Architectural Society Dinner.
The annual dinner of the Architectural Society was held Thursday, May 17th, in the private dining-room of the United States Hotel. Covers were laid for sixty, but about forty were present. The tables, arranged in a hollow square, were prettily laid and beside each cover was a neat menu card and a white carnation. After the wants of the inner man had been fully satisfied by the excellent dinner, President E. F. Lawrence as toastmaster introduced Mr. S. W. Mead, who told some of his experiences in Paris during his study there. Mr. Mead's talk was followed by a musical selection by a quartette from the Society, after which President Lawrence called on Messrs. Ford, Buys, L. M. Lawrence, Van Merrick and Rapp. Their talks were mostly reminiscent and in the line of advice to the younger members of the society. L. M. Lawrence, the former president, gave a clever history, showing some of the members in a humorous light. These addresses were supplemented at intervals by musical numbers. The "Medicine Man" solos of Van Merrick and Derby were repeated and well encored, Messrs. Fruit and H. L. Walker rendered a mandolin and guitar duet, and L. S. Butler played several violin selections which were well received. The regular toasts were followed by impromptu speeches and stories, after which a rousing Tech yell was given as a send-off for the graduating members and a fitting close of one of the most enjoyable of the Architectural Society Dinners.

F. H. Howland.
Mr. F. H. Howland, M. I. T., '93, who is representing the Providence Journal in South Africa, has been engaged to take Julian Ralph's place on the staff of the London Daily Mail with Lord Roberts' column. Mr. Howland began his journalistic work on The Tech and was the Editor-in-Chief during 1891.
