ARCHITECTURAL SOCIETY.

Smoker and Talk by Mr. R. A. Cram.

Mr. R. A. Cram, a Boston architect, addressed the Architectural Society, Wednesday evening, on "The New West Point Buildings." Congress appropriated $5,500,000 for about sixty buildings. Ten architectural firms were invited to take part in the competition, which was won by the Boston firm of Cram, Goodhue and Ferguson.

By means of a large chart, Mr. Cram gave a clear idea of the vast improvements which the plans call for. Owing to the fact that the Cadet force will soon be increased to three battalions, many of the buildings will have to be enlarged, or destroyed and built anew.

The material to be used is the stone which is quarried in the neighborhood. As most of the old buildings are built of this stone, there will be a pleasing similarity, which will be further increased by the use of the gothic style.

Civil Engineering Society.

Mr. F. E. Matthes, '96, and Dean Barton spoke to the Civil Engineering Society Thursday afternoon on the subject of the Civil Engineering Summer School. Mr. Matthes, who is a topographer on the United States Geological Survey, spoke of the enormous practical value of the work performed in the summer school. Dean Barton followed with an historical and descriptive account of the various summer schools. The first school was held in 1888, and since that time has been held every year until last summer. He described the work done and showed pictures of the various features of the schools.

This year's school will probably be held at East Machias, Maine. The work taken up in the school consists of triangulation, plain-table work and practice in certain hydrographic branches.

The school furnishes a place where a man can get practical experience combined with a most enjoyable vacation. Besides this, credit is given for the work done, thus lessening the amount of work which has to be done during the term.

PROFESSOR SEGDWICK.

Leaves for Europe Tomorrow.

Professor Segdwick, having been given leave of absence for the rest of the year, goes to New York today, and sails tomorrow on the S. S. Cretic of the White Star Line for the Mediterranean. Mrs. Segdwick accompanies him and they expect to spend April in Sicily or Greece, May in Southern Italy, June in Northern Italy, and July and August in the Dolomites or the Tyrol, returning to Boston in time for the opening of the Institute in September.

Professor Segdwick goes partly in order to make preparations for a course on the "History of Science," which the Faculty has lately established as one of the new optional general studies of the Third Year, and which will take the place of that in the History of the Inductive Sciences, hitherto given by Professor Segdwick to Senior students of Biology and Physics. The new course will be given partly by Professor Segdwick and partly by Professor Barlett of the Mathematical Department. Professor Segdwick also intends to devote a portion of the summer to revision of his "General Biology" and his "Principles of Sanitary Science and the Public Health."

Professor Prescott will have responsible charge of the Biological Department during Professor Segdwick's absence, and Mr. Winlow will have similar charge of the Sanitary Research Laboratory and Sewage Experiment Station, besides carrying on Professor Segdwick's classes in General Biology and Sanitary Science.

Course VII.—Theses.

S. H. Ayers, "A Study of the Presumptive Tests for Bacillus Coli in Water."

S. Gunn, "A Comparison of Commercial Modes of Making Lactic Acid by Fermentation."

W. H. Beers, Jr., "Certain Instances of Making of Familiar Ionic Effects by Organic Solutes as Evidenced by the Reactions of Living Tissues."

CLUB ACTIVITIES.

Walker Club Dinner.

The Walker Club will hold an informal dinner at the Technology Club this evening at 6.30 p. m. Col. Thomas Livermore of the Corporation will give some reminiscences of President Walker as a military man.

The price of the dinner will be sixty cents a plate. Please notify the secretary, L. W. Hammatt, as soon as possible whether it is your intention to be present.

Maine Club.

At a meeting of the Maine Club, Monday, the following officers were elected: President, W. E. Smart; vice-president, J. P. Chadwick; secretary and treasurer, F. W. Libbey. An executive board, composed of the above named officers and W. A. Clark was also elected. Plans were made for Smokers at the Union, and also for an annual dinner to be held during Junior week. All Maine men at Tech are urged to join at once.

Ohio Club.

The initial dinner of the new Ohio Club will be held at Tech Union on Tuesday evening, not Friday, as previously announced. All Ohio men are not only cordially invited but are expected to come.

Mining Engineering Society.

A regular meeting of the Society was held in Room 2, Rogers, yesterday afternoon. Mr. W. S. Mann gave an interesting talk on Mining in Costa Rica and Central America. He explained the metallurgical and underground work at these places.

Course XIII Lectures.

The lectures for the 1905 men of Course XIII are as follows:

March 27, "Electricity on Board Ships," E. F. Dutton.
April 11, "Torpedo Boats," C. P. Wetherbee.
April 25, "Forced Draft and Blowers," W. B. Snow.
May 9, "Paints for Ships," G. W. Gardiner.

CALENDAR.

FRIDAY, MARCH 17.

1.00 p.m. 1007 Class meeting.

4.00 p.m. Tech Show Rehearsal.

5.00 p.m. Meeting 1007 Technique Committee.

6.30 p.m. Walker Club Dinner at Technology Club.

SATURDAY, MARCH 18.

1.00 p.m. Meeting of Hockey Team in 25 Rogers.

2.00 p.m. Tech Show Rehearsal.

Principal, Tech Union.

5.30 p.m. 1907 Vaudeville Show at Kemper's, Tech Union.

MONDAY, MARCH 20.

4.10 p.m. Prof. Cross' lecture. 23 Walker.

NOTICES.

Mr. Dike will meet the French Conversational Class every Tuesday at 8 p.m., in Room 23, Lowell.

1907 Class Meeting today at 1 p.m., in Huntington Hall.

Regular meeting of the 1907 Technique Electoral Committee this afternoon at 5 o'clock.

A meeting of the Advisory Council will be held this evening at the University Club. The report of the hockey team will be considered and action taken on the advisability of giving the team insignia.

A meeting of the Hockey Team will be held in Room 26, Rogers, Saturday, March 18, at 1 p.m.

Vaudeville show by Class of 1907, Saturday evening, at Tech Union. Get tickets at once.

Last chance for Senior Portfolio, Saturday, March 18. Hearn's studio, 394 Boylston Street.

All those intending to attend the Battalion Dance of the M. I. T. Cadet Corps will please give their names to any one of the officers of the battalion. The dance will take place some time between the 12th and the 22d of April.

Prof. Vogel has been appointed Head Reader of Examinations of the College Entrance Examination Board. The reading of the Examinations is held in Columbia University Library, New York.
