Among the anecdotes told by Lord Coleridge of his recent American visit is one to the effect that he asked Mr. Evarts, with whom he was visiting Mt. Vernon, whether credence could be attached to a story that Washington could throw a dollar from the lawn, on which they were standing, right across the river to the opposite bank. "Yes," Mr. Evarts replied, "I think it's very likely to be true. You know a dollar would go farther in those days than it does now."

PREPARATION FOR THE
Mass. Institute of Technology

Is a specialty at CHAUNCY-HALL SCHOOL, Boston, Mass., and its remarkable success can be ascertained from the Chairman and Secretary of the Faculty of the Institute.

It aims to fit its candidates so thoroughly that they will not be weighted by "conditions" to be made up after entering, when all their powers are needed for their regular work.

The School is within two minutes-walk of the Institute, affording to the teachers, who are preparing the candidates, unequalled opportunities for consulting the professors.

Successful preparation is made also for College and for Business. Chauncey Hall is the oldest and largest private school in Boston.
