The Annual Indoor Intercollegiate Championship meet to be held to-night in the gymnasium promises to be a successful and exciting set of games. The junior and freshman teams were shown and about seventy-five men have already entered for the various events.

The trial heats in the relay race were run at the gymnasium Tuesday afternoon at five o'clock, the result of which was the elimination of the junior and freshman teams. Both the preliminary races were hard-fought contests, that between 08 and 09 especially. In the '08 trial, although '09 got the lead at the start and was never headed, yet the race was close. The distance was won by a narrow margin. The time was 4 min. 11 sec.

Just as the preliminary was spectacular and roused the enthusiasm of the spectators to a high pitch, Godfrey, the first man to run, gained about three yards for his class, but fell at the finish. His teammate stopped long enough to allow Moses to pass, and then took up the race. When Moses, the last runner for '09, started, the lead of Tech had been cut down to ten yards. From the start he began to gain, and the rafters rang with cheers and shouts of encouragement. The lead was too great, however, and Moses finished two yards behind.

The election of a 1909 Baseball Manager was postponed on account of the smallness of the attendance, at a Freshman Class meeting held on Monday, January 22, to Saturday, January 20, at 9, and will be held in Engineering C.

The 1909 Football Team has been arranged with Tech, Harvard, and Columbia, for example, 41 men, Yale 33:3. According to present plans, a delegation of some size will be sent to the Student Volunteer Convention to be held at Nashville, Tenn., from February 28 to March 4. This convention may be called the Meets of those interested in college Y. M. C. A. work. Those in attendance represent every part of the world. All four larger American universities are present, as well as not having been proven.
