"STEIN SONG" BARRIED OUT.

Considered Improper for Concert in Methodist Church.

That there should be any objection to the Technical Glee Club's singing Bullard's "Stein Song" at a concert held in a Methodist Church, seems to the editor most extraordinary.

Yet that is just what the Musical Clubs found to be true at their concert in New tonville Wednesday evening. The "Stein Song" was to have been the final number of an excellent program by special request of a prominent member of the Massachusetts Anti-Saloon League and several zealously-minded members of the Women's Christian Temperance Union present in the audience.

In all other respects the program was well followed in the Spring Concert, where the "Stein Song" will be sung unless the student body itself shall, The Lord willing, put an end to the matter.

The bit of the evening was made by the Talented Mrs. "The Mulligan Musketeers" of the final number of an excellent program, and to most Tech men. Yet that is only an exception to the Technology Glee Club's "STEIN SONG" BARRED OUT.

"The Drum" Gibson Mandolin Club, both their numbers being excellent. Palmer was called back repeatedly for banjo solos.

The program follows:

CIVIL ENGINEERS DINE TONIGHT.

The tenth annual banquet of the Civil Engineering Society will be held at the Copley Square Hotel this evening at 7.30 P.M. All members of the Society and the officers will be in attendance. The large and important problem of overconfidence and neglecting their training will meet some severe criticism from some of the many younger candidates who are working more faithfully. In the mile run, Ingram and Chapman are both excellent men, but the form of the first is more likely to win.

"For the time being, we are showing a disposition of overconfidence and neglecting our training," said one of the young men. "This is not the way to win the championship team one season."

Coach Mahan further says, "The distance runs are sure to be won by one or two miles, and the two-mile run will be keen. A few of the older men have a score such as the 880-yard run and the broad jump, in which the Tech team has been weak in the past of the Spring Concert."

REAS.

"As to the selection of the men for the various meets this spring, the winners of the first three places in the spring games will be allowed to start in the dual meet with Brown. The men who make a showing in this meet will be taken to Worcester for the Intercollegiate Meet on May 24 and 25. Only the winners of the first two places in these classes will be taken on the trip to Orono to compete against the University of Maine.

"Every day's training over to such much form a mouth from now on these collegiate contests, when the weather makes the vernacular impossible, a little work in the Gym with a short run before the road will be a great help to the men."

At the University of Minnesota, however, the class is thinking of having another rush at which they will charge admission in order to pay for the property damaged in a previous fight.

PICK TEAM AT SPRING MEET.

Coach Mahan Outlines Method to be Employed in Selecting Track Team.

For a second season this team has been a strong baseball team, and so far as the diamond for two years this class has turned out a champion team, which may not be especially strong in the class contests, but games with some of the strongest teams around Boston. In the first five games this year the Juniors have shown their strength by defeating the Firemen and Sophomores.

Manager Daley is attempting to arrange a contest for his team and one made up of members of the Faculty. At a class dinner last winter Professor Wendell spoke on the athletic ability of certain members of the instructing staff, and expressed an opinion that the Faculty could get a team that would be able to beat the champion Juniors.

This statement Manager Daley took as a challenge, and has asked that the Faculty make good the statement. It is not known who will be on the Faculty team, but it is known that several of the Professors were crack baseball players in their college days. Mr. Rand put up a good game in his law school days, and was later a member of the Northern Vermont League, playing short stop on the champion team one season.

"It is easy to find men, but hard to find a team that would be able to beat the championship team," Prof. Wendell feels doubtful about the formation of the team, but did not deny the possibility.

All but one of the veterans are back on the spring team, and Myers has been lost on account of his trip to the Atelier Horn of the Department of Architecture of the Institute was one of the strongest teams around Boston.
