ARCHITECTS HOLD SMOKER.

Mr. Walker gives interesting and instructive talk on current style in architecture.

1909 TEAM ROUNDELING INTO GOOD SHAPES.

Coaches hampered by lack of candidates.

SOPHOMORE FOOTBALL.

The Sophomore football team has been at hard work every afternoon since the starting of the fall season, on the oval in the rear of the Tech Chambers on Irvington hill. The team has been at work chiefly ground up the candidates in the fundamentals of the game, and is now inspecting the team in the plays that are allowable under this year's new rules. The forward line has tried with indifferent success. So far there have been about sixteen men out for the team, this small number preventing much good scrimmage work. But the men that are out are experienced players, many of them being members of last year's team.

The team is now lining up in practice as follows: right end, Davis; right tackle, Pope; right guard, Cribbet; center, Dow; left guard, Sherman; left tackle, M. Fletcher; left end, C. Fletcher; quarterback, Sharp; right back, Godfrey (captain); left half back, Moses; full back, Eaton (manager). Of these seventeen players, all but two or three of last year's team: Cribbet, Godfrey, and the others to return next year. This year's team must be as strong as the one that went away, '07, and Charles W. Beam, '10, and Courteney, '10; H. H. Stephenson, '09, Callaway, who is this year's distance man for the past two years, and W. H. Medlicott, J. N. Huber, '07, were made Chairman of the Meetings Committee in place of Aldrich Blake, '09.

CROSS COUNTRY NEWS.

Intercollegiate Run to be Held at Princeton, Harvard and Cornell. Race on Roxbury Course Field Day.

The selection of the Princeton course by the Intercollegiate Cross Country Conference is a wise choice. The Roxbury course is the best cross country course for distances between one and two and a half miles. It has the advantage of being near the city, where it is easy to secure a large number of runners, and offers variety, both in distances and conditions. It has the advantage also of being near the Institute, and of having ample room along its full distance to accommodate the large number of runners. It is difficult to find a course that can be near the city, that is not near the Institute, that has the advantage of having ample room. It is the best cross country course in this part of the country, having ample room along its full distance to accommodate the large number of runners. It has the advantage of being near the Institute, and of having ample room along its full distance to accommodate the large number of runners.

O. H. Starkweather, '07, has been in correspondence for some time about the plans of the Institute. He took through the district in charge of the officers of last year's team.

J. Rowe, the Harvard manager, is continuing the work, having run on the Amherst course during his three years' stay at the Institute. There remain with the team only two or three of last year's team.

The team that Technology will field will not be as strong as the one that went to Travis Island last year. Two of the principal men of last year's team are good and the other to return next year. Both of these men were strong, consistent runners, the best cross country courses in this part of the country, having ample room along its full distance to accommodate the large number of runners. It has the advantage of being near the Institute, and of having ample room along its full distance to accommodate the large number of runners.

Y. M. C. A. MEETING.

Rev. A. P. Fitch of the Mt. Vernon Congregational Church will again address the students at this meeting tomorrow night in the Parish Hall of Trinity Church. His strong address before the Association two years ago is sufficient to command a good attendance again this week.

At a meeting of the members of Technology Young Men's Christian Association on Oct. 14, Benj. M. Rollins, Associate Secretary of the Association to fill the vacancy caused by the resignation of W. H. Medlicott, and N. H. Stephenson, '09, was made Chairman of the Meetings Committee in place of Aldrich Blake, '09.

TECHNIQUE BOARD MEETS.

The 1908 Technique Board met in the Trophy Room on Monday. The principal subject of discussion was appointing a permanent staff. Aspirants for this position will report to R. V. Stone, or E. J. Williams with not delay. Candidates' drawings must be turned in before 12 P.M. on Saturday, the 27th inst.
