WILLIAM A. NICHOLS, PRINTER, 208 SUMMER ST., REAR

To-morrow occurs the Fall Handicap Meet, the first athletic contest of the school year. As the event which gives the first indication of what we may expect from next year's Track Team, the Meet demands the interest and attendance of every Tech student, but this year a more pointed reason exists for the presence of all Institute men. The Meet will be the first contest to occur on the new athletic field which has been so generously presented to us. The gift is, whether he realizes it or not, one to every undergraduate at Technology. It is, therefore, the duty of all, to do their part to show the donors that the present of the field is fully appreciated. This can be done best by having a full list of entries and a large attendance of all those who cannot take a more active part in the games.

### Name of New Athletic Field.

After consultation between Dr. Pritchett and myself, it has been decided that, for the present at least, the new athletic field at Brookline, will be known as "Technology Field," and that the practice ground on the corner of Irvington and St. Botolph Streets, will be known as "Technology Oval."

FRANK H. BRIGGS.

### Review of the Mining Summer School.

A meeting of the Mining Engineering Society was held Wednesday, October 26, in Room 2, Rogers Building. The following men were elected to membership: J. P. Varian, '06; W. A. Sheldon, '06, and F. C. Jaccard, '07.

Mr. R. Kibbey, '05, gave a very interesting talk on the Mining School at Silver Plume, Colorado, and described the lead and zinc mines which they found there. Mr. E. Burton, '05, followed with a description of the gold mines at Idaho Springs, explaining the method of separating the gold from its ores by the amalgamation process. Mr. R. W. Senger, '05, outlined the Metallurgical trip which followed the Summer School. He gave an interesting account of the refining of gold and silver, at the Globe Smelting Works in Denver, and he also told of the visits to smelting plants at Colorado Springs and Cripple Creek.

### The Thursday Convocation.

The first general convocation of students and instructors was held in Huntington Hall, Thursday, at two o'clock. The attendance was very large, the hall being completely filled.

President Pritchett, after a few remarks, introduced the speaker, the Right Reverend Charles H. Brent, Bishop of the Philippines.

Bishop Brent spoke of the Philippines as a field for future scientific work, and said that the next few years might see here an advancement of civilization unrivaled in the history of the world.

There is absolutely no Cigarette to compare to the  
 "MENTOR"

in smoothness, aroma and delicacy. It appeals to the "educated," not to the "hoi polloi." Please give it a trial. Made in three numbers.

No. 1, 20 cts. per box

No. 2, 15 cts. per box

Cork Tipped  
 or Plain

No. 3, 10 cts. per box
