NEW CATALOGUE READY.

More Foreign Students This Year — Smaller Total Registration.

The forty-first volume of the catalogue of the Institute has just been issued, and contains much valuable information regarding the number of students enrolled this year, and also regarding alumni statistics.

The total number of students enrolled is 1406, a decrease of 95 from the number enrolled last year. The decrease is caused principally by the smaller number of men in the freshman class, their being 215 regular graduates. This decrease is caused principally by the being smaller number of men in the freshman class, their being 215 regular graduates. Intelligence regarding the number of regular graduates is composed as follows: 35 Professors, 15 Associate Professors, 66 Instructors, and 155 regular graduates.

One large proportion of whom are engineers. Besides a large number of special students, the class is composed of such a large number of special students, as engineers. Besides a large number of special students, the class is composed of such a large number of special students, as engineers.

The number of foreign students is larger than ever before. Sixty-two foreign countries are represented at John L. Jones, VI., 1903, president of the Boston Group of the United States Geological Survey, in 22 Walker.

The 616th regular meeting of the Society of Arts will be held Saturday, December 16, at 7.30 in 6 Lowell. There will be chest weight exercises and a round of the gymnasium.

FACULTY NOTICES.

FOURTH YEAR — The final examination in Hydraulic Measurements will be held Saturday, December 16, from 2 to 4 P.M. in Room 60 Eng. A.

TECHNIEK — Mr. Page will meet all the men who are doing any work for Techniek in the morning at 7 a.m. in 6 Lowell. The place of meeting will be announced later on the bulletin boards. The men will bring all work, both finished and unfinished, so that it may be properly criticized.

TEN NIGHTS — There will be a meeting of all those interested in writing articles or music for the coming issue of the Techniek on Thursday, December 14, at 4 o’clock, in 24 Regents. It is not necessary to be able to compose music, but come and bring your ideas.

CHANCE TO LEARN TACTICS.

All students of the Institute of medium height, or over, who are interested in military affairs, are invited to join the Massachusetts Corps of Coast Artillery. The excellent opportunity is offered to learn both artillery and infantry tactics, to become familiar with the latest forms of ordnance, and to practice gunnery with large and small arms in long and short ranges. Drills weekly except in August and September. Camp duty, one week in July and one week in September, is an instructive and pleasant summer outing. For full particulars inquire of J. H. Leavell ’87.
