Summer Streets
Boston, U. S. A.

UNIVERSITY FOOTBALL PROSPECTS.

Although the three-year eligibility rule will debar many good men from the football teams of the East this fall, the outlook is very bright for a good season. Princeton, Yale and Harvard will start on nearly the same footing, while some of the other universities will obtain good men who want to play four years.

Captain Morse, of Yale, will have for a nucleus a large number of veterans, including Jones, end; Bigelow, tackle; Forbes, guard; in the line, and T. A. D. Jones, quarterback, with Roome, Knox and Levine in the backfield. In addition, there are a large number of promising substitutes.

Harvard, although lacking material in the line, has a large supply of men for the backfield, including Captain Foster, Starr, Hall, Wendell, Lockwood and Newhall.

Cornell has lost more by graduation and the three-year rule than either Harvard or Yale. There are left from last year's team Captain Cook, left tackle; Thompson, guard; Newman, center, and Polak, quarterback. It is not even certain that these men will all return.

Pennsylvania is confident of a successful year. There are a large number of experienced men available, and Mike Murphy, who had such success last year, is expected to do even better this year. A game has been arranged with Michigan for November 17 on Franklin Field.

Dartmouth promises to repeat her excellent showing of last year. Captain Glaze has Rich and Greenwood in the backfield, with De Angelis, Stearns, Lang, Thayer and Brusse in the line, all of last year's team. These men, together with the promising men in the entering class, seem to indicate a very strong team.

FRIST FRESHMEN MEETING.

Pres. Pritchett will address the Freshman Class in Huntington Hall at one o'clock this afternoon and will acquaint them with a few of the Tech customs and tell them about the student activities.

This meeting will give the freshmen a chance to get an idea of their size, an opportunity of which the sophomores also will probably take advantage. As an early organization is very desirable, the freshmen will probably turn out in large numbers.

The Junior class will have charge of the freshman class organization. Temporary officers will be elected and also managers of the class teams.

A wind pressure of thirty pounds per square foot is called for in the New York Building Laws, for buildings more than one hundred feet high, with an allowable unit stress of 50 per cent more than for dead or live loads. Fowler gives twenty pounds for buildings less than twenty feet high and thirty pounds for buildings sixty feet high.
