SHUMAN CORNER BOSTON

In the following way does a writer in the *Boston Transcript* sum up the features of American university growth:

1. Attendance is growing faster than the population.
2. Western institutions are growing faster than Eastern.
3. The old arts course is falling behind relatively, while the scientific and engineering courses are forging to the front.
4. Fewer students are attending law and medical schools in proportion to the total number of students.
5. The number of women students is growing faster than the number of men.
