Mr. W. L. Church of Amburson Construction Company was introduced.

The sale of seats for the Boston performances of the 1906 Tech Show is unprecedented. The entire orchestra and first balcony have been completely sold out for both Thursday and Friday, and a large number of seats in the second balcony has also been sold. The director had made no provision for lower priced seats.

It has been found that this dam will have no tendency to slide or overturn. It has been constructed so that at Richelieu, Canada, in the hollow dam are made easily accessible without special construction. A dam of this type is often the only means of providing a useful water supply in these hard rock countries.
