite the fact thatSouth went to dummy with the king of clubs on the second trick, and the diamond finesse is taken before the heart finesse, he has no problem. West cannot afford to hold his second spade, and if he can't, South can spade the heart finesse can be taken without risk, as East now has no spades to return. The contract makes with an overtrick.

Poor Hester, alas, is dropped for the vowel letter and everyone says that she does not have a real name, but the Marches are a very happy family—and for no discernible reason. Jane and John had a ball and left poor Maxmee all alone at the party. "Was Philip a good morriser?" cries Jo.

"Oh yeah?" cries Marmee. "You should have seen Philip noble at the bridge 39, Mass. Telephone: TRowbridge 6-5.855-6 or UNiversity 3.6.2412

"Well, no Trump hand that should produce an overtrick in careful play and normal defense. The bidding was short and to the point, and game in No Trump is the logical place for the hand.

Dear Dr. Frood:

I am a very plain girl and I don't have much personality. All I want is a man who will love me. Why can't I find one?

I'm middle-aged and stout, I am very jealous and worry all the time. What shall I do?

I am a very plain girl and I don't have much personality. All I want is a man who will love me. Why can't I find one?

Dear Dr. Frood:

Can't I find one?

I want is a man who will love me. Why can't I find one?

Dear Dr. Frood:

How can I keep people from borrowing my Luckies?

Dear Pestered: Put them in a Brand X pack.

Dear Dr. Frood: The Dean is trying to force me to go to classes. I think this is unfair because last season I scored 16 touchdowns, intercepted 18 passes and kicked 22 field goals in 33 attempts. What should I do?

Letter Man

Dear Pestered: Better make 'em Luckies cigarettes—because you won't scrap. Stock your room with cigarettes when you come back. That way you can have your students head right for fine tobacco. When it comes to choosing their regular smoke, college students head right for fine tobacco. Lucky's taste beats all the rest because Lucky Strike means fine tobacco.

Dear Dr. Frood:

Marry an adult.

Dear Surly: Marry an adult.

Dear Dr. Frood:

Plump, Tired: Keep worrying.

Dear Plump, Tired: Keep worrying.

I've drawn up instructions for students to keep from borrowing your Luckies—because you won't scrap. Stock your room with cigarettes when you come back. That way you can have your students head right for fine tobacco. Lucky's taste beats all the rest because Lucky Strike means fine tobacco.

Field-goal expert kicks about classes (See below)

Dear Dr. Frood: I want to get married, but I don't like children. What shall I do?

Dear Surly: Marry an adult.

Dear Dr. Frood: My husband teaches at a girl's college. I know it's silly, but since he's middle-aged and stout, I am very jealous and worry all the time. What should I do?

Dear Dr. Frood: How can I keep people from borrowing my Luckies?

Dear Pestered: Put them in a Brand X pack.

Dear Dr. Frood: The Dean is trying to force me to go to classes. I think this is unfair because last season I scored 16 touchdowns, intercepted 18 passes and kicked 22 field goals in 33 attempts. What should I do?

Letter Man

Dear Dr. Frood: I am a very plain girl and I don't have much personality. All I want is a man who will love me. Why can't I find one?

Dear Sad: You're too particular.

Dear Dr. Frood: Is it all right to study and enjoy your isolation more? (Better make 'em Luckies cigarettes—because you won't scrap. Stock your room with cigarettes when you come back. That way you can have your students head right for fine tobacco. Lucky's taste beats all the rest because Lucky Strike means fine tobacco.

Dear Dr. Frood: Can't I find one?

Original Version of Honneger Oratorio

In Kresge Dec. 13

In the summer of 1921 “King David” was first performed at a little theater high above Lake Geneva in Switzerland, and Arthur Honneger knew fame almost overnight. Conducting at the celebrated occasion was a young Swiss musician named Paul Hogeple. Now 28 years later, on the invitation of Klaus Liepmann, professor of music at the Massachusetts Institute of Technology, Paul Hogeple will conduct the Bennington College Choir and the MIT Glee Club and Symphony Orchestra in the original orchestration of “King David” on Sunday, December 13, in Kresge Auditorium, at 3 P.M.

The dramatic oratorio combines choral, ensembles and orchestra with the narrative of David’s rise from lowly shepherd to prophet-king. Originally composed as orchestral accompaniment for Bunsen Max’s biblical drama, the music so far surpassed the play that Honneger wrote a second “concert version” for symphony orchestra, now widely performed. Believing the original version to be far superior for dramatic choral production, Professor Liepmann selected it for the MIT presentation.

Mixed Chorale

“King David” combines Old Testament story with New Testament philosophy, and correspondingly Honneger embraces two musical styles: the “primaeval” style of color and percussion and the polyphonic style of Bach. The 17-piece orchestra includes two violins, one viola, two clarinets, one bassoon, one French horn, two trumpets, one trombone, one double bass, celesta, harmonium, piano, and three percussion players. Choral and soloists sometimes provide commentary on the action of the narrative, as in Greek drama.

