Long stand the Walker Building!

The second proofs for the Catalogue are out.

All the football teams had their pictures taken December 12th.

A story of interest to Chemists,—The top story of the Brunswick.

Mr. G. A. Holmes, '91, has been appointed as Assistant to Secretary Tyler.

Mr. D-n- was not present at the Junior dinner! However, it was a success!

Ninety-four held their annual dinner Friday, December 18th, at the Parker House. There were forty present.

Merrill, '93, went to Walpole, Saturday, December 12th, and laid out a track for the B. & M. R. R.

Ninety-three had a "juicy" night for their dinner. The suggestion was acted upon at the dinner in the proper style.

Wonder if Jackie Horner will pull a plum out of his Christmas pie this year? Let us hope he won't burn his fingers.

Last week the '92 Mechanicals were furnished lithographed notes on "Tonsorial Strength!" Anything to do with gear-teeth?

The K₂S Society held its regular monthly meeting Friday evening, December 11th, at Young's. G. J. Burnham, '92, was initiated.

E. L. Andrews, '93, has been suitably rewarded for his efficient work on the eleven by election as captain for the ensuing season.

A number of Tech. men entered in the 15-yard dash for novices, at the B. A. A. meeting on the 16th. Here's to the Tech. men with no-VICES.

The Sophomores have elected to the Senior Dinner Committee, Nash, Tarbox, Tenney, F. C. Green, Sturgis. Mr. Mead is a member ex officio.

Last week was a hard one for the "Lounger's" "Hard up" men. Two class dinners, class subscriptions, and no end of other things to contribute to.

Lord, '93, was sick with La Grippe on the 12th, and though he contested in all events in which he was entered, he was unable to do himself justice.

After English Literature "exam." First Student: "Did you have time to finish your paper?" Second Student: "No, I had to cut off my Bunyan."

Dr. Dippold (as Mr. —-- is translating): "I guess you had better shut the door while this translating is going on; I would not like anyone to hear it."

A Freshman and an ash barrel constituted the fire in the Natural History Building on the 15th. The Freshman, alas! didn't have his wash bottle with him.

This is a time of considerable note. Our membership has gone above one thousand. According to President Walker's report, there are now in the Institute 1,011 students.

A Chemist smashed a large bottle full of fuming nitric acid in the analytical laboratory last week. The heavy fumes rolled all over the floor and "toyed" with the concrete.

Part of last week was a great time for muddy hats. A number of Tech. men were seen chasing their dirty tiles across Boylston Street; in fact it was the chief pastime of one day.

To say that Professor Richards is pleased with the working of the new machine, is "putting it mild." May he be as well pleased with the working of his "gang" when he sees their results.

In the B. A. A. indoor meeting on the 16th, A. G. Bixby, '95, won third prize in the standing broad jump. He was allowed a
