NASHVILLE CONVENTION.

Delegates Report on the Convention at a Meeting in the Parlor of the Hotel.

At the regular Thursday noon meeting of the Y. M. C. A. in the Hotel, the delegates to the recent convention of the Student Volunteer Movement at Nashville, reported on the meetings of the convention. A very enthusiastic report of the proceedings was given by all of the delegates and no doubt the volunteer movement was immensely aided by the convention. The meetings were held morning and evening on the last four days of the convention and in the afternoons there were sectional conferences. The Talley Society delegation of five men reported that the seven hundred institutions of learning from which delegates were present were divided into five delegations and that reports on one day's proceedings were presented.

D. S. Gates reported on the proceedings of the convention. The immense size of the convention was impressed upon the delegates from the first day by the attendance of not only the representatives of the seven hundred institutions of learning but also by the vast numbers of colleges all over the country. The immense auditorium in which the meetings were held was inadequate and two churches had to be opened to accommodate the extra delegations. The inspiration of such numbers, including notable men from all branches of learning, was of great help to the delegates. The meetings of the second day, reported by A. A. Black, included speeches by each such well-known as Bishop Gaylord and Robert E. Speer, familiar to the volunteer movement. The report of Mr. Speer aroused the listeners, and a subscription for the foreign work, taken up at the meeting was gratefully acknowledged, but its acceptance left in doubt. It should be accepted, the chairman of the day said, for first place at the finish would be greatly improved.

The last day of the convention was devoted to the large number of notable men who attended from all parts of the country. The convention was in session, and in the afternoon, in the large auditorium, we can look for a considerable better showing.

KOMMERS POSTPONED.

The Committee in charge of the Junior Kommers which were to be held today have been postponed. The committee hopes that the songs which were presented at the meeting will be sung at the Theta Union meeting on Friday, November 23.

COLLEGE NOTES.

Kenyon College has been having a successful season this year. Early in the fall occurred the tragedy of the fraternity initiation, and only recently has the dormitory been restored. The men in the dormitory have been idle for many weeks, and the college has been on the verge of bankruptcy.

The department of supervision of the National Education Association closed a two days' convention at Louisville, Ky. Among the resolutions adopted was one sympathizing with the fight now being waged against the "pernicious influence" of the Young Men's Christian Association.

The New York State Commission, having in charge the supervision of the award of Rhodes scholarships in English universities, has announced that the scholarship in this state will be awarded in 1907. The commission has made two vacancies in its membership, President R. H. Rhodes, of Rochester University, succeeding President Schuman of Cornell, and the Rev. David J. Green, of St. Francis Xavier College, New York City, succeeding President Nicholas Butler. Dr. Howard J. Rogers, a state commissioner, was elected permanent secretary of the commission.
