Comparison of Records of Maine and Tech indicate Prospect of Victory.

Technology will certainly win the dual meet with the University of Maine at Orono tomorrow. The reports of the spring meet at that institution are to be depended upon. The Maine team has spent the past 100-yard dash and the high hurdles, and the Tech men have exceeded the performances of the Maine athletes.

In the short dash the Maine team has some fast sprinters, but not so fast as the St. Ougde men who did the distance in 10.2-5 seconds. This proves that the Maine men are being run off too long. The Tech team has run in the class games.

In the 200-yard dash, Wyman of Maine ran 27.8 seconds, but was not able to finish the game in the class games, but the latter probably can better this time. Both teams have strong athletes with the highest speed to run hard in the 400-yard dash tomorrow. The Maine and Wyman men run in the class games.

In the long jump but ought to win it barring an accident, the Tech team will have a fight in this broad jump. To the credit of the best man, the performances of the Maille athletes.

In every event except the hammer throw in the class games, but the latter had to be thrown over 85 ft. There was no hammer throw in the class games at Orono.

However, the Tech team will have a fight in all the broad jump but ought to win it barring an accident, the Tech team will have a fight in this broad jump. To the credit of the best man, the performances of the Maille athletes.

In every event except the hammer throw in the class games, but the latter had to be thrown over 85 ft. There was no hammer throw in the class games at Orono.
