NEW BUILDING UP.

The Berkeley Marks Epoch in Business Research.

Much comment is being heard nowadays in regard to the new building which has just been finished at the center of Berkeley and Boylson Streets. The comment is caused by its unique appearance, which is due to the influence of this type in Boston. As is probably known, F. was designed by Prof. Becton, head of the Architectural Department.

The building was started a year ago last August, standing on the site of the old Hotel Berkeley, which had been torn down some time ago. The style is on the Parisian order of "l'art nouveau" which has recently been built in Paris, and of the Mediterranean type of this name. It is of great credit to the architect in the fact that the building is true to the lines and proportions of trying to represent a massive brick and stone fire-proof building, by means of a terra-cotta finish. Instead of the terra-cotta brings out a light vertical line effect and preserves the interest in the building. The type of the Berkeley Building is a coming one, as the demand for such buildings will bring architectural beauty is becoming greater every day.

COLLEGE NOTES.

Colombia students recently made a successful movement, demanding that football be restored to the big university again. "Shooting!" We want that! was their battle-cry as they paraded the campus and held a meeting in the main hall of the university hall, demanding a speech from Prof. Van Amuridge. The dean responded to the calling boys that if they kept on they might get what they wanted.

The Saturday morning meeting of the Columbia Bridge club has decided to decline the invitation to row at the big university, if one is extended. The reasons given are as follows:

First, on account of expense, and second, because there is a strong feeling here that the Americans should establish a big regatta of their own, rather than foster a foreign one where foreign crews might compete.

Women students of the University of Wisconsin are indignant at the latest decree of the faculty, which provides that no university party shall begin earlier than eight o'clock, which provides that no university party shall begin earlier than eight o'clock, which provides that no university party shall begin earlier than eight o'clock, which provides that no university party shall begin earlier than eight o'clock.

A complete plan for alliance of Andover Theological Seminary, with Harvard University, has been worked out with the consent of the Seminary after consultation with President Eliot.

The Purdue EXPONENT now appears as a daily, being issued every morning except Monday. The EXponent staff is turning out an excellent paper.

JOURNALISM IN COLLEGE.

Richard Harding Davis Thinks It Best.

When asked what he thought of college journalism, Richard Harding Davis, the great war correspondent, and one of the most prominent literary men of the day said:

"As a preparation for either journalistic or literary profession, I consider the experience gained by a college man en-

The committee will meet to nominate at 4:15 in the Trophy Room, Rogers, to organize and make all the necessary arrangements preparatory to active work for the new college hockey league.
