TECH BEATS DARTMOUTH

But Loses to Andover in a Snappy Game. Final score 10 to 0.

With two goals against them in the first five minutes, the Tech hockey team won from Dartmouth, Thursday. In team play the Tech men were inferior. But the team pulled up after a bad start and snappily scored in the second, five goals to three. Very little lifting was done, the men carrying the puck by preference almost always. Gould at centre and Ford at end were Tech’s best players; but Miller and Kellor shot most of the goals. Richardsen starred for Dartmouth.

The line-ups were:

**TECH.**

Sharp, g.; Croke, Laid, p.; McLane, Gould, c.p.; Peck, H., Leighton, Millican, f.; H., Gilkinson, f.; Michaud, Ford, f.; Brooks, Kellor, f.; Kellor, f.; H.,

Halves—20 and 15 min. Score—Tech, 10; Dartmouth, 3.

The Andover team beat the Tech team in the match played at the Brash-Browl Country Club’s nast in West Newton Wednesday, winning by the score of 10 to 0. The offense of the Andover boys was fast and the shooting accurate. Heintzmann, Waterman, and Fells played best for the victors, while Ford was the star for Tech.

The line-up:

**ANDOVER.**

Tech. Fells, f.; Miller, Heintzmann, f.; Waterman, f.;

Gilkinson, H.; Merrill, f.; Porter, f.; Guns, f.; Noyes, L.;

H., Sharp. Score—Andover, 10; Tech, 0. Goals made by Fells, S., Waterman, S., H., Merrill.

Rules: 90 min. on Tuesday, Thursday, and Saturday, after preliminary training.

**PROF. GARDINER’S LAST LECTURE.**

The fourth and last lecture of John Hays Gardiner, Assistant Professor of English in Harvard University, on The Literary Power of the English Bible, was given last night, in Huntington Hall, before an appreciative audience of between two and three hundred. As before, Prof. Gardiner spoke in his usual charming manner and impressed his audience by his simple and straightforward handling of his subject. This course has been very successful and it is to be hoped that the following courses will be as well appreciated and attended.

**ROUND TABLE MEETS.**

A meeting of the Round Table was held in 22 Rogers Wednesday afternoon. Twenty-six, of whom J. D. McGovern of the '07, and E. C. Montgomery of the '08, were elected new members. The vacant offices of the club were filled for the ensuing year.

**SOPHOMORES WIN.**

1908 Fencers Beat Tufts at the Gym. Score 7 to 2.

The Sophomore Fencing Team won from Tufts College at the Gym Wednesday evening, winning seven out of nine bouts. L. D. Nis, of the Sophomore, was unable to participate in the meet, and the Tufts men, in a very sportsmanlike manner, allowed Jorge Lage, '06, to substitute in his place.

Lage and Bonnetheau both won all their bouts in very easy form. Bonnetheau did especially good fencing, and should make the empty place on the varsity team.

Guteau was Tuf's best man. He won one bout from Wilkin, and made Lage and Bonnetheau handle to win. Alvarengo, who is considered to be the best fencer at Tufts, did not show his usual form and lost all his bouts.

The summary:

First Bout—Lage, Tech, defeated Alvarengo, Tufts.

Second Bout—Bonnetheau, Tech, defeated Jeffers, Tufts.

Third Bout—Wilkin, Tech, defeated Alvarengo, Tufts. (Extra two-minute bout required for decision.)

Fourth Bout—Bonnetheau, Tech, defeated Guteau, Tufts.

Fifth Bout—Lage, Tech, defeated Jeffers, Tufts.

Sixth Bout—Guteau, Tufts, defeated Wilkin, Tech.

Seventh Bout—Bonnetheau, Tech, defeated Alvarengo, Tufts.

Eight Bout—Jeffers, Tufts, defeated Guteau, Tufts.

**PLANT TEST AT LOWELL.**

A plant test at Lowell by thesis men will start Friday night and last until Sunday night. Assistants are at present busy with this work. The men will be in position as early as possible Saturday morning. Tests will be from eight to twelve hours long, according to the number of men working. The men will be shifted in position frequently in order that they may get as much experience as possible. Men will have to pay their own expenses, the railroad fare being $1.20 for the round trip. Those who are willing to stay the whole time, as well as those who can go for only one shift, will please report to Mr. Huntington, in charge of the work. Assistant men who are doing this work may know how many assistants they can depend upon.

**THE B. A. A. MEET.**

Tech has Relay with Bowdoin. Tickets to Meet are $2.00.

The present outlook for the seventh annual indoor handicap meet of the B. A. A. at the Mechanic's Building, next Saturday evening gives promise of much interest. Already the various colleges have been busy filling out their representative teams and there is every indication that many records attained at previous meets will be broken. Of particular interest is the 300 yard relay race between Technology and Bowdoin College. Each school has entered four men. Those comprising the Technology relay team are: Williams, '07; Holdway, '08; Todd, '09; Waterman, '08; Moses, '09; Godfrey, '09.

From these six men the four runners will be picked. It is hoped that the Tech team this year will succeed in winning a decisive victory in the relay race. The handicap events, however, offer very little probability of winnings on the part of the Tech contestants. One of the serious drawbacks in the way of support is the scarcity of tickets for the games.

**PROF. JOHNSON LECTURES.**

"The Causes and Effects of River Capture" was the subject of Prof. W. D. Johnson’s lecture before the Society of Arts, Thursday evening. He concerned himself first with the general development of stream, tracing the adjustment of water courses to the varied conditions to which they are subject after reaching the period of maturity. Then followed a statement of the reality of river capture and of the processes through which it is effected as shown by a typical example. The obvious effects of river capture were enumerated, and in conclusion Prof. Johnson emphasized these by referring to actual cases, the capture of the Tennessee near Chattanooga and of the Chattahoochee by the Savannah. About twenty-four stereopticon views were thrown upon the screen as illustrations.

Prof. Johnson has spent two summers in the Appalachian mountains investigating the subject. His lecture was based, in part, upon this personal investigation.

**DIRECTORY.**

The following is an addition to the Directory of Tech Activities: Instructors’ Staff.

President, C. W. Sawyer; Secre., S. H. Thorndike, '94.

**COLLEGE NOTE.**

Great activity in track athletics is being manifested at Cornell, as a result of the winter athletic and collegiate games last spring. One hundred and fifty men are already taking preliminary training.
