

# The Tech

VOL. XXIV. No. 80.

BOSTON, MASS., MONDAY, MAY 8, 1905

PRICE THREE CENTS.

## TECH SHOW DINNER.

### One-Night Stand at Tech Union.

Posters announcing that "The Chemical Maid" was to be "On Boylston Street," or in the immediate vicinity, on Saturday evening, drew a large and enthusiastic audience to Tech Union. The curtain was rung up at seven o'clock and disclosed nearly one hundred men who went at the opening chorus with a vim and dash. Besides the participants in this year's Show, a number of the former managers of the Show were present.

P. E. Hinkley, general manager, acted as toastmaster. He first called on Davis, who told of his interest in the past Shows. M. L. Emerson, '07, drew attention to the fact that the management is the most important factor in putting on the Show and making it a success.

Mr. James Francis, who has coached during the past few weeks, congratulated the men on their earnestness and perseverance and expressed his opinion that Technology can do anything in the theatrical line as long as this interest is maintained.

Prof. Clifford, speaking for the Faculty, said that Tech Show, with the good fellowship it creates, was a desirable part of the education which men get at Tech. He told of the growth of many of the social features since his undergraduate days. Dean Burton spoke to the men of the danger of allowing themselves to be carried away by the Show and thus lose sight of their other work.

Kann, stage manager, drew attention to the work of Bryant, '07, who wrote this year's show. Bryant has been the first man to do a *thorough* Tech Show. Besides writing the libretto, he wrote every lyric except one, and suggested the lines of musical work. In every way he has earned considerable glory for his meritorious work, and the long M. I. T. yell he received expressed the feeling of the fellows toward him. Parlin, business manager, made a preliminary report of the finances which show a profit of at least fifteen hundred dollars.

A letter was read from Mrs. J. E. Walker, in which she wished success to the Show. A frame containing photographs of "Applied Mechanics" the 1902 Show, was presented to the Union by Mrs. Walker. Letters of regret were read from Dr. Pritchett and Prof. Wendell.

Hinkley announced that the orchestration of "Simon Pure Brass" had been sent to the University of California, where it will be used in the extravaganza to be given there.

## AMHERST TRACK TEAM.

### Men Show up Well in the Spring Meet Held on May 3.

Amherst held its spring games at Pratt Field, last Thursday afternoon, and many encouraging results were attained. The record in the broad jump was broken, W. P. Hubbard doing 23 ft. 6 in.

As a rule Amherst has many star men for first places, but seems weak in men for the other places. As in last year's meet, Tech does not hope

"In the 100-yard dash Amherst should have all three places. Read and Orrell are running in 10 seconds and Keith, Washburn and Richenaker are showing up well. At the cider meet last fall, it will be remembered, when Orrell was not in the running, Read sprinted the distance in 10 flat, and by one of the watches in 9-4. At recent trials of 50 yards Orrell won two heats and Read one, in the time 5-1, which is equal to the world's record. In the 220-yards it is hard to select the winner, as Orrell, Read and Stearns are all

R. E. ROLLINS, Captain.

W. P. HUBBARD.

to get the majority of the first places, but it is expected that most of the second and third places will go to us.

Read, who runs the 100-yds. dash, made the fast time of 9 4-5 sec., and Stearns ran the quarter mile in 50 1-5 sec. In the other running events no remarkable times were made. In the weight events Amherst depends to a great extent on Rollins, who is doing excellent work in the hammer throw, shot put and discus.

The following is a comparison of the Technology and Amherst teams as drawn by the *Amherst Student*:

running close to 22 seconds. Amherst should score first place, with strong probability of a second as well, though Lightner of Tech may possibly cross the line second.

"In the quarter mile, Orrell, the New England champion, is running faster than ever before and is hard pushed by Stearns, who is doing splendid work. It is expected that the N. E. I. A. A. record of 50 1-5 will be broken at Worcester this year. In this event Amherst will score first place and very probably second. In the 880, it is expected that White and Hale will land two

(Continued on page 3.)

## CALENDAR.

### MONDAY, MAY 8.

4.30 P.M. 1907 *Technique* Board Meeting. 30 Rogers.

7.30 P.M. Electrical Engineering Society. Smoker at Tech Union.

### TUESDAY, MAY 9.

4.00 P.M. Meeting of Walker Club. 44 Rogers.

4.00 P.M. Mandolin Club Rehearsal.

6.00 P.M. Ohio Club Dinner at Tech Union.

### WEDNESDAY, MAY 10.

7.45 P.M. Mining Engineering Society. Smoker at Tech Union.
