In cases of accident everybody manifests a desire to be of assistance. At such times the spirit of helpfulness asserts itself, but so often the wrong thing is done and the right thing left undone. The first thing to do in such an event is to quickly and freely apply Pond's Extract—the old family doctor—a recognized emergency remedy, for over 60 years used by nurses, physicians and hospitals. Every student should have a bottle close at hand. Quickly stops bleeding in deep cuts; cures bruises, sprains, and prevents muscles becoming sore from gymnastic exercises; relieves headache, toothache, rheumatism and all pains. Soothes and freshens the face after shaving. Watered Witch Hazel, a weak solution—sometimes offered in place of Pond's Extract—has no medicinal value—is positively worthless. Pond's Extract CURSES—therefore is priceless. Sold only in sealed bottles under bug wrapper.
