Technology Changes in the Race

The team leaves the Back Bay

Station at 6 o'clock this afternoon

for the annual Intercollegiate

run which will place over the six

and a quarter mile course at Princeton

on Wednesday. It is considered a long dis-

tance men from Harvard, Yale,

Pennsylvania, Princeton, Cornell,

and Columbia, and it is expected that the race

will prove one of the most exciting ever

held.

Cornell has a most promising

team, having put up strong races in every

instance thus far this season.

Princeton is also expected to

Locate its place, and on con-

pairs look now, it will be a close

race between Cornell, Princeton

and Harvard. Harvard, under

Cornell won last year over the

Travers Island course by the small

score of 10 to 14. The other con-

in the order of their finishing

were: Harvard, Yale, Tech, Penn-

sylvania, Princeton, and Columbia.

The result of the run between

Tech and Harvard on Field Day

next week will be an important

chance this season. On the other

hand Tech has shown such a re-

markable desire to improve its

records over the difficult Roxbury

course, that, unless the competi-

ts run an unusually fast race,

she will be well to the front at

the finish.

The only men to run this year

who showed up well last year

are Scott, second; Root of Pennsylvania,

fourth, and King, Harvard,seventh.

Others who compete are Haskins of Pennsylvania, one mile

intercollegiate champion; Parnous, who finished last year's

half mile distance; Scholz, Boston; and Kickerling, Tu-

more, Tech basketball captain and

rushing for this year. Among the old men

who have shown up the most promising in

the practice so far, are: among the