Solos for “King David” will be Joyce Melsted, soprano, Robert Longacre, alto, and Donald Sullivan, tenor. Robert Brooks, chairman of the Poets’ Theatre in Cambridge, will narrate the production.

ADVANCED DEGREE UNIVERSITY PLAN
A qualified engineer, sci-
et or mathematician, who has been with IBM at least a year,

ADVANCED DEGREE ON-SITE PLAN
A qualified engineer, scientist,
or mathematician, will have the opportunity to undertake part-
time graduate studies at an IBM plant or laboratory, concurrent
with active employment.

ADVANCED STUDY PLAN (NONDEGREE)
These studies offer com-
tinued educational opportunity throughout a career at IBM. They
are not generally degree-oriented. Given at or near IBM facilities,
they are designed to help retain mastery over basic engineering,
knowledge in advanced fields such as number theory, finite mathematics, mag-
netism, solid state physics, and network analyses.

ADVANCE DIPLOMA UNIVERSITY PLAN
A candidate will be able to complete

ADVANCE DIPLOMA ON-SITE PLAN
A candidate will have the opportu-

fer and regular salaries for full-time study up to three years.

Masters' Fellowships: Selected candidates will receive full tuition,
fees and regular salaries for full-time study up to three years.

Masters' Scholarships: Selected candidates will receive full tuition,
fees and regular salaries for an academic year of full-time study.

Doctoral Fellowships: Selected candidates will receive full tuition,
fees and regular salaries for part-time study up to three years.

ELEVEN VARSITY TEAMS READY

Varsity Rifle Team
To Fire Dartmouth, Bowdoin Tomorrow

The Beaver rifle team will open its season Saturday, shooting against Dartmouth and Bowdoin in a New England College Rifle League Match. Last year the Engineers placed second in the league, defeating both of the teams in that Saturday’s competition. With four returning lettermen, Bill Leffler, ’62, Dave Schwartz, ’60, Tom Thiele, ’66 and Mike Zimmerman, ’62, prospects for this year are quite encouraging. Added support should also be given by the other sharpshooters on the roster, including Steve Smith, ’62, Al Gieso, ’62, Tom Halley, ’62, Woody White, ’62 and Dan Smythe, ’62, all holders of a 5-1 record on last year’s freshman squad. Coaching the men for his second year will be Marine Sergeant James Bigham.

for mild, full flavor!

Here’s how the Dual Filter does it:
1. It combines a unique inner filter of ACTIVATED CHARCOAL...definitely proved to make the smoke of a cigarette milder and smoother...
2. With an efficient pure white outer filter. Together they bring you the best of the best tobaccos—the mildness and taste that pay off in pleasure!

NEW DUAL FILTER

FRIDAY, DECEMBER 4, 1960

Varsity Squash With Dartmouth Will Be Held on New Courts

Tech’s best squash team in several years will begin its campaign to improve on recent seasons’ records tomorrow. The varsity inequity host pretentiously strong Fatigue at the Du Pont Center courts at 2 P.M.

The veteran squad will meet its first four-wallers, coached by Charles Battersby, promise to be one of the best MIT’s history. Last year’s squad posted a 7-2 record, and the current team should easily better this performance.

Heading the list of returning letter men is the fine, versatile Tom Ising, ’61, who last year was third in the New England Intercolligiate, the number one man in the fleet.

Excellant Team of Varsity Swimmers Open with Bowdoin

This year’s Varsity Swimming Team, coached by Charles Battersby, promise to be one of the best MIT’s history. Last year’s squad posted a 7-2 record, and the current team should easily better this performance.

Excellent Team of Varsity Swimmers Open with Bowdoin

The New Hampshire game will be the first of a reduced ten game sched-ule which includes only one newcomer. Wellesley, while Cornell, Hamilton, Williams and Army have been dropped. Right of this year’s contest will be played at the Briggs Field Rink, giving the Techmen an advantage. A game slated for next Saturday with Columbia has been can-
celled.

With less pressure on the team this year, they should improve on last season’s 1-11-1 record.

SPORTS NOTICE

Due to limitations imposed by space and time, the varsity diving and weightlifting teams have not been covered here. The stories do not have their first meet until January 30. Look for news of these two sports in the coming papers.

Voters should Repeat Success

The varsity fencers, who earlier this year set an all-time record with a 9-1 finish, are back in shape and expect to do well again this winter. Coach Kenneth Shippsy and a team of veterans and sophomores, including Captain Steven Karp, ’61, will take on the VT-proteges in ten matches.

