THE TECH

Published every Monday, Wednesday, and Friday being the college year from September to June, by the Massachusetts Institute of Technology.

Section 2, Second-class matter October 4, 1879. Not subject to postal rates under the Act of Congress of March 3, 1879.

MECHANICAL ELECT. OFFICERS.

The Mechanical Engineers Society held a regular business meeting at the Union last evening.

Mr. C. A. Callan, a representative of the General Electric Company, spoke on Curtis Turbines.

After reading the reports of the various officers, the election of new officers took place resulting as follows: President, R. A. Atwood, '08; Vice President, C. G. Jarden, '08; Secretary, C. M. Steele, '08; Executive Committee, M. B. Allen, '08, H. R. Callaway, '08, and M. J. Turnbull, '09.

It was voted to present President Labbe with a gavel as a token of appreciation of his services during the past year.

Mr. Callan concluded with a comparison of the performances of turbines and reciprocating engines. This comparison was accompanied by slides illustrating turbine stations in different parts of the country.

SHOW POSTER PICKED.

The Show's poster competition this year has been very satisfactory. Eight posters were handed in, and of these four were available for use. It was only with considerable difficulty that the Management succeeded in making the final choice. However, considering the design, the coloring, and the advertising value of the different drawings, that submitted by S. E. T. Very, '07, was finally selected.

Drawings were received from students in all the classes. The drawings were all good and the competition was particularly interesting because last year it was necessary to go to a professional to get a poster which was not as good as at least three of those handed in this year.

Amateur Photographers ATTENTION!

The Best Developing paper for amateurs, "Cyko," will be demonstrated April 12, 13 and 15th from 9:30 A.M. to 5:00 P.M., at
