FACULTY MAKES REPORT.

The report of the Faculty on the educational advantages and disadvantages of the proposed plan for alliance with Harvard University, was made to the Corporation last Saturday.

The report has been referred to the Alumni by the Corporation, and it has been printed in pamphlet form by the Executive Committee of the Alumni Association. These pamphlets, which include the main resolution, seven appendixes and a minority report, in all 77 pages, are to be sent to the Alumni today.

The vote of the Faculty by which the report was adopted on May 3, stands thus as follows: Yeas: Professors Adams, Allen, Bailey, Bardwell, Barstow, Bates, Bigelow, Barton, Chandler, Clifford, Coolidge, Crosby, Currier, Derrick, Despaul, Dewey, Fuller, Gardner, Gill, Goodwin, Holman, Hogland, Johnson, Lanza, R. R. Lawrence, Lawrence, Leyden, Mearns, Miller, Niles, Norton, Noyes, Osborne, Park, Peabody, Pearson, Pope, Porter, Prescott, Peuffer, Richards, Robbins, Schwank, Spofford, Summer, Talbot, Thorp, Vogel, Warren, Wells, Wendell, Wheeler, Woodbridge, Woods.

Nays: The President, Professors Fay, Ford, Freeman, McIlhenny, Moore, Swain, Walker.

(Signatures of the two members of the Faculty not recorded in the above vote, are absent in Europe.)

TECH NIGHT AT THE "POPS." Application blanks are now being distributed to the undergraduates for tickets to Tech night at the "Pops." These should be sent in immediately. Those who have not already secured any application blanks may obtain them from the Dean of the Faculty. Tickets at table will be $1.00, and balcony tickets, 75 cents.

The whole of Symphony Hall has been reserved, the floor for past students, and students, and the balconies for ladies and their escorts. Each class will be assigned a number of tickets in ratio to the applications received.

There are less than 1,000 seats in the balconies, a number far inadequate to meet the demands made upon us last year.

Tickets will be received at 85 Newbury Street on and after June 3, but those who desire may send stamped envelopes for return of tickets. No seats will be on sale at the hall.

In the expression of its opinion the Faculty has felt obliged to confine its attention to the plan as submitted, assuming that at least its main features are essential to the consummation of the agreement, and that it has not ventured to discuss the indefinite question of advantageous modifications.

The educational policy of the Institute, the advantages and disadvantages of the proposed plan, and the fact that the Institute is not a local, but a national institution, are discussed at length.

The report states that the success of the Institute has been and still is a success, namely of character and morale; and it is precisely these vital qualities which the Faculty believes would be destroyed by the changes called for under the terms of this agreement. For it is not merely proposed to remove the Institute to a new site, but to graft it upon an old and unproductive site. This development, however, must be a growth. It cannot be forced, as the proposed agreement would attempt to force it, for it is in the nature of continuous experiment, presenting problems for the solution of which no data exists.

WORCESTER MEET.

The Tech Team ought to show up well at the N. E. I. A. A. Track and Field Games to be held at the Worcester Oval, Saturday and Monday, May 19 and 20, as we are confident of doing better than we did a year ago.

Trials in all the events except the mile and the two mile run will be held Friday, May 18, at 3 p.m. Semifinals and Finals in all events will be held on the following day, Saturday, May 20, starting at 2:15 p.m., promptly.

The railroad fare from Boston will not exceed $1.25 round trip, if over 100 men go this way, while by the Boston and Worcester electric railways the fare is 90 cents round trip. The train leaves at 12:08 p.m., Saturday.
