LIST OF PROMOTIONS.

Associate Professor Allyn L. Merrill to Professor of Mechanics. Associate Professor Daniel P. Bartlett to Professor of Mathematics. Assistant Professor Henry Pay to Associate Professor of Analytical Chemistry. Assistant Professor Charles L. Norton to Associate Professor of Mechanical Engineering. Instructor Harrison W. Smith to Assistant Professor of Electrical Engineering. Instructor Charles Edward A. Winlow to Assistant Professor of Biology. Instructor William J. Driske to Assistant Professor of Physics. Instructor Walter S. Leland to Assistant Professor of Naval Architecture. Instructor Carroll W. Doten to Assistant Professor of Economics. Instructor Samuel Mulliken to Assistant Professor of Organic Chemistry. Assistant Walter H. Adams to Instructor in Mechanical Engineering. Assistant Edward J. Paxton to Instructor in Mechanical Engineering. Assistant George W. Swett to Instructor in Mechanical Engineering. Assistant Theodore H. Taft to Instructor in Professor of Heat Measurement. Assistant Robert S. Williams to Instructor in Analytical Chemistry. Assistant Charles H. Porter to Instructor in Electrical Engineering. Assistant Henry W. Buhler to Instructor in Heat Measurements. Assistant Walter J. Gill, Jr., to Instructor in Physics. Assistant Eugene D. Forbes to Instructor in Physics. Assistant Daniel F. Comstock to Instructor in Mechanics. Assistant Harold A. Everett to Instructor in Electrical Engineering. Assistant John W. Howard to Instructor in Electrical Engineering. Assistant Arthur L. Goodrich to Instructor in Mechanical Drawing and Descriptive Geometry. Assistant Charles H. Atwood to Instructor in Freehand Drawing.

AMERICAN CHEMICAL SOCIETY.

A regular meeting of the American Chemical Society was held on Friday, May 26, at 8 o'clock at Lowell, to report on the progress of the investigations that have been carried on in Technology's research laboratory. The speakers of the evening were Prof. A. Noyes, Prof. W. D. Coolidge and R. D. Mally, a graduate student who has been carrying on research work. Professor Noyes spoke on the establishment of the research laboratory, and Prof. Coolidge and Mr. Mally gave reports of the results of their research work.

CALIFORNIA CLUB.

The first dinner of the California Club was held June 2 at the Notchman. Address were made by L. F. Mesmer, President, and L. C. Hampton, Secretary of the Organizing Committee. The aim of the Club is to promote interest in Tech in their state, and also to promote good fellowship among its members.

WINCHESTER REPEATING RIFLES

No matter what your ideas or preferences are about a rifle, some one of eight different Winchester models will surely suit you. Winchester Rifles are made in all calibers, styles and weights; and whichever model you select, you can count on its being well made and finished, reliable in action and a strong, accurate shooter.

WICHENHESTER REPEATING ARMS CO.

NEW HAVEN, CONN.
