TECH SHOW PROGRESSES.

The Undesired Meet held with Tufts to be Fenced Off. Score 15-14. Game was Fast and Well Played on Both Sides.

TECH DEFEATED BY TUFTS.

The basketball team was defeated at Medford last night, after a desperate effort by Tech to hold the ball to tie the score. At the end of the first period Tufts led 9-5. Of the second half Tech broke up and played circles around the Medford team: with a few minutes more to play the result might have been reversed. The covering was good on both sides, long baskets were shot by Wilson of Tufts. Senee also played a good game for Tech and Kinmar excelled for Tufts.

FENCING TOMORROW NIGHT.

The second team was defeated by a score of 25 to 16, in a rather rough house game. Tufts played pretty well in the first half but in the second they tired out and Tufts had its own way.

M. T. T. MAN A PROTOZOOLOGIST.

At the last monthly meeting of the trustees of Columbia University a new professorship entitled "Protozoolody" was established and Professor Gary N. Calkins, Ph. D. (M. I. T. 1905), was transferred to the chair from that of Invertebrate Zoology which he had previously held.

The new professor is the first of the kind in the United States and the second in the English-speaking world, the first University College, London, having been founded only a few months ago.

Professor Calkins, having published the best general work in English upon the Protozoa (the lowest forms of animal life), he has prepared his students to do their work connected with the new connection, and renew the memories of Tech enthusiasts a fast successful match.

FACULTY NOTICES.

The Advertising Manager is very hopeful about getting a poster this year from an institute man. He says there are eight posters in which he is interested, but none can be got for the Union, and he is willing to give the posters if they can be got for the Union.

The time has been extended from March 1 to March 4 in order to give the students the extra Saturday and Sunday for finishing touch

TECH SHOW POSTER.

At the earnest solicitation of the students of the Architectural Department, it has been decided to extend the time limit of the Foster Competition to March 4. This will allow the students ample time to extend their efforts before Saturday and Sunday, when the first time under which it is desired to give the students a chance to work, to extend the work to be put into the Union, the students are expected to do their work as perfectly as possible, and no satisfactory posters are received.

Y. M. C. A.

Frank S. Brown, D.D., during Dean of Yale, a man of world-wide reputation, will address the Technology Christian Association on the Orient. "He has also traveled and lectured extensively. The subject of his address will be "The Orient and New York." All Tech students are welcome.

FIREHALL CLASS MEETING.
