On May 3d, Holy Cross plays M. I. T. on the Congress Street grounds.

At a recent meeting of the Athletic Club, W. C. Mannon, ’95, was elected treasurer, vice G. P. Lawson resigned. J. P. Ilsley, Jr., was elected Assistant Marshal from Technology, to the Intercollegiate championships, May 23d.

Harvard defeated Technology on Holmes Field, April 16, in a poorly contested game. The score was 26 to 8.

A. V. Shaw, ’96, won first prize in the pole vault in the Newton A. A. games on Patriot’s day. His actual vault was 9 feet 5½ inches.

It is deplorable for an organization to elect officers who are unfit for their positions. Yet this is the case with the Varsity Baseball Association. Several meetings have been held by the association, and over none has the President or even the Vice President presided; the Secretary-Treasurer has been obliged to do all. When such an example is set by the officers, little interest can be expected from the students.

It would be well to have an Athletic Advisory Committee similar in many respects to those at other colleges. By this organ the Institute would be represented in the different fields of sport by better managed teams, and then better results would be obtained.

The announcement of the H. A. A. games is posted in Rogers corridor. As large a number of Tech men as possible should enter, since the games are handicap, and the experience gained will add to the abilities of the men who compete at Worcester, May 23d.

John Graham, trainer of the Track Athletic Team, is very much pleased with the prospects of a successful team at the New England Intercollegiates next month. He says Curtis is as speedy as Patterson, of Williams, the 100-yard Intercollegiate champion; that Rockwell and Owen are good for points in the quarter; that Clapp is sure to be placed in the long runs; while Lord, Sumner, and Hurd will take care of the hurdles. Marmon and Strader are good on the wheel. In the field events, too, we are strong. Shaw should get second in the pole vault. Burnett is a point winner in the shot and hammer, and Farquhar is close to the record in the running broad jump. A rough and underestimated glance at the points which Technology should score reaches twenty-eight. Last year Dartmouth won, with forty points to her credit, and Amherst was second, with twenty-four and one third points. This year Dartmouth has lost one of her best men, H. C. Ide, and Technology is stronger in the events in which Dartmouth is considered strong; Brown is not as good as last year; so that the prospect for successful work at Worcester, May 23d, in the N. E. Intercollegiate championship meeting becomes encouraging.

The baseball game at Brookline, April 16th, between Hopkinson and Technology ’97, resulted in a score of 24 to 14 in favor of Hopkinson.

Every afternoon the team may be seen at work on the Irvington Oval, and shortly captain Lord will send some of the men to the training table. A few of the promising men in training for the different events are as follows:—

- 100 yards. Curtis, Lane, and Boeseke.
- 220 yards. Curtis, Sears, and Grosch.
- 440 yards. Rockwell, Thomas, Sears, and Owen.
- 880 yards. Tillinghast.
- 1 and 2 mile runs. Clapp, Stoughton, and Taylor.
- 120 hurdles. Hurd, Lord, Claffin, Sumner, and Swift.
- Mile walk. Sawtelle and Page.
- Broad jump. Farquhar, Driscoll, and Curtis.
- Pole vault. Vedder, Shaw, and Sturgis.
- Shot. Burnett and Lootz.
- Hammer. Batcheller, Parker, and Burnett.

Mr. Boos is on the Oval every day looking after the novices.
