technical instruction by mail

The American School of Correspondence, formerly of Boston, offers courses by correspondence in Mechanical, Stationary, Marine, Locomotive, and Civil Engineering

Architecture, Mechanical Drawing, Perspective Drawing, Telegraphy, Telephony, Navigation, Heating, Ventilation, Plumbing, Textiles, etc.; also

College Preparatory Courses

Fitting for entrance to engineering schools

The instruction is in no way intended to replace resident school instruction, but offers ambitious young men who have not the means or time to attend a resident school an opportunity for self-improvement under the guidance of thoroughly competent teachers.

The instruction papers have been prepared especially for home study by men of acknowledged professional standing. Among these are:

Prof. F. B. Crocker, Columbia University
Prof. F. E. Turbide, University of Wisconsin
Prof. W. N. Esty, Lehigh University
Prof. W. H. Lawrence, Mass. Institute of Technology
Prof. A. E. Phillips, Armour Institute of Technology
Prof. A. Marston, Iowa State College
Prof. W. L. Webb, Formerly University of Penn.
Prof. C. L. Griffin, Formerly Penn. State College
D. A. Gregg, Boston

Restaurant

The meals served at this model establishment produce perfect brain, bone, and muscle, because they are scientifically prepared from foods having the greatest possible amount of nourishment. Nuts and grains are combined so as to supply perfect meat substitutes; thus doing away with any necessity for fresh food. Gums and cakes made without soda or baking powder, salads and chili sauce free from vinegar or irritating condiments, refreshing beverages without theo-bromine, theine, or caffeine, are a few of the health-producing preparations found on our tables.

Tickets supplied at a liberal discount.
