A New Technology Periodical.

The Association of Graduate Class Secretaries has made the beginnings of a new periodical, The Technology Review, to be issued quarterly. The Board of Editors is already organized, Mr. Hopkins at the Institute being Editor in Chief. The first number will be issued some time in January. The Review will bear to the social and Alma Mater side of the Institute the same relation that the Technology Quarterly does to the purely scientific side, and will be much more interesting to the uninitiated.
