1909 KOMMERS.

Sophomores to Entertain Some Saturday Evening Next Term.

1909 held a Class Meeting yesterday noon in Huntington Hall to determine whether or not they would take charge of a Kommern. R. H. Allen, one of the Sophomore members of the Institute Commit tee of the股票, spoke of the plans for the Kommern next term, and expressed the desire of the Committee that the Bursar's office might plan with the Board of Directors to arrange for a '09' Kommern to be held next term. The notion was carried, and Presi dent Moses appointed K. H. Allen and B. E. Hutchinson to act with him on that committee.

CABLE SAMPLES FROM BERLIN CO.

The electrical department at the Institute has received a valuable collection of cables from the Allemagne Elektrotechnische-Gesellschaft, Berlin, showing how cables for power transmission and telephone work are built up. In the case of power transmission cable, a single wire of 1,750,000 meters is shown first, and then a conductor made up of a system of nineteen of such wires, these conductors being shown insulated and assembled, and then the various methods of insulating the cable and protecting it from weather and electricity are illustrated. The final sample is so cut that sections of each layer can be seen. This cable is made to carry a 10,000 volt three phase current, with special construction for high tension. The building up of the telephone cable is shown in the same way from the single wire up through the various steps in the insulation to the final steel and rubber sheathing. The cable is made up of 200 pairs; each being most carefully insulated.

ADDRESS TO CATHOLIC CLUB.

The Hon. Herbert S. Carruth, ex-Sal, and the present head of the Boston penal institutions, gave a forcible talk on "Catholic Leadership" before the monthly meeting of the Catholic Club last Wednesday evening in 16 Rogers.
