Il faut a chaque homme un Technique. — Emile Zola.

The staff of the 1908 Technique is not yet complete, but after May 1 all those who have not had energy enough to try for the art department will have a chance to have a hand in the making of Technique.

While endeavoring to keep our scholarship up to the standard and train ourselves to be engineers, we are apt to lay too much A Right stress upon the details of Perspective. Our work, which, at the time may seem par-amount, but afterwords are soon forgotten. In our long problems we are apt to waste our time upon the detail instead of recognizing at once that the principle is the all-important thing. As a result too little thought is given to affairs in general to progress in other directions than engineering, to the arts, to religion, and to literature. It is during the college course that the mind is broad-mindedness rather than from any habit that he may have acquired of filling his head with details and crowding out his reasoning and thinking powers. The desirable thing is a right perspective, a proper-"sible relative of the importance of things — this is what gives the college man ability to see that a great many influences are brought to bear upon important events and that details are given second place. This per-spective is what the Tech man should cultivate.

The first Hare and Hounds Run of the season was held from the Read-y Y. M. C. A., in which 26 men took part. The Hares, G. H. Rugg-le, '05 and E. S. Campbell, '06 made an excellent trail of 5 miles past the northern part of Read-ing. The bags were found by Stark-weather, '07 and Batchelder, '07.

The order of finishing was first, Howland, '08; second, Clapp, '06; third, Howard, '08; fourth, Buck-ingham, '06; fifth, Callaway, '08; sixth, Newton, '06. The time of the Hares one hour and that of the Hounds one hour and sixteen minutes. The next run will be at Welles-ley, Saturday, April 14.

Theses of the Architectural Department, Option III: G. E. Burnap, "A Recreation Club on the South Shore;" G. F. Hunt, "Development of an Estate in Roxbury."