Pistolmen Shoot; Win First Four Matches

Wrestlers Battle Tufts Tomorrow; Team Bolstered by Five Returnees

Sir Isaac Newton is struck by another great idea!

As sure as little apples, Newton knew that what goes up must come down.

But when it comes down to a really plausible filter cigarette, it's what goes up—in front of the filter—that is—that makes the difference!

And there's where Winston had an inspired idea—Filter-Blend! Winston specializes in your choice, mild tobaccos, then specially processes them for filter smoking. The result: Filter-Blend up front of a modern filter—That's what makes Winston a complete filter cigarette.

Filter-Blend also makes Winston America's best-selling, most satisfying filter cigarette. Take it from Sir Isaac:

"You don't have to be hit on the head to know that Winston tastes good like a cigarette should!"

(Continued from page 4)

In the first, one of the three fencing slices, Bill Julian, '60, and Lyle Wood, '60, should provide victories, of the open will feature Karl and Art Farhan, '60. The saber has two top fencers, Joe Verarder, '60, and Al Kosty, '60, and Don Dilrite, '61.

The first match of the three match day will be tomorrow, at home Boston. For the third match day will be at MIT. The Beavers expect no trouble Wednesday, December 12.

The highlight of the season will be on March 4 and 5, when the New Meet Cambridge will be held here at MIT. Spectators and rooters are always welcome at the matches.

(Contd on page 8)

By Bill Mihaltse, '62

The varsity basketball team will open its 16 game season against Trin-

ity at Hartford, Connecticut, tomo-

rrow night. Judging from the schedule, which has been altered by the elim-

ination of such comparatively strong

teams as Boston University and Army, the cages should improve on last

year's team. The team is also plagued by injuries. The team is composed of men who averaged 17.6 points a game last year, captain Barry, who coached Methuen High

school to several Eastern Massachu-

setts cage championships, has been

seasoned by a year of varsity com-

petition -Academician and athletic interests. The teams as a whole appear to be Tom

Morro-w has been working out despite

the team's academic and athletic interests, and will enter the season with 12 players, the outstanding player that was used sparingly last year.

Captains Hugh Morrow, '60, who averaged 17.6 points a game last year, is the lone returning letterman.

The highlight of the season will be tomorrow, at home on December 12.

The Cindermen will face Boston University on December 23.

The prospects for the shooters dur-

ing this season look very promis-

ing. Leading the squad are return-

ning lettermen, Captains Tom Brown, '60 and Dennis Kelley, '60. Added strength should also be given by a newcomer to the squad, ex-marine

and NKA master, Vincent Sappipii, '61.

Last year, in the Greater Boston Pistoleer League, the team won 14 match-

es, and lost four, tying for second place. Coach Robert Stockwell, Capt., USAP, predicts that this year the team should finish on top.

Tomorrow at 2:00 the grunts and

graces of the MIT matmen will be

held in Rockwell Cage as they pit

their skill and cunning against the

Tufts wrestling team in their season

opener. Last year in their first match

against Tufts, the beavers triumphed 22-8, and are hoping to re-

peat that performance.

The team is also plagued by injuries.

This year's team seems to be con-

siderably stronger than that of the

previous season. Of the eight squad

members, five are returning varsity

lettermen including Andy Balducci, '61, Bill Martin, '60, Bob McColloch, '60, Don Weaver '60, and Captain Don

Weaver '60. Don Weaver will be spearheading the Beaver attack at 180 pounds and the team as a whole will be supported by seventeen top-notch sophomores who have turned out. In the group are four who played in the Freshmen New England Com-

petition last year.

Though considering talented

heighted or not, the team expects it higher than it previously has been due to the fact that they have new

quarters in the DuPont Athletic Cen-

ter. The new location and heated wrestling room is a welcome change from the Cage. Along with the new room is a new wrestling mat that makes the Beaver facilities among the best.

Coaching for the second year is

Alex Dusek. Alex won the New En-

gland Interscholastic Heavyweight

Wrestling championships in 1954 and

predicts a winning season for the MIT

Wrestlers.

MIT's indoor track team, really "booming" for the first time this sea-

son, will inaugurata the winter seas-

on with the first meet ever to be run

in the new track in Rockwell Cage.

Beard will feature Karp and

Pistolmen Shoot; Win First Four Matches

later in the season. The team is looking forward to a successful cam-

paign than last winter's. Factors that are expected to

in the Freshman New England Com-

petition.

Already underway and off to a fine

start is the Tech pistol team. The men have shot four matches in the Greater Boston Pistol League, defeat-

ing all of their opponents, including Harvard.

The prospects for the shooters dur-

ing this season look very promis-

ing. Leading the squad are return-

ning lettermen, Captains Tom Brown, '60 and Dennis Kelley, '60. Added strength should also be given by a newcomer to the squad, ex-marine

and NKA master, Vincent Sappipii, '61.
