FIRST FRESHMAN DINNER.

Professor Dewey Honored.

Wine John Marshall Prize.

The John Marshall Prize for the year 1904, (Johns Hopkins University), has been awarded to David Rich Dewey, (Ph. D., 1886), in recognition of the value of his recently published work, entitled “Financial History of the United States.”

This prize consists of a bronze likeness of Chief Justice Marshall, and is awarded annually to a graduate of the University who has produced the best work during the year upon some subject in historical or political science.

Freshman Organization.

J. T. Lawton, President 1906, has arranged to organize the freshman class, Wednesday, Sept. 28. Professor Adams and Major Wheeler will address the men at 2 p.m., in Huntington Hall, after which Mr. Lawton will call the class to order. After the formal organization, several juniors will speak to the men, endeavoring to arouse their enthusiasm for the work which now lies before them in the near future.

Naval Architecture Library.

A new library of about 350 volumes has been established for the department of Naval Architecture. Over one hundred volumes of this library have been given by Dr. Charles S. Weld, to whom the thanks of the Institute are due. All the old books relating to Naval Architecture have been removed from the English Library, and together with the new, have been placed in Room 53, Engineering C. This room has been specially fitted as a library, and special features have been introduced. The shelves have been grooved to hold the books, and students may obtain access to the library by applying to them.

A complete account of the new athletic field at Brookline will appear next Monday's issue.

NEW FOREIGN STUDENTS.

Six Representatives of the Chinese Empire Arrive.

The six young men from China who have attracted so much notice are to enter Tech this fall. They have just lately arrived in this country, leaving China June 22 and coming by the way of San Francisco. All six took in the World's Fair at St. Louis. One of the party, Toek Kai Tse, when interviewed stated that they had prepared at Queen's College, Hong-Kong and had been sent over here by the Chinese Government to learn modern scientific methods. Two of them will take Mining, Course III.; one will take Electrical, Course VI.; one Sanitary Engineering, Course XI., and the remaining two Chemistry, Course V. Their names are as follows: Ting Ching Shen, Tsan Chi Lee, Chung Yü Wen, T'ing Tuan Chen, Ting Yu Lo and Toek Kai Tse.

The Co-operative Society.

The Co-operative Society is keeping up its reputation for satisfactory work, and the showing made so far this year is most encouraging.

The report for the last year shows that over $1,423.00 was received by the Society. Twelve scholarships of $75.00 were awarded, and the balance in the treasury is about $800.00.

The men seem to realize the opportunities the Society offers, and the sale of tickets for these first few days is exceedingly encouraging.

The Society is doing a valuable work here, and it deserves the support of every man, not only in membership, but also by patronizing the affiliated tradesman. The following is the list of officers for this year.

From the faculty, Henry S. Pritchett, President, H. M. Niblack; Vice President, R. W. Seager; Treasurer, A. D. Maclachlan; Secretary, F. B. Guest; Directors, F. G. Baldwin, S. A. Smith.

CONSULTATION HOURS.

During the first week.

Post-office boxes at the Cage may be rented from the Bursar.
