

Men's Shoes**Third Floor**

In our shoe department all the newest shapes and leathers will be found. Good sturdy shoes that will stand lots of hard usage and look well up to the bitter end.

BOSTON'S NEW STORE**Umbrellas****First Floor**

Right near the men's furnishings is one of the most complete stocks of fancy and plain umbrellas in Boston. Dozens of big husky ones to bang around, strong on looks, too.

Tech Styles for Autumn and Winter

Whether you are a conservative dresser or go in for all the new fads in clothes, you will find at the New Store all the latest and best cuts, fabrics and colorings. Our buyers keep the closest track of fashions in such centers as London and New York and those which seem to fit the Boston trade are quickly placed in stock at prices which the exclusive shops can not even approximate.

Snappy Coats and Suits**THIRD FLOOR**

All the fall suits are on our counters, our coats are single or double breasted, cut long, with body-fitting or loose backs, broader lapels than last spring, and deep center or side vents. The swellest trousers are peg topped and waistcoats are all single breasted except the stylish fancy ones which are made up in either style. The most popular colorings are the greys and over-plaids, but blacks, blues and browns come in for their share of popularity.

The top coats of the moment are short and very boxy. Coverts, oxfords and blacks are the prevailing colors, the collars are close fitting and the shoulders are carefully concaved. None of the new touches have been omitted.

Absolutely waterproof raincoats, 52 inches long, are to be great features with us for this season. The stylish colors in these garments are, perhaps, more diverse than ever. The shoulders are broad and concaved and the whole effect is loose and roomy. Pad-docks, Chesterfields and all the popular long, full coats are peculiarly fitted to college wear and Tech

men will soon appreciate that never before have they been able to get ready made clothing which equals high grade custom work and at prices within the reach of all.

Derbies and Soft Hats**THIRD FLOOR**

Flat set and flat brims have the call this time. All the new derbies are built on these lines, the brims are narrower, too, and the crowns are rather higher than was the case twelve months ago. No man who ever pretends to keep himself well groomed can be without the derby and these late models are as swag-gar as they make them. The soft hat which is carrying the bulk of the college business is the telescope, in gray or nutria with bound or raw edge. This is distinctly a young man's hat, and with any plain or fancy band, will make a serviceable, distinctive headgear for all but dress occasions. When you need something right for evening wear, you will find American and imported silk hats of the latest forms at tempting prices.

Swagger Haberdashery**FIRST FLOOR**

Just within an Essex Street entrance is a Men's Furnishing shop complete. We are showing some of the most exclusive lines; one of the prize winners is a shipment of the famous "H. D." Chemises Perfectionees, the very latest Parisian negligee shirts. They have bodies in solid browns and blues, with bosoms and cuffs of fancy materials to match. Our leading cravats are the very broad bat-wings and the large folded four-in-hands; both are in the shown popular fancy colors and in the quieter solid shades. An inspection of our collar counter demonstrates that the ultra swell collar is to be the square pointed wing, although the old standby, high band will be widely worn. Silk pajamas, in solid blues, pinks and ecrus are being called for more and more and our bath-ropes are more necessities than luxuries, long, warm and handsome. The latest walking stick is the plain, severe imported one—just a rich silver band to relieve it. Look over these goods. We import our own novelties and can show special extreme lines not to be seen in any other store.
