It would hardly seem necessary that the notice posted last year prohibiting the throwing of pennies from Harvard and Institute buildings should have to be repeated. Such a practice is not only disturbing, but injurious to the local reputation of the Institute, and to Tech would take pleasure in seeing it stopped.

With the Junior Prom only three weeks distant it seems appropriate to say a few words about it to the student body in general, but more particularly to the Class of 1908. The Committee has been working hard for the last month making all the necessary arrangements, and it now rests with the class to make the affair a success. To this end every man can contribute by buying a ticket and at-the same time doing a little more than contribute to the expense of the affair. Further delay in securing a ticket will very likely lead only to disappointment and disgust.
