Generals in Chief of Class or 1906:

It is with great pleasure that we welcome the members of this class. We have some occasion to dwell on the past and on the future. We have some occasion to think of you as boys, I feel sure when you were boys, and to recall the happy days of your youth.

During the past four years we have been preparing ourselves for our life's work. Our existence so far has not been excessively burdened with trouble. We have had some work to do and indeed some very hard work, but it has, for most of us, been done under the most favorable circumstances. We have always had the support of our own friends, and have had the benefit of the sympathies of our teachers.

It is fitting and proper that we should end our careers as underclassmen with our friends and teachers. It is fitting and proper that we should remember the help we have received, and that we should end our careers as underclassmen with our friends and teachers. It is fitting and proper that we should remember the help we have received, and that we should want to do as a man's work in the world, and that we should want to do as a man's work in the world.

The Tech team ran five straight games, defeating the set and taking the first two teams, and Westcott of Williams, 3-6, 6-4, 6-3, 6-4, 6-4. Panning also secured second place in the singles being beaten out after a hard contest to Senior Class, Rogers.

It is with great pleasure that we wish our friends to know that we appreciate the fact that we have made it possible for us to attend the American House with an enthusiastic attendance of over 250 men. The guests were Dr. Pritchett, Mayor Fitzgerald, Fred. P. Fish, George Wigglesworth, Samuel C. Cabot, Prof. Tyler, Swain, Luana, Richards, Chandler, Talbot, Clifford, Merrill, Sodrick, Cross, Dewey, Porter, Auger, and Buzzar Rand.

During the dinner, the chairman of the dinner committee, Andrew H. Koehler acted as toastmaster, being introduced by the members of this class. The dinner was given by the dinner committee, Messrs. Neuman.
