Tech House.
One of the most unostentatious branches of student activity at the Institute, and one which is at the same
time one of the most prolelary in its character is the organ-
ization known as Tech House. This is situated in one of the poorer
parts of the city in the heart of a tenement district, and here about a
dozen students of the Institute live for the purpose of becoming better
acquainted with this phase of life and at the same time of benefiting some
one else.
Tech House is doing a much
needed work in this direction and it
would be a benefit to the community
if the idea could be extended.
A student can derive great benefit
from such an experience, for by this
means a man is shown different
industrial conditions, which in view of the present relations of
capital and labor, may be of great
value to him.
