THE TECH WINS RACE BY SIXTY YARDS.

In spite of a serious misstep in the first relay, Technology defeated Holy Cross in the relay race at the B. A. A. games at the Mechanics Building, Saturday evening, by half a lap. As soon as Todd got down to work, after falling on his second turn, it was evident that the race would go to Tech. Each man ran 300 yards, and Tech's time was 3 minutes and 18 seconds.

Todd was set back twice at the start because of his over-anxiousness to get away, and then on his second turn, he fell. His opponent, J. F. Foley, thus had a lead of thirty yards which Todd had cut down to twenty when Gram took up the race for Tech, with E. J. Cogswell against him. Gram ran a great race and passed Cogswell on the second lap, giving Blackburn a lead of six yards.

Blackburn ran against J. J. Hassett and so outclassed the latter that, when Gould took up the last relay, Tech was one-half a lap ahead. J. F. Kneeland made a hard attempt to cut down the head but Gould maintained it without any trouble.

Of the Tech men entered in the other events, R. H. Allen, '08, made the best showing, winning the high jump with an actual jump of 5 feet, 9½ inches. His handicap of 3 ½ inches enabled him to defeat H. A. Gilkey, scratch, by three-quarters of an inch.

Six Tech men, Gould, '07, Fernstrom, '08, Gram, '09, Richards, '07, Todd, '08, and Mose, '09, ran in the forty-yard handicap dash, the first four winning their trial heats. Fernstrom was the only one to win a semi-final heat and finished fourth in the final. Fernstrom also showed up in the 440-yard novice race, winning his trial heat and getting third in the final. Capt. Richards was entered in the invitation 40-yard dash but lost his heat to C. J. Seitz of the New York Athletic Club.

FACULTY NOTICES.

Second Year.—The room assignments for Sections in Integral Calculus are as follows: Course X—27 Rogers; Course II, Section A—27 Rogers, Section 2A, 9 Eng. C; Course II, Section 2B, and Course III, Section B and 2, 26 Lowell, Course IV, 33 Rogers.

French Colloquium.—The class will meet Mr. Blackstein Mondays and Thursdays at 4 in 22 Lowell.

NOTICE TO SENIORS.

The Portfolio Committee asks that every Senior, who has not had a sitting for the Portfolio at Notman's, will please make an appointment at once. The Committee wishes to do its best by the class, but unless this is attended to, it cannot do so, as one man may delay the whole book.

The Committee also asks the men to be as prompt as possible in designing which pictures they wish to go in the book. If the photographer hears nothing from a man within three days after he receives his proofs, the committee will take it upon itself to select the picture to be used. If a man is not satisfied with his proofs he should make an appointment within three days, for a resitting.
