An amusing incident is related in L'Electricien showing that the knowledge of electrical terminology is yet far from perfect amongst patrons of the latest applications of the science. One of the most eminent and old-established firms who supply incandescent lamps had lately fulfilled an order for a certain number of lamps specified to be of twenty candle-power at forty-five volts. They received, three days after dispatching the goods, the following memorandum: "We have received your lamps as per invoice, together with the supports, but we were unable to find amongst the goods consigned the forty-five invoiced with the lamps. . . . "!

PREPARATION FOR THE MASS. INSTITUTE OF TECHNOLOGY

Is a specialty at CHAUNCY-HALL SCHOOL, Boston, Mass., and its remarkable success can be ascertained from the Chairman and Secretary of the Faculty of the Institute.

It aims to fit its candidates so thoroughly that they will not be weighted by "conditions" to be made up after entering, when all their powers are needed for their regular work.

The School is within two minutes' walk of the Institute, affording to the teachers, who are preparing the candidates, unequalled opportunities for consulting the professors.

Successful preparation is made also for College and for Business. Chauncy Hall is the oldest and largest private school in Boston.
