ALUMNI MEETING.

Proposed Alliance With Harvard to be Discussed.

A meeting of all former students of Technology will be held in Huntington Hall on Thursday, May 4, at 7.30 P.M., at which President Prichett, Dean Burton, Mr. E. S. Draper, Col. T. L. Livermore, Messrs. J. R. Freeman and J. P. Draper, Col. T. L. Livermore, Pritchett, Dean Burton, Mr. E. S. will present the various phases of the proposed agreement. In order to secure a complete presentation of the case, all the Alumni have been invited to transmit to Prof. A. G. Robbins, Secretary of the Alumni Association, before May 3, any questions regarding the proposed agreement which they would like to have answered. These questions will be presented to the speakers in advance of the meeting. It is the opinion of the Executive Committee of the Alumni Association, that it will not be for the best interests of the Institute to have a general discussion from the floor, or to have any formal action taken at this meeting; and the committee trusts that it may be supported in this position. Tickets of admission have been mailed to all the Alumni.

BRITISH EMPIRE ASSOCIATION.

Dinner at the Tech Union.

A meeting of the British Empire Association, held at the Tech Union on Tuesday evening, May 2, was attended by thirty members. The men showed great patriotism and loyalty to their motherland as it was demonstrated by the enthusiasm and interest shown in the gathering, as well as by a large English flag unfurled at one end of the Union.

Selskar Gunn, President of the Association, presided at the dinner. President Prichett, Dean Burton and Mr. O. F. Wells each spoke to the Association, complimenting it on the excellent purpose for which it had been so wisely founded. Mr. B. Heaton, of India, who is at present studying technical education in America, was one of the guests of the evening and gave an interesting talk to his fellow-countrymen.

The annual meeting and election of officers will be held sometime in the middle of May.

HARVARD—YALE DEBATE.

Through the courtesy of the Harvard Debate Society the Technology Civic Club has at its disposal a number of seats for the Harvard—Yale debate. It is the intention of the debating society not to confine the interest in the annual debate merely to Harvard men. Invitations have therefore been sent out to Wellesley, N. E. C., Boston University and other schools. The debate will be held Friday evening at 8 P.M. in Sanders Theatre, Cambridge. The question is: Resolved, That a complete agreement is necessary to the co-operation of the two universities. The Civic Club has had seats reserved and will attend in a body. Any student wishing to attend the debate should leave his name at the Cage for R. E. Bell as soon as possible.

1907 VS. ROXBURY LATIN SCHOOL.

The game between 1907 and Roxbury Latin School at Technology Field yesterday, resulted in the defeat of 1907 by the score of 10 to 4. The most sensational play of the game was the triple play by Roxbury in the first inning. The attendance was one hundred.

CONSOLATION GAMES.

The consolation games will be held at Technology Field, tomorrow and on Friday, at 4 P.M. All men are eligible to enter who have never won prizes in competition. The prizes to winners will be very pretty, and it is every man's duty to enter and try for them.

TECHNOLOGY EXHIBIT.

Technology will send to the Portland (Oregon) Fair practically the same exhibit that won six prizes at the St. Louis Fair last year. The exhibit will be placed in a prominent position on the large landing of the main staircase of the Massachusetts State Building.

Members of the Architectural Department are at work on the plan of arrangement. Besides the album containing views of the buildings and laboratories of the Institute, there will be a special album, dedicated to student activities, with pictures of Field Day, the various athletic teams, etc.

CRIMINAL NEGLIGENCE.

The Institute nearly lost two of its most capable instructors, Messrs. Burrison and Foljambe, last Monday, when some one in the Freehand Drawing Room allowed a heavy casting to fall on the glass floor lighted directly above Mr. Burrison's desk. The casting crashed through the glass but fortunately caught on a cross beam, where it hung long enough for those above to get it. The heavy inch and a quarter glass, however, caused sufficient damages, cutting Mr. Burrison, and scaring up the desk and floor about him to quite an extent.

FACULTY NOTICE.

M. I. T. Golf Association tomorrow is on sale at the Cage.

There will be a meeting of the M. I. T. Golf Association tomorrow at 1 P.M., in 22 Rogers.
