At a meeting of the Andover Club, held Friday, November 23d, it was decided to have a dinner December 19th.

F. H. Shepard, '97, fell from the flag pole at the South End Grounds Wednesday, and was severely cut and bruised.

R. D. Flood, former business manager of The Tech, has returned to Chicago, where he will take up business life.

The "Technique" Board urges the students designing for the Ninety-six Annual to have all assignments in by December 1st.

A yacht club is being formed at Technology. All students having boats should make a point of joining the club to insure its success.

The Freshman flag was unfurled to the winds last week, and displayed for a short time between Roger and Walker buildings.

Lawrence, '97, has been laid up for the past two weeks with water-on-the-knee, and will be unable to attend recitations for several weeks to come.

All Technology must try for the "Technique's" prizes. Hand in grinds, quotations, advertisements, music, poems, drawings, and miscellaneous matter to "The Technique."

Washburn, '97, broke his little finger in the Freshman-Sophomore game last Wednesday. This will prevent his playing in the Brown game, and Whiting will probably take his place.

Lieut. Harry L. Hawthorne, our former instructor in military drill, is at present stationed at Fort Hamilton, New York harbor, where he has been assigned to the post exchange.

Last week Mr. Adams, of the State Normal School of Salem, visited the Biological and Geological Laboratories of the Institute to obtain ideas for the erection of such laboratories at Salem.

Mr. Herbert A. Wilcox, Course III., '87, called at the Institute last Thursday. He was on his way to Aspen, Colorado, where he has been in business as a mining engineer for several years.

If all the men who went to the Springfield game last Saturday were to go to Providence to-morrow, our team would probably have a larger number of supporters than it has ever had before at an out-of-town game.

H. K. Conklin, '98, who was thought to have been seriously injured in the Cane Rush, is, from latest reports, quite out of danger. No internal injury has resulted, and he will be able to attend recitations in a few days.

At a meeting of the Society of Arts, on Thursday last, at 8 p. m., Mr. Arthur D. Little, of Boston, read a paper on Paper Making and the New Uses of Wood Fiber. Specimens illustrating the new applications of cellulose were shown.

A limited number of railroad tickets and reserved seats for the Technology-Brown game, on Thanksgiving day, are for sale by C. F. Tillinghast, Box 73, Cage. A large crowd of Technology men and friends will witness the game.

The Electrical Engineering Society held a meeting last Thursday evening in Room 22, Walker, at 8 p. m. Mr. L. F. Howard, '95, read a paper on the determination of Electromotive Curves, and Mr. D. N. Marble, '95, gave a talk on Electrical Photography.

The Class of Ninety-six made a second attempt to secure a suitable photograph for insertion in the "Technique," on Tuesday of last week. In spite of a chilly atmosphere, a good showing was made, and more than two hundred men assembled on the steps of the Natural History building.
