PROVISIONAL.

Schedule of Semi-Annual Examinations 1906.

SUBJECT TO CORRECTION BY BULLETIN.

NEW ASSOCIATION FORMED.

Colleges Take Tech into the University Fencing League.

Following the announcement in our last issue of the annual indoor meet on Jan. 19, Tech has always entered a relay team besides a number of men in individual events. The entries will close on Jan. 29. Among the college relay teams which will enter are Harvard, Yale, Princeton, University of Pennsylvania, Cornell, Dartmouth, Amherst, University of Maine, Williams, Brown, Tufts, and Spalding. The handicap they have asked Princeton to decline its election to the older organization and join one. It is thought that Princeton, which was refused admission to the I. F. A. at the same time as M. I. T., but later was taken in, will decline the election and stay with the new association.

Now for the five-term names mentioned above be members of the new League, but there is likelihood that Michigan, Chicago, and Georgetown will be added to the membership roll. It was announced recently by one of the members of the new association that there had been discussions on the formation of a national body than the older one. At this meeting an effort will be made to form some sort of a permanent organization, similar to the Catholic clubs now in existence at Harvard, Yale, and Dartmouth. These clubs are meeting with a large measure of success, and we feel that among the one hundred and fifty of our faith at the Institute there is a splendid opportunity for a like organization. The Rev. John J. Farrell, the spiritual director of St. Paul's Catholic Club at Harvard, will address the meeting, as well as Daniel J. Finnley, their president, Mr. Mooney, the vice-president, and Mr. Kanaley. The success of this effort depends on the co-operation of each man, and we strongly urge that you not only come yourself but notify and bring all the Catholic fellows you know.

Lecture by Dr. Oswald.

The Lowell Institute Lecture given on Monday was the first of the series on "The Principles Underlying the Art of Painting," by Dr. Wilhelm Oswald, Professor of Fine Art at the University of Leipzig. The themes especially dealt upon were color, light, reflection, and the preservation of paintings.
