Harvard News and Notes

Although the first Dual Track Meet that Technology has ever held with Williams College was not a victory, it was a very A Good satisfactory meet in every Meet. other respect. The track team did its best, and while its best was not quite enough for a victory — probably due more to an unfortunate accident than anything else — it was enough to encourage the track and field men and to show that Technology has a most excellent prospect for next Saturday's Intercollegiate Meet.

The quarter-mile dash was perhaps the greatest surprise of the meet, and Tech's victory in this event, coupled with the running of the three Institute men did, gave Tech a well-founded belief that Tech would win. Eaton's magnificent attempt to win the final heat of the 220-yard hurdles and thus to give his team the victory deserved the heartiest praise of every Tech man. But for his unfortunate stumble at his third hurdle, he would undoubtedly have won his race, as he was ahead at the time and running excellently.

Died, Tuesday, May 8, at his mother's home, Newbury Street, Malcolm Macleod, formerly a member of the Class of 1907. MacLeod, while at Technology, was a member of his class football team, and a Business Manager of The Tech. He left here last year and went to Harvard University where he was a member of the second varsity football team.

WILLIAMS WINS DUAL TRACK MEET

(Continued from page 1.)

The two-mile run was a fast race with Callaway setting the pace most of the way. Bonner of Williams stayed right with him and proved to have the better endurance, for by a good sprint at the end he won out.

The 220-yard dash was Tech's greatest surprise of the year, and Todd lost second place, probably due more to an unfortunate accident than anything else. Eaton's attempt to win the final heat was a magnificent attempt to win the final heat. Eaton was a very promising runner, and Tech's victory in this heat was an interesting contest between Farrington and Horrax. The former finally succeeded in winning with the bat at 5 feet 8.4 inches, with Williams second and Eaton third. Horrax also excelled in the pole vault leav-
